**ASKS JURY TO FIX VALUE OF FINGERS**

Lincoln Sherk Pressed Too Hard Upon Meat Chopping Machine; Digits in a Steak

The value of two fingers wriggling freely and serviceably at the end of some beef in the mechanical "chopper" computed in mere dollars and cents by Lincoln Sherk; what the same digits might be worth as the essential ingredients of a "hamburg steak" Lincoln has decided to let a Dauphin county jury determine. Personally Sherk figures about \$5,000 for the pair.

The plaintiff is a 14-year-old butcher's apprentice who, while grinding some beef in the mechanical "chopper" at Charles W. Sheaffer's shop, pressed the meat down just a trifle too hard into the machine. When the wheels were finally stopped the half-fainting lad held up the bleeding stubs of two fingers. The major portions of the digits had become part of the steak. Suit in trespass was filed against Sheaffer to-day by Attorney W. L. Loeser, counsel for Sherk.

**Aunt Sally's Advice to Beauty Seekers**

Lydia says: "I've tried most everything for my freckles, but can't lose them. What do you suggest?" See answer to "Stella." The treatment suggested I've never known to fail in any case of freckles or other cutaneous blemish.

P. J. K. asks: "Is there anything better than massage to remove wrinkles?" Too much massaging may aggravate a wrinkled condition, tending to soften and loosen the tissue. I advise bathing the face in an astringent lotion made by dissolving an ounce of powdered salite in a half pint witch hazel. This is remarkably effective.

Stella writes: "My complexion is horribly muddy. What shall I do for it?" Get an ounce of mercolized wax at your druggist's. Apply this nightly like you'd use cold cream, washing it off mornings. This will cause the offensive cuticle gradually to make way, by a process of gentle absorption, for the clear, velvety healthy-hued skin underneath.—Woman's Realm.—Advertisement.

**Madam, Allow Me To Introduce the New Post Toasties**

You may have eaten "corn flakes" but you have never tasted any that equal the New Post Toasties.

These new flakes, madam, are crisp and flakey, and have a substance and toastie flavour, a snap and zest that makes them distinctive.

Daintily to be sure in their sweetness, the New Post Toasties have a body and firmness that don't mush down when cream or milk is added; and a true ripe-corn flavour that makes one feel that here, at last, is something really new and good to eat.

New Post Toasties—selected Indian corn, prepared for the table as it was never prepared before.

Your grocer has them now.
