This bill affects over 1,100 persons and means that every one who desires can be paid twice a month. Three of these were of restaurant keepers and the remainder of mill operators.

Protest Against Helen.—It is probable that a protest will be filed against the granting of a pardon to Helen Boyle, serving a long sentence for her part in the Whittia kidnaping, when the case is heard by the State Board of Pardons. Inquiries are being made about the case by officials from western counties.

Defer Enforcement.—Steps for the enforcement of the new lime and paint inspection laws, which were signed last week, will be taken by the present department of agriculture which was charged with the duty because of the prospect of a complete reorganization of the department being made soon. Lusitania Was Unarmed,
Asserts Samuel M. Knox

Special to The Telegraph

Philadelphia, June 7.—The Lusitania was an unarmed vessel. All this talk about concealed rifles is absurd. I am positive the Lusitania carried no guns where they could have been brought into action.

COUNCIL TO CONSIDER IMPORTANT MEASURES HILLS ENTERS LAST WEEK OF CAMPAIGN

Health Department Ordinances May Be Introduced; Other Advanced Legislation Up

Steeleton's borough council will hold its monthly meeting this evening. Its schedule of business will be heavy and a number of measures of advanced legislation will likely come up.

It is possible that the new ordinances governing the Health Department will be introduced. A number of changes are under consideration and it is probable that some of them may be brought about this evening. Edward Lewis, recently elected secretary of the Board of Health, and over a dozen members of the board were present at a councilmanic discussion last month, has been working on a number of new ordinances.

Matters to come up include the ordinance changing the location of many street lights, which is on second reading. It is understood that a number of amendments will be offered this evening. This will likely cause some discussion.

The report of the special committee appointed last month to inspect pavements in the borough will report this evening. Many sidewalks have already been repaired.

By Associated Press

Mr. Humbert, although a naturalized British citizen, is of German birth. He left home to avoid further unpleasantness and possible trouble.

Chemist Says Germans Are Using Laughing Gas

New York, June 7.—Eros Curtin, a New York chemist, who returned from Europe to-day and who has been in the field with the allied armies, described the gas used by the Germans as of three kinds, chlorine, bromine, and so-called laughing gas. The last, he said, is of a kind that paralyzes the men from the waist down and causes them to float about like fish out of water and laugh hysterically. Sodium sulphate and oxygen were used to neutralize these gases, he said, but these were ineffective if not taken soon after the gas has been inhaled. Even then, he said, it takes at least six hours to revive the men.

Wife of Evangelist Declares "Ideal Man Is the Strong Man"; Thirteen Hit Trail

Evangelist C. E. Hills and party will commence the last week of their campaign in Steeltown to-morrow. The final services will be held next Sunday afternoon and evening.

At the tabernacle services over the week-end enthusiasm ran high and several of the largest audiences of the six-weeks of campaigning crowded in to the tabernacle. Yesterday and Saturday twenty persons hit the sawdust trail.

At last evening's meeting Evangelist Hills delivered a stirring sermon on "The Unpardonable Sin." At the conclusion of his address thirteen persons hit the trail. Seven were men.

Mrs. C. E. Hills addressed a large audience of men in the tabernacle yesterday afternoon. She described "The Ideal Man From a Woman's Viewpoint." During the course of her remarks she declared that "the ideal man is the strong man. Woman hates a weakling," she said. "She wants a man with a strong power of resistance to sin. She dislikes the user of tobacco and intoxicating liquors and she wants the man who has the power to stand forth boldly for his convictions."

"Woman wants the kind of a man who doesn't follow in his father's footsteps. She wants a man with strength and power—she wants a man who will share the responsibility of raising children with his wife."

"Temperance night" will be observed and plans for a rousing time are on foot. There will be a parade starting in Front street at 7 o'clock. The W. C. T. U. and other organizations will be in line.

THE PAIN OF NEURALGIA

People think of neuralgia as a pain in the head or face, but neuralgia may affect any nerve of the body. Different names are given to it when it affects certain nerves. Thus neuralgia of the sciatic nerve is called sciatica, but the character of the pain and the nature of the disease is the same. The cause is the same, and the remedy, to be effective, must be the same.

The pain of neuralgia is caused by starved nerves. The blood, which normally carries nourishment to the nerves, for some reason no longer does so and the pain that you feel is the cry of the nerves for food. The reason why the blood fails to properly nourish the nerves is often because the blood itself is weak and thin.

Anemia, or thin blood, is the most common cause of neuralgia. Build up your thin blood with Dr. Williams' Pink Pills and you are attacking neuralgia at its root. These tonic pills also have a peculiar and direct action on the nerves so that they are probably the very best possible remedy for the treatment of neuralgia.

Your own druggist sells Dr. Williams' Pink Pills. Get a box to-day and write to Dr. Williams' Medicine Co., Schenectady, N. Y., for the free book "Nervous Disorders, A Method of Home Treatment.—Advertisement.
