Glad to Recommend Fruitola and Traxo

Mrs. Norforth Says She Suffered with Gall-stones for Several Years Without Relief

MRS. ROSA NORFORTH

In a letter to the Pinus Laboratories, Mrs. Rosa Norforth, Monticello, Ill., says: "I cannot praise Fruitola and Traxo too highly as I consider it saved my life. I suffered with gall-stones for several years and could not get any relief until your preparation was recommended to me. It has been six months since I took the last bottle and I feel that I am entirely well. Have anyone doubting the merit of your preparation write me as I will be only too glad to recommend Fruitola and Traxo to anyone suffering from gall-stones."

Fruitola and Traxo are the names used to identify two preparations that are taken in combination. Fruitola acts on the intestinal organs as a powerful lubricant, softening congested masses and disintegrating the hardened particles that cause so much suffering, and expelling the accumulation with almost instant relief. Traxo is a splendid tonic, acting on the liver and stomach with most beneficial results and is recommended in connection with Fruitola to build up and restore the system that has become run down and weakened through the suffering incident to the derangement of the digestive organs.

In the files of the Pinus Laboratories at Monticello, Ill., are many letters gratefully acknowledging the satisfactory results following the use of Fruitola and Traxo. Arrangements have been made for the distribution of these excellent remedies by leading drug stores everywhere. In Harrisburg, Fruitola and Traxo can be obtained from Gorgas, the druggist, 16 North Third street and P. R. R. Station.

FIRE INSURANCE NOT TO COST MORE HERE

[Continued from First Page.] result of the proposed fire insurance rate readjustment the cost of insurance to the small property holder in the residential districts would be increased, while the rates in the business districts would be materially unchanged. This rumor was said by Mr. Gilbert to be absolutely false. He declares that on the other hand some of the rates in the business section may be somewhat increased, but that the fire hazards are shown to be great, but that in the residential districts the cost of insuring property will come down.

The Middle Department of Underwriters was requested to inspect and re-rate the city some time ago by the Chamber with the end in view of decreasing insurance costs here if possible, it being generally conceded that the rate here is too high as compared with other cities of like fire risk.

But the opinion seems to have gone abroad, according to the rumors here in the city, that the re-rating was for the purpose of increasing rather than decreasing the rates. It was even hinted that the local fire underwriters intended to "soak" the small property holders of the city to make up for the loss of insuring the State Capitol building as a result of a recent enactment which amended so that it was restored to the form in which it was introduced.

The House refused to concur in Senate amendments to the "equal rights" bill.
