St. Louis at Kansas City.
Baltimore at Brooklyn.

LEBANON HIGH TO OPEN WITH TECH

Schedule Also Includes Central Eleven; Season Starts Saturday, October 2

Tech High football players will open the season for Lebanon high. The schedule was announced at Lebanon yesterday by Professor J. Walter Eschenshade, faculty manager of the Lebanon eleven. The schedule follows:
October 2, Harrisburg Technical H. S., at Lebanon; October 9, Steelton H. S., at Steelton; October 16, Allentown H. S., at Lebanon; October 23, Reading H. S., at Lebanon; October 30, Harrisburg Central H. S., at Lebanon; November 6, Pottsville H. S., at Pottsville; November 13, Sunbury H. S., at Sunbury; November 20, Reading H. S., at Lebanon; November 26, Pottsville H. S., at Lebanon. Captain Jimmy Hyson has issued a call for summer practice in kicking and handling punts. Henry Wilder will again act as coach, with the prospect of a large string of candidates for the regular places.

High Class Games For Local Patrons

In preparation for the arrival of Harrisburg's International League team, Manager J. Harry Messersmith will stir up baseball enthusiasm with a series of class games. There will be something doing between now and the first league battle. At Island Park to-morrow, the Motive team of the Pennsylvania railroad will play the Independents. This will be the first of a series of games to decide the local championship. The Motive Power team is now leading the league with a clean record of victories. On the Motive Power team is a number of local stars who have signed up for the season with the railroaders. John Breckenridge the former Tri-State star, late of the Scranton New York State League team, will pitch. White will be on the mound for the Harrisburg team. Rhoades, the plucky little catcher, will also play. The game starts at 3.30 o'clock. Next Monday the Pittsburgh Federals will be the attraction. This is the first outlay attraction to visit Harrisburg. On the Pittsburgh team will be a number of former stars of the major league. This game will start at 3.30 by request of a number of businessmen.

BOARD OF PUBLIC WORKS COMMENDED

[Continued from First Page.]

and explains to date the public improvement situation in Harrisburg. Here are a few of the particular items:
The Improvement Program
Period covered by work, 13 years, beginning July, 1902.
Total expenditure, \$1,513,496.45.
Engineering expenses, fees, salaries, including designing and supervision, \$149,484.78.
Percentage of whole cost for engineers, etc., 9.9 per cent.
Saving on type of dam designed by Mr. Furtess alone, \$125,000.
Expended during year, June 1, 1914, to June 1, 1915, \$203,520.66.
Engineers, supervision and designing, \$11,440.58.
Percentage, 5.6 per cent.
Work yet to be done, amounting to \$13,000, as follows: River wall, \$8,500, including cost of plaza at pumping station, to be paid for by water department, but supervised by board's engineers; Paxton creek, \$4,000; river dam, \$500.
Approximate time for completion for all work, weather and water conditions permitting: Paxton creek, July 15; wall, August 1 or 15; placing of remaining slabs on dam, same time.
Approximate cost of engineering expenses to complete jobs, \$1,500.
The board submitted its statement in answer to a resolution of the Gorgas resolution calling for the dismissal of all the subordinate engineers and employees of the board on July 1 and the completion of the works by the City Engineer's office.
Asked for Postponement
City Engineer M. E. Cowden, J. William Bowman and E. C. Thompson, members of the board, and J. D. Justin, the board's engineer, attended the meeting.
Commissioner W. H. Lynch asked for indefinite postponement of the Gorgas resolution, taking the stand that the work was so near completion that it would be folly to turn the jobs over to the City Engineer's office at this time. The engineer, it is understood, under any circumstances would have to employ practically the same men as are now employed by the Board of Public Works to complete the work because of their familiarity with the situation.
The Statement
The statement of the board in full is as follows:
"The activities of the Board of Public Works cover a period of thirteen years, beginning July, 1902. During this period the city has entrusted us with the expenditure of \$1,513,496.45. This figure is the total cost to date of all the improvements with which the board has been entrusted. Out of this total cost the sum of \$149,484.78 was spent for salaries, fees and expenses of the engineers and assistants who designed and supervised the improvements. Thus the engineering cost of all these improvements was 9.9 per cent. of the total cost.
"it should be borne in mind that without the employment of competent engineers the design and construction of Harrisburg's public improvements would have been utterly impossible. Engineering costs properly vary widely with the character of the structures involved and with the speed with which the work is executed by the contractor. If the bids are low the engineering percentage will, of course, be higher than as though the contract were greater. A complicated structure like the water plant, and of course, a higher engineering percentage than a simple vitrified pipe sewer. When structures are located in or near water courses this fact has the tendency to increase the engineering percentage, for floods hinder and delay the work.
"The Saving on the Dam
"Accordingly it is not always just to use the engineering percentage on the structure as an index of the efficiency with which the work was designed and executed. Had our dam been built in accordance with any of the standard designs for such structures known to the engineer the cost would have been at least three times what it was. Mr. Furtess originated this type of design at a saving of at least \$125,000 over any other design that could have been used. The engineer cost in either case would have been about the same. This low engineering percentage for the more expensive structure would have been less than one-half that for the structure as actually built.
"During the year, June 1 to June 1, the board has expended on the various improvements the sum of \$203,520.66. Of this total \$11,440.58 was for the salaries of the engineers, including Mr. Furtess' only bill of \$78. This is an engineering percentage of 5.6 per cent, which is considerably below most engineering percentages. This low engineering cost is partly accounted for by the efficiency of the engineers themselves, who at certain seasons work both at night and day. To inspect construction work from 7 a. m. to 5 p. m. and then work in the office until 11 p. m. without additional compensation is more than is expected of most city employees.
"Only \$13,000 Worth to be Done
"it is a fact that the improvements are nearing completion. There still remains to be done approximately \$13,000 worth of payment work, divided as follows: River wall, \$8,500, including the wall at the pumping station, which is to be paid for by the Department of Public Safety, but supervised by your board of engineers; Paxton creek, \$4,000; dam, \$500. In addition to this there is work totaling

