## APPRECIATION

As we stand at the threshold of our sixth year in business, it is with pardonable pride that we note the achievements of the past five years.

Step by step we have won the confidence of the people of this community-year by year their generous patronage has assumed greater proportions, until to-day this store stands high among the city's leading commercial enterprises.

It is to them that we extend a word of appreciation at this time, and pledge ourselves to maintain the same high standard of merchandising policy, that has won and sustained their confidence in the past.

In the future, as in the past, the watch word of this store will be "Onward" and every step forward that will add to its importance to you will be taken without hesitation.

For the part you have played in our successes of the past
