### Remarkable Remedy That, Works All Through Your Body.

When you put a tablespoonful of f. S. S. into your stomach it gets straight into your blood. In less than dwe mini-utes it has become a wave of restora-tive influence wherever the blood has eirculated. Does this read like magiof But it is absolutely true. Those power-ful digressive juices in the stomach can not charge the medicinal effect of S. S. The liver can not burn it. The lungs, skin and kidneys excrete it only after S. S. B. has set in motion millions of cells and nerves to throw off the count-less germs that have infasted every part of the body. And as S. S. continues to batile those troublesome pests that gather in the form of pimples, bolk, ec-sema, some, catarrh, rheumatism and other so-called blood disorders, it routes ind action a myriad of strange but well-underside dory uses a strange but well-underside corpuseles called huscocytes that actually devour or change or con-ver disease germs so they are readily and quickly cast out of the body, It is probably the best appreciated blood medone known; You will find S. # CARE OF WOUNDS VERY ESSENTIAL

### Dr. Dixon Gives Some Timely Advice About Taking Care of Scratches in Springtime

Dr. Samuel G. Dixon, State commissioner of health, says that this is the time of year for people to learn how to take care of the wounds and scratches and other mishaps that are likely to befall people in Spring and Hard to Choose summer. Leaving out of consideration Fourth of July accidents the com-

this reason court plaster should not be used. "It is wise for travelers, campers and vacationists to provide themselves with sterilized bandages before start-ing on a trip. These are put up in convenient and compact form and are a material aid in caring for wounds. In case sterile bandages are not at hand, linen can be sterilized by press-ing on both sides with a very hot iron or by dipping in some antiseptic so-lution. "Deep cuts and wounds of a more

PACKARD ANNOUNCED Twin Six Motor Arranged in V. Form With Hood Shorter Than **Previous Models** 

TWELVE-CYLINDER

A tumult of rumors relating to a twelve-cylinder Packard has been crystallized by the announcement of the Twin Six. It is stated officially that the new model will be on exhibition in Indianapolis during week of the big race. the

In external appearance the new car retains all the well-known Packard characteristics. It looks much like previous models, except that the hood is shorter, the radiator tapered to conform with it, and the running boards set two inches nearer to the ground. The reduced length of hood

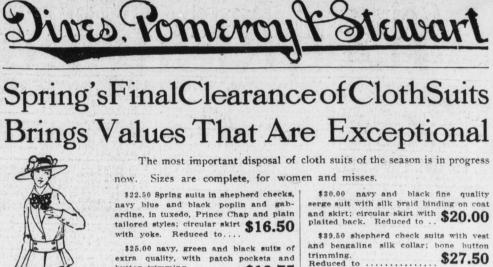

ermits of a shorter wheelbase. When the hood is lifted startling hanges are revealed. The twelve ylinders are there all right, but it is hard to realize that such a power plant can be so completely stored

The Twin Six motor is exactly what its name implies, two six cylinder blocks arranged in V form with an angle of sixty degrees between them angle of sixty degrees between them. This small included angle allows such accessories as starting motor, genera-tor and water pump to be played in the standard Packard position just inside the frame, so that the space between the cylinders is left clear and the valves are conveniently accessible without the removal of a single acces-sory. The acute angle between the cylinders also permits of a narrow frame at fhis point, with the result that the turning radius is even shorter than before. The motor is of clean cut design with nickeled trimmings and enameled cylinders. The bore is three inches and the stroke five inches. The Twin Six has a remarkable

Christie MacDonald, the star of "Sweethearts," to be seen at the Majestic next Thursday evening, is what is known in the vernacular as a golf "bug," Miss MacDonald never misses an opportunity to visit the links and plays as remarkably steady game. There is every reason why she should play golf as she comes from Scotch parentage. On the occasion of her first visit here as a star in "The Spring Maid," she scored a tremendous success. It is said that "Sweethearts" is the best opera in which she has appeared.—Adv.

In the cast are numerous artists, such as Ed. Southern's nephew and Mary Holton, whose work last year was notably good.

The company as a whole is unsur-parsed by any other open-air troupe playing in America this summer. The entire cast is made up of metropolitan actors and actresses who are just com-pleting the season in New York city. Their booking for the summer is com-plete. Their itinerary is a long one and embraces the most fashionable country clubs in the vicinity of New York and Philadelphia, colleges and izations.
