GOVERNOR VETOES FIVE SNYDER BILLS

State Bank Examiners' Salary Raiser Is Also Turned Down by the Executive

Five bills presented in the Senate by Senator Charles A. Snyder, Schuylkill, to change the State laws relative to moving picture and other amusement places were announced last night as vetoed by Governor Brumbaugh.

On the bill regarding the construction of buildings in use for moving pictures and vaudeville prior to May 20, 1913, the Governor says that it purports to remove such buildings from the supervision of the Department of Labor and Industry and that there can be no sound reason for so doing.

On the bill exempting from operation of first class city building inspection certain buildings used for amusements, the Governor says that the bill would nullify a decree of a court and allow maintenance of menaces to the public.

The bill repealing the law which places from operation of the fire marshal's law was vetoed for the reason that nothing should be done that would increase the cost to the community.

WORKS RESOLUTION?

Commissioners Can't Find Out by Whose Request Gorgas Offered His "Stop Work" Measure

By whose request did City Commissioner W. L. Gorgas offer his resolution calling for the dismissal of all the engineers and other subordinates of the Board of Public Works July 1.

City circles are still mystified about that. Commissioners Lynch and Taylor made a strenuous effort to find out yesterday afternoon during the discussion that preceded the final voting down of the measure but Mr. Gorgas declined to enlighten them.

Commissioners Bowman, Lynch and Taylor voted for the indefinite postponement of action on the resolution because as both Mr. Lynch and Mr. Taylor frequently pointed out it would not mean a saving of money as Mr. Gorgas declared, but would merely mean the shutting down of work on the numerous jobs which are so near completion.

When Mr. Gorgas offered his resolution a few weeks ago he said he did so because he thought the city could be saved money as the engineering expenses of the board cost from \$500 to \$600 monthly and that because the work was so nearly finished, the final touches could be added by the city engineer's office. Action was postponed at the time, and at a subsequent meeting Mr. Gorgas in answer to a question of Mr. Taylor admitted that the measure was not really his own idea, but that he offered the resolution by request.

He declined, however, to state the source.

When the resolution was called up for final action yesterday Mr. Lynch moved for indefinite postponement as he declared its passage would cost a reflection on the Board of Public Works, that no money could be saved because the dismissed men would have to be hired by the city engineer because they are so thoroughly familiar with the work, and that the whole purpose of the measure is to shut down the operations.

Tribute to Public Works Board In seconding the motion Commissioner Taylor said that he did so in order to express his confidence in the work of the Board and to pay a tribute to the excellent manner in which they had handled the thousands of dollars of the city's money.

"No money will be saved by this measure because the same men will have to be employed to finish the jobs," said he. "The Board has carried this work through up to its final stages; the people of the city have expressed their confidence in the high character and ability of the members time and again by voting for loans of hundreds of thousands of dollars and they did so with a peculiar security because they knew that the Board of Public Works would spend the money. It is only common courtesy to the Board to let them finish the job."

Mr. Gorgas doesn't agree. "Well, I don't agree with the gentleman," declared Mr. Gorgas, "in that the resolution is reflecting upon the personnel of the Board in any way. If the city hasn't the money to pay, why wouldn't it do what everybody else does under like circumstances—quit."

"Then it doesn't resolve itself into a question of saving at all," interposed Mr. Taylor. "It resolves itself into a question of whether or not the work shall stop. Now if a question of saving money for the city is involved then I would gladly vote to save it; but if the purpose of this measure is to stop the work, then I'm most certainly opposed to it."

Who is Back of Resolution? "What I should like to know is," demanded Mr. Lynch, "why wasn't the Board considered in this matter at all? Who is back of it? Who is after 'em?"

Mr. Gorgas has explained what's back of it," volunteered Mayor Royal. "He said his purpose was to stop the work because the city has no money. There is no intention of reflecting upon the Board."

"Oh, certainly not," agreed Mr. Gorgas.

Mr. Taylor Asks a Question "If the directorate of your bank, for instance, Mr. Gorgas," suggested Mr. Taylor, "dismissed one of the men who had been employed by you and did not consult you about it, wouldn't you consider that a reflection on your judgment?"

Mr. Gorgas smiled and said that the case wasn't parallel.

"Who is back of this? Who is after the Board?" once more insisted Mr. Lynch.

"Question on the motion," called Mayor Royal.

Extreme Values in Blue Serges

Our Blue Serge stock is a big one. It has to be to take care of the hundreds who come to us each season for an unusually big money's worth in Blue Serge Suits.

We Can't say that any particular Blue Serge here is better value at the price than any other, but we call particular attention to two in which our greater value-giving is so pronounced that none can fail to see and appreciate it.

\$15 Serges

This is the only store in Harrisburg where you can get as good Blue Serges as these at this price. Such fine, pure worsted, fast color fabrics and such good tailoring as these Suits exhibit are found only at \$18 and \$20 in ordinary stores. Two models—one with regular and the other with patch pockets.

\$20 Serges

Here are two wonderful values—both from The House of Kuppenheimer. One a conservative Biltmore model, full lined; the other a "featherweight," Beaufort model, made from as beautiful and finely woven unfinished serge as you ever saw, both coat and vest skeleton lined, seams piped with silk and some have sleeves silk lined. Tailored with all the nicety for which Kuppenheimer is famous.

Other Blue Serges at \$12 to \$30

Found Brother's Grave Fifty Years After War

Hagerstown, Md., June 9.—Searching for fifty years, F. Columbus Knott, of Frederick, has located the grave of his brother, Frank R. Knott, in Oakmont Cemetery in Richmond, Va. Mr. Knott found his brother's grave last week while attending the Confederate reunion in Richmond. He came across the grave marked "F. R. Knott," Company G, Seventh Virginia Cavalry, to which young Knott belonged. He was wounded in the battle of the Wilderness.

PAXTANG PARK. A great entertainment for the little folks is the performance given by "Lady Betty" at the Paxtang Park Theater this week. "Lady Betty" is a big chimpanzee that has been taught to do so many stunts you never supposed an animal capable of doing that one begins to wonder if she isn't nearly human. "Betty's" act must be seen to be appreciated. Any child who describes the numerous things the monkey does on the stage will scarcely do her justice. Other acts on the park bill are: Nan Aker, in a very pleasing ventriloquist offering; Hamilton Parks, with the newest songs; the Tiller Sisters and Little Aught, Oriental juggler and equilibrist.—Advertisement.
