The three big schemes for entertaining the youngsters this year can be readily worked out. For the weekly picnic it is planned to appoint some competent woman to take the small folks of each playground turn about at least once a week to Wildwood. The co-operation of the traction company will be solicited to help transport the "kids." Each small man and lady will take his or her lunch along and the whole day will be spent in the great recreation park.

association has agreed not only to fit the Harrisburg public library. The sassociation has agreed not only to fit the hooks but to supply a teacher who will spend a certain portion of one day each week to read and tell the youngsters stories on the playsound.

The openair play will be unique in that it has never been worked out in the stiff of a unparalleled natural setting for a stage. Some little playlet involving a fairy story with chorus music and dancing by the choruship and he worked into the program. High Standard of Applicants Relative to the possible playground instructorship appointments Mr. Taylor declined to talk. "All I can say, is," said he, "the list is practically complete and I will be ready, I think, to announce it Monday. Some of the old teachers are retained; some are entirely new. I would like to speak a word or two about the highly meritorious character of the applicants as a whole. We had scores of applications to fill a couple of dozen jobs and all were especially commendable. However there was not enough places for all and we had to pick what we thought it best to select those who were older or who had wider experience as the care of the city's children on its playgrounds is an especially important matter." The season will open June 21.

sembly. This bill provides a penalty, but does not authorize anyone to institute prosecution. Its enforcement is, therefore, not provided for, and it would not regulate the practice of optometry. In section 4 it requires a unanimous vote of seven members to refuse to grant a license. In the sentence immediately following four members are given the power to grant a license. This is a fatal contradiction. The secretary-treasurer, if chosen from the appointive body, would receive a yearly sum in excess of \$3,000, an unreasonable charge. The attempt to maintain the board by an annual tax of \$1 would involve such an expensive and annoying service to practically defeat the end sought. No one is designated to pass upon the preliminary education of applicants. The last sentence of section 6 assumes the validity of a law that was repealed four years ago. There would also be criticism well founded in the limitation of advertising to certain newspapers to the exclusion of others. These technical objections should be considered in connection with the general objections given in the former veto. The practice of optometry ought to be regulated in this commonwealth, but not by creating in this commonwealth but not by creating in this commonwealth. ating in this uncertain way a new and

SIDES & SIDES

Where Once the Old "Grand" Stood

NLY a vast hole in the ground marks the site where for 119 years, stood that famous old building known as the Grand Hotel, the Post Office, The Park House and on back,-and of recent years an auxiliary of this store.

I Deep-rooted into the earth, huge concrete pillars will be planted from which a six-story framework of steel will grow and soon sturdy branches may be seen shooting forth in the growth of this great commercial tree.

Free from all obstacles, the doors of the building to the right welcome visitors to come here at all times and shop with the same convenience that you have heretofore enjoyed.

And let us remember the ever increasing economies that will be found here during rebuilding operations.

Five other House bills were vetoed,

as follows:

Making term of office of city and county inspectors of weights and measures four years, on which the Governor says: "This bill amends the act of May 11, 1911, by changing the tenure of inspectors of weights and measures from good behavior to a term of four years. The present law puts these officers on a secure tenure free from political menace. This bill would make these offices part of the spoils of office. It is legislation away from modern thought and against sound public policy."

Repealing section of act of 1841 relative to county officers on the ground that it was predicated on another act which was vetoed.

Regulating election of commissioners in first class townships, on which the Governor says: "This bill would give certain election districts the advantage over others in representation upon the board of commissioners. There can be no just reason for such discrimination. The present law is more equitable and serves well the needs of the disinterested people residing in such townships. Others need not be concerned."

Permitting a Lebanon sanatorium to sue the State for money due for treatment of a soldier during an encampment. The Governor says that the bill is not in proper form and that a direct appropriation would settle the matter without expense of a suit.

Exempting bequests for care of burial lots from collateral inheritance taxes. The Governor says it is in violation of the Constitution. "It exempts all bequests for the purpose made by anybody for anybody," says he. "It goes too far and is open to abuse and evasion of the Constitution." Five Senate bills were last night anounced as approved, including the cpartment of labor and industry uner a chief at \$2,000 per year.
Increasing salary of secretary of the tate Lunacy Commission from \$3,000 to \$5,000.

Amending acts relative to adminis-tration of estates of long absent per-sons presumed to be dead by provid-

ling for issuance of letters testamentary to the executor named in the will.

Amending osteopathic registration acts by providing for licensing of certain practitioners now known as registered osteopaths.

Amending main highway acts of 1911 by providing for acquisition of 101 bridges as well as turnpikes where they are on main highway routes.
