And what are blood impurities? They may be the hypersecretions found in the nuccous linings of the body; they may be acid accumulations known as rheumatism; they may be boils, pimples, ecaema, acca and stubborn, indolent sores. But examined closely, they are all germs that have gotten the upper hand and it requires the flushing influence of S. S. S. to drive them out. And out they go when S. S. begins to circulate in the blood. It only requires five minutes to begin this influence, for it is a fact that in this limited time S. S. May be traced in the urine, in the perspiration, in the effloresence from the lungs to you, are of various kinds, but all are foreign to health and S. S. S. so respecter of destructive germs. It drives them all out, of whatsoever name they go by. Just get a bottle of S. S. S. of any druggist and soon you will observe a decide change. And if yours is a stubborn case, write to the Medical Adviser, care of The Swift Bjecific Co. 107 Swift Bldg., Atlanta, Ga. He is a regular physician, proud of his name by virtue of his distinguished family and is recognized as a foremost physician on his own merit.

TO DEVELOP THE BUST

It is no wonder that a woman with a well developed bust and pretty neck and shoulders is always the center of admiration when the great majority of ladies these days are so thin, flat chest-ed and scrawny. It is silly for a wo-man to allow false pride to keep her from enjoying to the full the charms of perfect womanhood when it may so easily be obtained by a process that will positively be of benefit to the gen-eral health. It does not matter how thin or flat chested a woman may be if she is over 16 years of age, or under 50, she can have a bust that will be the envy of all her sex. All that is necessary for her to do is to drink plenty of frest water and get from any good druggist a little Salitone in tablet form and take one tablet after each meal and one before reitring at night.

In the two days since Madame's tour had brought her to Los Angeles, where she remained as the guest of her old friend and compatriot, he had learned more of her human side than many years' con-tact had given him. And now he was seeing that he was not alone in find-ing the road hard, the fruits turned bitter upon the palete. "Little Dora twisted her ankle one morning while I was busy with a pupil. Faith Is a Wonderful Asset In Striving For Prosperity

June is a time for optimism; for courageous pushing ahead; for earnest striving-and for FAITH. From the very beginning, let us all turn a cold shoulder on the sombre, gloomy pessimist who is nothing more than 'sand in the bearings.

Rebuilding and remodeling this store is going rapidly forward, and in referring to this, we ask you to remember two things; first: building operations are to be seen from Market Street only, not from the interior; for within, departments and stocks must be kept in tidy arrangement to suit the ideals of tidy housekeepers: second: we must purchase the same quantities of merchandise to have the necessary assortments, but owing to less selling space, goods must be disposed of in a shorter time, very often at a lowered price. This will be to your advantage in frequent visits.

A Little Chat With the Future Homekeepers

There'll be an increased number during this coming month, and not a moment is to be lost

> in preparing for the new home, whether in dwelling house or apartments.

May we suggest that in seeking furniture of dependability-and in a new home it must be of late pattern also, a visit to our furniture floor will be very helpful-and really profitable.

Our best courtesy shall be yours, and inexperienced buyers, may have complete confidence in the hands of competent salesmen.

A Hastings Kitchen Cabinet For the Bridal Gift

But this will interest every home keeper as well. The Hastings Cabinet is a kitchen essential: for it is a labor saver.

A time lengthener; and because in shortening the amount of actual kitchen work, it gives the housewife more time to contribute to other domestic, or social duties

Of the construction, a great deal might be said. To best illustrate the convenience, imagine half and perhaps the greater amount of your kitchen requisites that are scattered here and there, placed in a Hastings Cabinet-always handy-always there when a certain article is needed.

To fully appreciate the merits of these cabinets you must see them and listen to a demonstration. Investigate our Club Plan.

There Are Two Ways of Lowering Ice Bills

One is to buy less ice; the other to purchase a Notaseme Stone Lined Refrigerator.

But the wrong and right of these methods lies in the fact that by the former, you will not have secured sufficient ice to preserve the food; and by the latter, the ice is preserved and lasts longer.

The Notaseme Refrigerator is designed to be of greatest advantage:

-Air tight doors create a vacuum in which ice will last a maximum amount of time.

-Six walls make it virtually heat-proof. -Seamless stone lining with no cracks or crev-

ices, make it easy to clean, and at all times sanitary. -Handsomely constructed with a hard ash case, and polished.

CARL DE RETSKY,

The two who had eaten of the fruit avoided meeting eyes. It was as though they feared to read each other's fear, as though they realized themselves but children kindling bon-ilres in dry virgin forests. And their fear seemed by some odd freak to have transferred itself to a liny cottage in the outskirts of the city, where a little woman bent her bead the lower over her knitting while her husband joyously, eagerly told for the twetleth time of his experience. She could not analyze the mixture of emotions tugging at her very heart strings, the joyous ache, the leaden ecstasy, the torturing delight all strugging there for mastery. "Europe, Ann! His fist was tightly clenched as he gripped a fence paling. "Cultivate my voice?" His voice was husky, hoarse. "Cultivate it! But who will pay for the job—who pays?" He looked about him, at the tiny farm house, the small farm, the shabby outhouses, all indicative of small means.
