Tried Fruitola and Traxo and Has Never Since Been Troubled With Gall-stones

Mrs. Mary E. Franse, whose address is West Point, Nebr., Box 411, has written to the Pinus laboratories a very strong endorsement of Fruitcle and Traxo. In her letter, Mrs. Franse says: "About ten years ago I was about to undergo an operation for gall-stones when I heard of your medicine. Dreading an operation above everything I determined to try Fruitcle and Traxo and have never been sorry I did so, as I have never been troubled with gall-stones since."

Fuitola is a powerful lubricant for the intestinal organs, and one dose is usually sufficient to give ample evidence of its efficacy. It softens the congested masses, disintegrates the hardened particles that occasion so much suffering, and expels the accumulated waste to the intense relief of the patient. Following a dose of Fruitola. Traxo should be taken three or four times a day in order to rebuild and restore the system that has been weakened and run down by constant suffering. It is a splendid tonic, acting on the liver and stomach most beneficially.

MRS. MARY E. FRANSE

In the files of the Pinus laboratories at Monticello, Ill., are many letters gratefully acknowledging the satisfactory results following the use of f Fruitola and Traxo. Arrangements have been made for the distribution of it these excellent remedies by leading drug stores everywhere. In Harrist burg Fruitola and Traxo can be obtained at Gorgas' the druggist, 16 t North Third street, and P. R. R. Station.

Estimates will take up to-day the question of bitney buses under municipal regulation. After a discussion of the many sides of the question, particularly from the viewpoint of revenue and responsibility in case of accidents, it is believed City Solicitor Field will be requested to prepare an ordinance to be introduced in the City Council regulating the traffic which is becoming greater every day.

The attitude taken by the municipal authorities is not antagonistic to this new method of transportation, it is said, but rather a determination to regulate the traffic. Under present conditions a jitney can operate by fulfilling the obligations of the Motor Vehicle Commission. The result has been that there has been no direct revenue to the city, despite the admitted fact that infoads have been made upon the income of the United Railways and Electric Company, which pays to the city a 9 per cent. tax upon its gross receipts, in addition.
