LIFE ON THE FARM IMPROVING EACH YEAR

Farm Life Finds Women Are Contented, Happy and Many Are Making Money

Secretary of Agriculture Houston has been corresponding with the farmers' wives throughout the length and breadth of the land. The farmers are not jealous, we think, but no doubt some of them are mad. Just listen to this:

"The farm is run for the benefit of the farm and not the family. Of what use is it to buy more land to raise more corn to feed more hogs to buy more land?" This is an extract from a letter written by a Michigan woman.

There are many other uncomplicated letters, and the majority of the writers seem to think the farmers are inconsiderate if not actually stingy when it comes to dividing up the profits with the women folks.

We are afraid Secretary Houston has fallen into a pit of his own digging. Perhaps he does not realize that the complaining women have a readier pen than the contented women. It is true that some farmers are selfish and dictatorial, but some bankers and some preachers of the gospel. It is not true that the farmers' wives are the most mistreated of women.

Farm Life receives letters from several hundred farm women every day in the year. In fact, about seventy-five per cent. of our correspondents are women. They renew the subscription for the family paper each year, they make inquiries of the editor or of his staff, they tell their experiences, and they even tell their troubles—but not one in a hundred complains of her husband.

We think we know more farmers' wives than Secretary Houston knows, and we think he has misjudged the situation. Life on the farm is serious and sometimes it is hard and lonely—but it is improving every year, and the great majority of farmers make things as easy as they can for the women and children.—Farm Life.

Italy Wanted Demands Granted Immediately

Amsterdam, via London, May 21.—It became increasingly clear after the death of Marquis San Giuliano, says the Norddeutsche Zeitung of Berlin, in giving a history of the negotiations with Italy, that strong forces were at work in Rome to bring special advantages from Austro-Hungary in exchange for the maintenance of neutrality by Italy.

Neurasthenia is condition of nervous exhaustion in which the system fails to recuperate after unusual demands upon its nervous energy. Its symptoms are over-sensitiveness, irritability, disposition to worry over trifles, headache, possibly nausea.

The treatment is one of nutrition of the nerve cells, requiring a non-alcoholic tonic. As the nerves get their nourishment from the blood, the treatment must be directed towards building up the blood. Dr. Williams' Pink Pills act directly on the blood and with proper regulation of the diet have proved of the greatest benefit in many cases of neurasthenia.

Two useful books, "Diseases of the Nervous System" and "What to Eat and How to Eat," will be sent free by the Dr. Williams' Medicine Co., Schenectady, N. Y. if you mention this paper.—Advertisement.
