COLD STORAGE BILL AMENDED IN HOUSE

Temperature Limit Raised to 40 Degrees; Special Order Tomorrow Morning

Amendments providing that forty degrees shall be the temperature limit on cold storage were made to the Senate uniform cold storage bill in the House to-day and the bill was made a special order for consideration at 11 a. m. Thursday. The bill was also amended so that semi-annual reports instead of quarterly shall be made to the Dairy and Food Commissioner. By a vote of 178 to 1 the House passed the bill appropriating \$500,000 for improvement of the port of Philadelphia, and then concurred in the University of Pennsylvania appropriation of \$1,000,000. The Philadelphia housing bill and the resolution proposing a constitutional amendment to consolidate the courts of Philadelphia were passed together with the Patton bill providing for payment of interest on damages for taking or injury of private property for public use. The Senate bill requiring county commissioners to provide telephones, typewriters and stenographers for school superintendents, which has caused much discussion this session, was defeated. The McCurdy bill allowing farmers to peddle their own produce in boroughs which was recalled from the Governor, was passed finally.

JITNEYS MUST OBEY STRICT REGULATIONS

New Traffic Rules Prohibit Them From Carrying Passengers on Running Board

Jitney regulations, promulgated by Mayor Royal and Colonel Joseph B. Hutchison, chief of police, following City Commissioner W. H. Lynch's polite inquiry in Council yesterday as to the lack of them—were issued to-day by the police department. The rules and regulations follow: "The congestion of street traffic, which is due in a large measure to the inaugurations of the jitney bus service, requires that some steps be taken immediately to safeguard the lives and property of the citizens, to this end, the following rules and regulations must be obeyed by all owners and drivers of jitney cars. "First—No vehicle carrying passengers shall permit such passengers to ride on the running board. "Second—But one passenger shall be permitted to ride along side of the driver of such vehicle. "Third—No such vehicle shall be permitted to take on or discharge passengers while in motion. "Fourth—All passengers must be received or discharged on the right hand curb of the street. "Fifth—All signs or other obstructions placed on the windshields which would cut off the view of the driver shall be removed. "Sixth—In order to avoid congestion at street corners all such vehicles shall be required to stop at least 75 feet from the near side corner of the intersecting street in order to receive or discharge passengers. "Seventh—All drivers must obey at once all signals from police officers. "Eighth—All vehicles are prohibited from running past a street car while said car is stopped, taking on or discharging passengers. "Ninth—All drivers of such cars shall signal with their arms the direction in which they intend to go, also when they stop, so as to avoid rear end collisions. "Tenth—All vehicles are prohibited from passing an overtaken vehicle going in the same direction in the Market street subway, on the approach to the Mulberry street bridge, and on said bridge 100 feet from the Cameron street approach. "Eleventh—No person should attempt to run such cars on the streets of the city before thoroughly studying the entire traffic ordinance, copies of which can be secured on application at police headquarters. "Twelfth—Any person or persons violating any of these traffic rules will be promptly arrested and fined. By order of the Mayor, Joseph B. Hutchison, Chief of Police."

Carranza Expected to Retake Mexican Capital

By Associated Press

Galveston, Texas, May 19.—A reliable statement of some Carranza's military plans coming from Carranza himself was given out here to-day by an American who has just returned from Vera Cruz. Reports are frequent in Vera Cruz that General Carranza intends soon to remove his camp to Puebla, then to retake Mexico City and there permanently establish the constitutional government. General Carranza himself frankly says he has no immediate intention of returning to Mexico City notwithstanding the effect the return might have among other nations. Carranza's reasons for this, he says, are: "That the people of Mexico City are antagonistic to him; that the city would require a large garrison which necessarily would take thousands of his soldiers from active field work; that Mexico City has no military advantage; that at Vera Cruz supplies are available from foreign countries and communication with the outside world cannot be interrupted. General Carranza rarely appears in public. Fortified in a lighthouse 300 feet from the bay and within sight of the American cruiser and gunboat usually lying off the harbor, the first chief remains secluded with his cabinet members. Many persons here comment on this apparent aloofness as being in marked contrast to the custom of former President Madroero of giving audiences to his followers.

Impeachment Petitions Against Judge Baldrige

Petitions praying for the impeachment of Judge Thomas J. Baldrige, of Buffalo, were introduced to-day to the House of Representatives to-day on behalf of Edward J. Maher, of Altoona, by Representative Maurer, Berks. The petitions were referred to the judiciary general committee, but owing to the fact that the Legislature adjourns to-morrow any action this year is improbable, according to Chairman W. H. Wilson. The petition contains a dozen charges, being based largely upon statements made before the Federal Industrial Relations Commission at Washington some days ago. It is also charged that the election of the judge was favored by a "secret" committee which collected a large campaign fund to which liquor license holders contributed. Criticism of various acts of the judge is also made.

Explosion of Gas Starts Fire in West End House

With a detonation that rocked the house and rattled window panes for a square, a gas pipe in the cellar of 624 Curtin street, exploded this afternoon, setting fire to the building. William Heller, a railroad worker, moved his household goods into the house this morning. Unaware that the gas had already been turned on he took a lighted candle and went to the cellar to make connections. He set the candle down and went up the stairs for tools. The man had barely reached the top when the explosion occurred. He was thrown on his face but escaped uninjured. A fire alarm was turned in from box 46, and the flames were extinguished with little damage.

CHURCH TO PROTEST OFFER

Messiah Lutheran Congregation Opposed to Sale of Site for \$50,000 At a meeting this evening of the congregation of Messiah Lutheran Church the offer made to City Council yesterday of the present site of the church will be discussed. In a letter to Council ex-Rabbi Samuel Friedman suggested that the city buy the church property at Sixth and Foster streets as a possible site for a firehouse in the event that the Mount Vernon truckhouse is purchased by the State in the extension of the Capitol Park zone. The letter stated that the congregation recently agreed upon \$60,000 as a price, but the former rabbi said he believed that the city could purchase the ground for \$50,000. In concluding his letter Mr. Friedman urged Council not to neglect "this golden opportunity." Members of the church, however, declare they will not be willing to sell the site for the amount specified and it is understood that a formal protest will be framed to-night.

P. A. just-jams-joy against your palate!

No matter whether you pack your old jimmy pipe brimful or roll a makin's cigarette, Prince Albert certainly will make you feel like a two-year-old on the tobacco question just as soon as you hitch it up to a match. And that's a fact!

You can't anymore tell how good P. A. is just from talking about it than you can judge the depth of a well from the length of its pump handle. You get personal information dug right out of a tidy red tin or toppy red bag quick as you can conveniently beat it to the nearest shop that sells tobacco!

No matter how much you think you can't smoke a pipe, or roll a makin's cigarette, no matter how much you have been tongue-scorched, you can smoke a pipe or roll a cigarette if you'll take a few grains of faith and believe in Prince Albert. It can't bite your tongue and can't parch your throat, because the bite and the parch are cut out by a patented process owned exclusively by R. J. Reynolds Tobacco Company.

No other tobacco can be like Prince Albert. You'll get the quick cue on that!

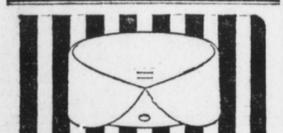

Gather round here a minute! First thing you do next, buy some Prince Albert and have a party. Get chummy with it in the tidy red tin and you'll mighty soon graduate to the crystal-glass pound humidifier that's a thing of beauty and a joy forever. It keeps Prince Albert at the high top-notch of perfection—and keeps you jimmy pipe joyous and cigarette makin's happy!
