

To Regain a Healthy, Girlish Complexion

If you would have a clear, fresh, girlish complexion, one ounce of ordinary mercerized wax will aid you in this direction more than shelves full of cosmetics. It produces a natural beauty. This wax, procurable at any drug store, completely absorbs a bad complexion, revealing the healthy young skin underneath. Its work is done so gradually, day by day, that no inconvenience is caused. The wax is applied at night, like cold cream, and removed in the morning with soap and water. Another valuable rejuvenating treatment—this for wrinkles—is to bathe your face in a solution of powdered saxolite, 1 oz. dissolved in 1/2 pt. witch hazel. This has a remarkable action in smoothing out the lines and "firming up" the loose tissue.—Advertisement.

WORD "SUCCESS" IN BIBLE ONLY ONCE

Rev. Mr. Herman Uses It as the Basis For Baccalaureate Sermon to Tech Seniors

STUDENTS AT MESSIAH

Rev. Mr. Hanson Tells Boys and Girls Not to Chase Two Rabbits at Once

The Rev. S. Winfield Herman, pastor of the Zion Lutheran Church, chose for his text for the baccalaureate sermon to the seniors of the Technical high school Joshua 1:8, the only place in the Bible in which the word "success" is used. The verse follows: "This book of the law shall not depart out of thy mouth; but thou shalt meditate therein day and night, that thou mayest observe to do according to all that is written therein; for then thou shalt make thy way prosperous, and then thou shalt have good success." The Rev. Mr. Herman spoke on "The Secret of Success," illustrating his sermon by using examples from the life of Joseph. The church was filled to capacity and was decorated with roses and ribbons of maroon and gold, class colors of the seniors. In the evening at the Messiah Lutheran Church hundreds were turned away. The Rev. H. W. A. Hanson, pastor, delivered the sermon to the graduating class of the Central high school, speaking on "The Conditions of Success." In his sermon he urged the students to choose a definite object in life and then strive to reach the highest pinnacle of success. The Rev. Dr. Hanson used as his examples Napoleon, who conquered Italy at the age of 26; Verdi, the great musician; and Pullman, who invented the sleeping cars for the railroads, in addition to numerous other men who early in life accomplished things of great importance. The students were also advised not to "chase two rabbits," as they would surely not catch either one. The Messiah Church was decorated with large American Beauty roses and with streamers of red and blue, the senior class colors.

Man Without Stomach Again Learning to Eat

Special to The Telegraph. Baltimore, June 14.—Although 56 years old, Solomon Caplan, of New Bern, N. C., a patient at the Maryland University Hospital, is learning again to eat, for he has no stomach. Caplan had been suffering for years from a tumor of the stomach, and he came here to consult Dr. J. C. Hemmeter, an authority on such diseases. He was turned over to Dr. Randolph Winslow, for an operation. The stomach had to be cut away until only a small flap was left at the esophagus end. This was joined to a part of the small intestine. Caplan now is able to walk, although the operation was performed only two weeks ago.

CHILDREN'S DAY OBSERVANCE

Special to The Telegraph. Mechanicsburg, Pa., June 14.—Children's Day was observed yesterday in many of the churches here. The Presbyterian and Trinity Lutheran Sunday Schools held interesting services in the morning, when the kiddies held full sway. In the evening services of song, recitations and exercises were given in the First United Brethren United Evangelical Church of God and the Methodist Episcopal Churches. "The Sunlit Way," was the subject of the latter program, and was of the sunbeam variety. Especially pleasing was the daisy drill, Boy Scout drill and pantomime of the young people.

TENTH WARD SCHOOL GROUNDS PLANNING COMMISSION MODEL

MORE OPEN SPACE IS CITY PLANNING IDEA

[Continued from First Page.] walk line—practically in the center of the big plot—so that the youngsters not only may have the benefit of the additional play space front and rear, and on the sides, but more light and air will be available. The accompanying sketch of the ground plan as prepared by C. Howard Lloyd, the architect, has been adopted by the school board and the

new structure will be constructed along these lines. Bids for the building will be opened by the school board July 16.

The Commission's Plan In passing favorably upon the Tenth ward school site the Planning Commission followed the general scheme for municipal development which it has been quietly but effectively carrying out since it assumed office—the plan of insuring ample space between pavement and building line and the gradual elimination of congested buildings in the alleys. Present conditions, especially insofar as they apply to the dwellings in the alleys or rear streets, cannot be

changed of course, but the future is being provided for in the development of new sites and plots in the suburbs. The general scheme that is being followed is to insist that the dwellings be erected at least fifteen or twenty feet back from the building line. On the average lot this will preclude the construction of dwellings in the rear of the lot that would front on the alley. The whole plan is further advanced by providing for sixty and eighty-foot streets.

