

To You Who Wait Your Baby's Coming

Have you stored your scented boxes with clothes of dainty charm? Have you stored your mind with the wisdom that mothers need?
Have you learned about the bathing and the regular feeding - and have you learned - most of all - about the food?

Fortunate your baby if you can nurse him. Learn this now—(you will prove it after the baby comes). If you can't nurse your baby—he must have something so near your own milk he won't feel the difference. Give him

Nestles Food

Your grandmother and your mother believed in it. The mother of today believes in it still more. Five mothers use Nestlé's today where one used it seven years ago.

There are so many reasons why cow's milk is not best. So many dairies are dirty—so many cows are sick—so many thousands of babies get summer complaint and even consumption from cow's milk.

But in cow's milk there is something that is good for your baby—

thing that is good for your baby— and that something is preserved in Nestle's Food. Nestle's is made from the milk

of healthy cows kept in sanitary dairies. All the heavy parts of

milk are modified, so that the curd is soft and fleecy as in mother's milk. All that your baby needs and the calf doesn't is added. It comes to you in a tight can - you add only fresh water.

COCOANUT OIL MAKES A SPLENDID SHAMPOO

If you want to keep your hair in good condition, the less soap you

ood condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just ordinary mulsified cocoanut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified cocoanut oil (it must be mulsified, plain cocoanut oil will not do) at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

\$31,000,000 in Railroad Orders This Month

Railroad orders this month have sent a thrill of activity through many important industries of the country. The steel trade now presses forward with an assurance such as it has not felt in months. Back of it stand the coal and coke, iron ore and limestone operations, which find their fullest prosperity only when iron furnaces and steel mills are running full blast. So far this month the railroads of the country have arranged definitely for new equipment—cars and locomotives—to cost \$31,000,000. That is double the total amount of equipment ordered during the previous four months.

Shippensburg, Pa., May 26.—The Governor and his good roads party swung through Newville, Oak Mill, Newburg and Rocksboro early this afternoon. They reached Shippensburg about 3 o'clock. Considerable time was spent on Cemetery Hill, near Newville, which was in very bad shape. Stops were made at each of these places and much work was done at intermediate points. The Governor, apparently, was greatly enjoying himself and swung a pick with as much ease late this afternoon as he did this morning. The party is expected to arrive back home about 5 o'clock.

Accompanying Governor Brumbaugh are Acting Secretary Furman, W. R. D. Hall and Joseph W. Hunter, of the State Highway Department, and James F. Woodward, chairman of the House appropriations committee, and about a dozen newspapermen.
