

SAVS FIRECRACKERS EXPLODED IN POCKET

Youthful Paul S. Erb Begins Action Against Annie Albitz to Recover \$5,000 Damages

Suit for \$5,000 damages for injuries alleged to have resulted from the premature explosion of a pack of firecrackers in his trousers pocket was filed today by youthful Paul S. Erb and his mother, Mrs. Lottie B. Erb, against Annie R. Albitz. The action was begun by Attorney W. L. Loeser.

While Attorney Loeser has not yet filed his statement, he said today that the youth was visiting on the Albitz farm in the upper end of the county, last July 3 and had fallen asleep. He was carrying a pack of firecrackers in his pocket, he said, and while snoring someone—Erb says he believes it was a son of Mrs. Albitz—quietly set a lighted match to the fuse of the firecrackers. The resulting explosion and the burning of clothing and he was so badly burned about the hip and waist that he has since been confined to an invalid's chair.

HOW TO REDUCE VARICOSE VEINS

Many people have become despondent because they have been led to believe that there is no remedy that will reduce swollen veins and bunches. If you will get a two-ounce original bottle of Emerald Oil (full strength) at any first class drug store and apply it night and morning as directed you will quickly notice an improvement which will continue until the veins and bunches are reduced to normal. Emerald Oil is extensively used in hospitals and in factories as first aid to the injured. It is a harmless, yet most powerful germicide and two ounces lasts a very long time. "SWEETHEARTS" IS DELIGHTFUL OPERA

Christie MacDonald, Charming as the Lost Princess, Captivates Audience at Majestic

When Victor Herbert writes the music for an opera, one may rest assured that it takes more than an ordinary voice or group of voices to do justice to it. Just so with "Sweethearts," presented last night at the Majestic with Christie MacDonald in the leading role. While "Sweethearts" cannot stand on a musical par with some of Herbert's earlier operas, it is no less excellent in the quality of voice required for interpretation. With such demands, it is but natural to expect that the principals and cast would live up to the requirements. And they did in every way. The chorus of "Sweethearts" stands second to none with the possible exception of that in the fiercest revival of "Robin Hood" heard here earlier in the season. The chorus was in every respect worthy and capable of presenting the music in a highly artistic manner, and judged alone from the standpoint of vocal ability, was so far above the ordinary that comparison with any other is impossible.

"Sweethearts" is a light opera written around the life of a lost princess. It seems to be Christie MacDonald's lot to be ever playing such a role, but there is no one better equipped to that, for she is ever charming in that capacity. Of course there are a lot of counter plots which sustain the interest until the curtain falls, all of them so well woven that there is a real interest, aside from the music. Christie MacDonald's supporting cast was one of most excellent caliber. Edwin Wilson as Franz, the heir presumptive, was her leading man. Mr. Wilson won the audience with his singing particularly in "For Every Lover," and in "The Angelus." Mr. Wilson's voice is one of rare beauty and range and was heard to excellent advantage in his numbers. The score supplied Miss MacDonald with some excellent numbers, but she was apparently suffering from a heavy cold which markedly affected her singing, especially in her upper register. The other members of the cast, notably Echlin Gayer as Hon. Percy Algernon Shingley, Ralph Nairn as Mike Mikoloviz, Anne Sussert as Lane, Maude Beatty as Dame Paula supported Miss MacDonald in a most commendable manner.

All in all, "Sweethearts" was, it is fair to say, the most beautifully presented, well sung, operetta presented here this season. MAX ROBERTSON.

Daniels Makes Inquiry of Submarines' Disability

Washington, May 28.—Secretary Daniels was going ahead to-day with his plans for an exhaustive inquiry into the disabling of submarines which had been assigned to take part in the recent war game with the Atlantic fleet. Unofficial reports said that half of the twelve underwater craft had been disabled. The purpose of the inquiry will be to ascertain the cause of, and, if possible, a remedy for, the too frequent breakdowns of the submarines. No effort will be spared, it was announced, to remedy the weakness in the navy's underwater craft.
