Governor Brumbaugh be-lieves this highway should touch Lewistown, McVevtown, Newton Ham-iton, Mt. Union, Mill creek, Hunting-don, McConnelistown, Marklesburg, Entriken, Saxton, Hopeweil and Ever-ett. From Everett the highway would be merged into the present State Highway and from that point west-ward to Pittsburgh. This route would skirt the Juniata river and the Rays-town branch of the same river, a won-derfully beautiful section. It is the Governor's purpose to make Pennsylvania as attractive as possible for the tourists of the country. He has a natural pride in the State and its splendid history and believes Har-risburg should be the most important point on the great highways systems— State and National.

Why the "Dope" Came Back The county resident physician, we had treated the woman, mentioned how his attention had been called to the physician of this success by the Lambert Towns treatment; of how, weeks after he had visited her for the last time and had pronounced her cured, she had turned up for treatment at the 'dope' ward at the almshouse. The resident physician discussed briefly for the board the effect of the opiates on a victim, of his or her lack of will power, and of how the treatment means a complete isolation from the drug. One patient, he said, had been using opium for thirty-seven years and really made her husband know she was using it."
