

"Better Food-Better Homes" Week 3d Annual Cooking School of the Harrisburg Telegraph

HAPPINESS OF HOMES DEPENDS ON MOTHERS

(Continued from First Page.)

wives greeted Mrs. Vaughn at the opening session, yesterday afternoon at 1:30 o'clock in Fahnstok hall. The domestic science expert was introduced to the "class" by Mrs. Anna H. Wood, who writes special articles for the Telegraph. Her methods of preparing and cooking food were attentively followed by the eager housewives. Sessions will be held each day during the week in Fahnstok hall at 1:30 o'clock.

Wins Many Friends

With a smile which radiates cheer and good fellowship, Mrs. Vaughn is winning many new friends in Harrisburg. The women who heard her two years ago and liked her work at that time are enthusiastic in their praise of her present lecture and cookery course and find that in the past two years she has added much to her house-keeping and cookery knowledge. A big class was on hand this afternoon for the second session of the Telegraph Home Economics School. In her snowy domestic science uniform surrounded by the best and most modern culinary utensils, all of which have been loaned for her use by the enterprising merchants of Harrisburg, Mrs. Vaughn makes a very charming picture of domesticity. It is suspected that her personal appearance as well as her cookery instruction will do much to enhance the efforts of Cupid among the young folks of the city.

Mrs. Vaughn is convincing the members of her classes, young and old and middle aged that there is no such thing as kitchen drudgery, and that cooking is just as fine an art as any other work and requires as much care, brains and artistic skill. Mrs. Vaughn's own ideas of art and beauty are cleverly displayed in her cake decorations. A most wonderful exhibition of this was given in the cakes which were awarded yesterday as souvenirs of the Telegraph Home Economics School. Other cakes will be given away at every session of the school.

Uses Fireless Cooker

Yesterday Mrs. Vaughn taught how to make a delicious egnog cake with chocolate cream icing. Muffins were baked, and the process clearly ex-

plained to the class. This afternoon Mrs. Vaughn gave a helpful lesson in the use of the fireless cooker, showing how to roast a chicken by fireless. This chicken will be served to-morrow in the form of chicken croquettes. Mrs. Vaughn's cookery lessons are unusual in that she prepares every day a complete menu, thus giving in a practical fashion, helpful instruction in the planning of meals. For each lesson there is a meat course with its accompanying vegetables and a salad and dessert.

The lecture for to-morrow afternoon on "Food" is one of the most interesting one of the entire course, and in this as in all of her talks, Mrs. Vaughn makes a plea for intelligent feeding of growing children.

Mrs. Vaughn's Receipts

Rosettes
2 eggs, 1/2 teaspoonful salt.
Slightly beat and allow to stand for few minutes, then beat well, sift 1 cupful flour alternating with 1/2 cupful milk—batter should be consistency of cream—add more milk if necessary to maintain consistency. Dip rosette iron in hot crisco and when well heated lower into batter and submerge in crisco heated as for croquettes. Drain on paper and sift over the powdered sugar.

Astor Salad
Chill canned pineapple and when ready to serve, peel and shred third as many apples as you have individual apples to serve, one-third as many bananas, and with shears shred lettuce leaves. Place slice of pineapple on shredded lettuce, and place shredded fruit on this—in center top with boiled dressing garnished with cherry.

Banbury Tarts
1 cupful raisins, 1/2 cupful currants, 2 large soda crackers, juice and rind of 1 lemon, juice and rind of 1 orange, 1/4 cupful sherry, 1 cupful brown sugar, 1 egg.
Roll crackers, mix ingredients, roll pastry very thin, cut in rounds, place 2 teaspoonfuls of the mixture in center, wet edges, fold, press edges together with fork dipped in flour. Snip holes in top with scissors. Bake until brown in hot oven.

NEWS OF THE RAILROADS

BRIDGE BUILDERS WORK ON TRESTLES

Will Carry Concrete Cars and Other Machinery; Fillers Soon Ready

Mammoth trestles are being constructed at Island Park to facilitate the work on the new Cumberland Valley railroad bridge. On these trestles will be built temporary tracks and concrete mixers.

The additional tracks will enable the handling of the concrete cars, steam derrick and other machinery, without any delays to the trains passing over the bridge.

The construction of the fillers for the piers is also a part of the work now going on at the Island. These fillers will be placed in position as soon as the machinery for mixing the concrete is ready. It is understood that two forces of men will work as soon as the contractors are ready for the concrete. One force will work westward to the Cumberland shore, and the other eastward to Harrisburg shore.

Altoona Shops at Work on Freight Engine Order

Of the 144 locomotives which are included in this year's program of equipment requirements of the Pennsylvania railroad fifty have already been ordered to be constructed at the company's own shops at Altoona, and when they have been finished orders will probably be given to construct the remaining ninety-four at Altoona. The fifty locomotives to be built at Altoona as well as the fifty ordered last week by the lines west are of the heavy freight type. Of the fifty to be ordered by the lines west forty will be divided between the Pennsylvania Company and the Panhandle, while ten are for the Vandalla.

VISITING IN THE WEST
James Moore, of this city, telephone inspector Pennsylvania Railroad, and Thomas J. Kline, Pennsylvania railroad station foreman, of Lancaster are spending a few days seeing Chicago, and at the Western Electric Company plant in Hawthorne, Ill.