Council by '3 to 2' Votes Commends Methods of Public Works Board

By a vote of 3 to 2, Council this afternoon approved of the activities of the Board of Public Works and endorsed its actions in handling Harrisburg's hundreds of thousands of dollars worth of public improvement funds by postponing, indefinitely, the Gorgas resolution directing the board to dismiss by July 1 all the engineers and other subordinates in its employ. Mayor Royal and Commissioner Gorgas, who voted against postponement of the resolution, declared they did not mean to criticize or question the board's work. Commissioners Lynch, Taylor and Bowman all pressed Mr. Gorgas to tell "what was behind" his resolution, or as Mr. Lynch put it "who was after the board?" Mr. Gorgas didn't say other than to declare that he meant to save money for the city and that the city engineer could do the work. City Engineer M. E. Cowden explained to council that even though his department would have

Curfew Ordinance Passed

The curfew ordinance was passed finally with the bell or whistle section cut out. Mr. Taylor alone voted against it as he used the Mayor's contention that the measure was worthless for enforcement with the bell or whistle section eliminated. Mayor Royal declared he thought the measure would lack force as police regulation, without the bell or whistle section. However, he voted for the measure. Action on the \$300,000 Walnut street bridge measure was postponed until the first meeting of August by Mr. Bowman who said that if the ordinance was not passed within ninety days of the general election, the city will have to bear the cost of a special election. Mayor Royal questioned Commissioner Taylor's park police and playground instructor appointments and asked if council ought not by law approve of them. Mr. Taylor said this had never been done before but he was willing to submit them to council. The Telegraph Printing Company and Aughinbaugh Press submitted bids for printing council reports, which were laid over for a week.

Liquor Dealers Meet

Cincinnati, Ohio, June 8.—"The solution of what is commonly called the liquor question depends upon what we consider the problem to be," said Samuel Woolner, Jr., of Peoria, Ill., president of the National Wholesale Liquor Dealers' Association, at the opening session to-day of that organization.

Penn State Wins in Meet With Pittsburgh

Special to The Telegraph
State College, June 8.—Penn State track squad closed the most successful season in recent years by defeating University of Pittsburgh in a dual meet here yesterday by the score of 82 to 44. Penn State records in the quarter-mile and broad jump were smashed by Mason and Palmer, respectively. Sheehan, of Pittsburgh, added 114 inches to his college's broad-jump mark, leaping 23 feet 5 1/2 inches. Palmer, of State, bettered the Blue and White record in the same event by two inches with a jump of 22 feet 8 1/2 inches. Mason clipped 2-5 second from the 140-yard mark, running in 50 2-5. In the fourteen events Pittsburgh captured only four firsts—the pole vault, the half-mile, broad jump and mile run.

Sport News at a Glance

Liberty and North Street split even in a double-header yesterday, scores 4 to 7 and 4 to 5. Mathwson is out of the game with sore arm. Pittsburgh shut out Penn State yesterday, score 4 to 0. Manager W. Winn, of the Methodist club, wants a game. The Shamrock Fire Company team has night withdrew from the Firemen's League and will play independent baseball. In a five-inning game last evening the Reading team defeated the Allisons, score 1 to 0. Johnson allowed no hits. Reading still leads the Allison Hill League. Leo Houck was outpointed by Young Ahearn, of Brooklyn, at Albany last night. Packard A. C. wants games. Address Earl Kelley, manager, 623 Reilly street.

EAGLES AT ALTOONA

Altoona, Pa., June 8.—To-day and to-morrow the annual convention of the Fraternal Order of Eagles will be in session here. The convention was called to order this morning in the lodgeroom of the Eagles' Home, recently completed in this city at a cost of \$50,000. A spirited contest for state president has developed between John W. Heller, Jr., of York, and M. J. McGuire, of Allentown, the present vice-president. Last evening a public reception was extended Past National Worthy Presidents Frank Herring, of South Bend, Ind., and W. J. Brennan, of Pittsburgh.

Harrisburg Hospital Had Big Year, Report Shows

The annual meeting of the contributors of the Harrisburg hospital was held at that institution this afternoon. The board of managers also held its meeting. H. B. McCormick, president of the board, was in charge. Reports of the year, including the improvements completed, were read at the sessions after which the time was devoted to discussion of the plans for the coming year. During the past year almost 200 more patients have been in the hospital in dispensary report also shows a big increase in the number of cases compared to the total for the year preceding.
PLAN AUTO TRIP
An automobile trip may take the place of the annual picnic and outing of the Harrisburg Chamber of Commerce. Plans are now being considered by Charles W. Burnett, chairman of the committee on trade extension.