In the Years to Come "The Planning Commission has been following out this scheme of city development in passing upon all the new plots and sites," said a member of the Commission, "and just how effectively the scheme will have worked out will be evident in the years to come. "The way the Commission is trying to solve these problems is largely by obtaining the co-operation of the real estate men and others who are developing the plots. They, too, can readily see that plan will work out admirably for Harrisburg and that the elimination of congested building conditions in the alleys will only add to the value of the residence which they may erect on the front of the lot. "The problem is being worked out quietly but none the less effectively and the fruits of the commission's labors will become more and more evident as the years go by."

Will Let Enforcement of Curfew to Police Chief

Mayor John K. Royal said to-day that the enforcement of the curfew law, when it becomes effective, would be up to the Chief of Police. Colonel Joseph B. Hutchison, subsequently announced his intention to have the officers see that the provisions of the law were carried out. The Colonel added: "Without a signal the law will not bring the results looked for. We do not have a police force sufficiently large to watch all thoroughfares at night, and see that children under 15 years of age are chased from the streets at 9:30 o'clock. If there was a signal at the given time, the curfew would be more effective."

U. B. Endeavorers to Gather at Lykens

Several hundred delegates from Christian Endeavor societies of the East Pennsylvania Conference, United Brethren in Christ, will attend the annual convention, which will open to-morrow at Lykens. The conference comprises eighty-six pastoral charges. Among the speakers will be the Rev. Dr. H. F. Shupe, of Dayton, Ohio, editor of the Watchword; H. B. McCrory, secretary of the State Christian Endeavor Union; the Rev. Dr. G. D. Gosard, president of Lebanon Valley College; the Rev. George Richter, a returned missionary from Africa, and the Rev. Dr. Brandt, of Reading.

OPEN BIDS FOR HEATING School Board will Receive Proposals For Ventilation Till Friday For New Building

Bids for the installation of a hot air heating and ventilation system in the new school building at Fifth and Mahantongo streets will be opened by the school board next Friday evening. Plans and specifications, including a map of the floors, have been prepared by C. Howard Lloyd, architect. The contract will likely be awarded Friday evening.

USHERS TO HOLD SOCIAL

Special to The Telegraph. New Cumberland, June 14.—To-morrow evening the Ushers' Association will hold a social in Baughman Memorial Methodist Church.

TELEPHONE RATES ARE UP TOMORROW

Important Conference Will Be Held by the Public Service Commissioners Then

Arrangements for final argument on the objections to the proposed general telephone rate schedule for the State will be discussed by the Public Service Commissioners and representatives of telephone companies and municipalities to-morrow. The commission will sit here this week for hearing of complaints and consideration of contracts and charter applications, and has designated Tuesday morning to take up the telephone schedule. It is believed to be probable that the commission will close the argument within a month. Among the matters to be considered by the commission will be the request of William Draper Lewis that the inventory of the Philadelphia Electric Company as far as completed be filed by July 1. The Governor has not yet designated a chairman of the commission.

RECITAL BY MUSIC CLASS

Special to The Telegraph. New Cumberland, June 14.—A recital was held in Trinity United Brethren Church on Friday evening by Miss Rhoda M. Desenberger's music class, composed of thirty-five pupils. They were assisted by Miss Wilhelmina Wohlforth, of Harrisburg, an educationist, who delighted the audience with several recitations. The Rev. A. R. Ayers, presented Miss Desenberger with a beautiful bouquet of roses from the class.

WILL ENTERTAIN CIRCLE

Special to The Telegraph. New Cumberland, June 14.—Miss Mary Moore will entertain the Queen Esther Circle on the lawn at her home in Reno street, this evening.

Parowax Keeps Preserves from Spoiling Simply dip the tops of your jars into melted Parowax (pure, refined paraffine) after filling. This keeps out the air perfectly. Parowax does what rubbers and blisters hands fail to do. Box of 4 big cakes, 10 cents, everywhere. THE ATLANTIC REFINING CO.

Wednesday "THE GODDESS" The most remarkable serial ever presented—it is fascinating and exciting and features MISS ANITA STEWART as "The Goddess" and MR. EARLE WILLIAMS as "Tommy Barclay." Shown here only every Wednesday—this week's picture is the second installment. See it.
