Give the boy a chance

A man's food must contain the elements that repair the daily waste of brain, tissue and muscular energy. A boy's food must supply the elements that not only repair waste, but build new brain, muscle and bone. The food that meets both requirements is

Shredded Wheat

a man's food and a boy's food, rich in the proteids that repair waste tissue, that perfectly nourish a growing youngster.

Don't blame the boy for mental backwardness. Feed him right. Shredded Wheat contains all the body-building material in the whole wheat grain made digestible by steam-cooking, shredding and baking. Eat it for breakfast with milk or cream. Eat it for lunch with slight happages and cream. Fat lunch with sliced bananas and cream. Eat it for supper with luscious ripe berries or other fresh fruits.

Coal Costs Less Money this month than it will again until April 1916.

If you wait until you need it you will pay 50c per ton more than at the present timeand you get better quality now.

On July 1st the prices of Broken, Egg, Stove and Nut Coal will positively be advanced.

It's decidedly to your advantage to buy your fuel when it is cheaper and better.

Many coal bins are already filled by economical families and you should do the same while you have the opportunity.

PENNSYLVANIA TO HAVE BIG CROPS

In Spite of the Weather and Pests the Corn Shows Promise and Wheat Is Better

Pennsylvania is going to have a better corn crop than a wheat crop this year, according to information that has been received by the State Department of Agriculture's Bureau of Statistics. The reports received up to June 1 indicate that the condition of the corn crop as compared with June 1 in the last ten years is 104 per cent. This means that it is better than usual and it is estimated that the acreage given to corn was 1,521520 against 1,312,000 acres given to wheat.

1,521520 against 1,312,000 acres given to wheat.
Franklin county was the first county in the State to start planting corn this year, the first grains being put in before April 30. Wayne county was the last. The northern tier did not start planting until about May 15. The corn crop reports generally are excellent.
While the wheat crop is reported as 92 per cent. of an average and one

While the wheat crop is reported as 92 per cent. of an average and one per cent. of the area sown last Fall is reported as having been plowed down, is a marked improvement over April 1, and it is believed that it will show about 15.3 bushels to the acre, which would mean approximately 29,000,000 bushels or 4,000,000 less than last year, provided weather and flies do not cause further damage. Rye is 94 per cent. as compared with average, and the acreage is 271,600, but the condition of oats is nearly up to par. Estimates are that over 32,000-000 bushels of oats will be raised.

Spring weather conditions knocked out the chances for big hay crops, although the yield may be fair in some sections.

The worst damage appears to have

out the chances for hig hay crops, aithough the yield may be fair in some sections.

The worst damage appears to have been done to fruit crops of various kinds. Reports received at the bureau of statistics show that apple prospects are 78 per cent.; pears, 74 per cent.; peaches, 84 per cent.; plums, 79 per cent.; apricots, 86 per cent., and cherries, only 75 per cent. of an average for ten years. The cherry season has been marked by cold weather and much rain. The strawberry prospects on June 1 were but 86 per cent. of a ten-year average. As a matter of fact prospects for fruit have materially decreased since May 1 and the frosts in the latter part of that month did much harm, except in the southeastern part of

Particular care will be taken in the July estimates to secure fuller information on the corn and fruit crops.

Schwab Offered Entire Output of Plant to France

Special to The Telegraph
Paris, June 14.—Senator Humbert,
France's greatest political army reformer, now leading the munitions
campaign, today asserted in the Jourmal that he had outwitted the German agents in obtaining an offer of
the entire output of the Bethlehem
Steel plant exclusively for the Allies,
during last August.
"I did it," he writes, "without seeking financial control of the company,
without buying stock or consciences,
but solely relying on the world-wide
sympathies that our dear country
commands.

but solely relying on the word-wide sympathies that our dear country commands.

"When the Minister of Marine entrusted me with the mission to the United States, I met Charles M. Schwab. We were both self-made men and both had had a tremendous struggle in early life. A close sympathy spontaneously sprang up between us.

"Schwab authorized me to place at the disposal of the French Government the entire resources of the Bethlehem Steel Corporation and the numerous other enterprises he controls. Our mutual verbal band sufficed and I had no need to offer \$100,000,000 as the German agents did nine months later. As I visited the immense Bethlehem works, inspecting the miles of shops with two of the directors, one said:

"'All this wealth, this force, these

said:
"All this wealth, this force, these machines, munitions, guns and workers are at your disposal."
"Later I will tell why France unfortunately failed to take advantage of this generous and magnificent offer."

Philadelphia K. of C. Visit Gettysburg Battlefield

Gettysburg Dattieneid

Special to The Telegraph

Gettysburg, June 14.—Rain yesterday marred the pleasure of Philadelphia Knights of Columbus, who are visiting the battiefield here. A special Mass was celebrated in the Catholic Church in the morning by the Rev. Father James A. Laiton, rector of the Church of Our Lady of Mt. Carmel, Philadelphia. The remainder of the day was spent on the battlefield.

A stop was made at the monument to Father Corby, which marks the place where Kelly's Irish Brigade, composed of three Catholic regiments from New York, were stationed before they marched across the fields and through the woods to the terrific fighting in the wheat field and where Father Corby blessed them and gave them the rite of absolution. A wreath was placed at the monument by Michael J. McEnery and an address was made by Michael J. Ryan.

General Obregon Dies of Wounds in Hospital

El Paso, Tex., June 14.—General Alvaro Obregon, hero of the battle of Leon, which ended in a defeat for the Villa forces, died last night at the base hospital in Leon.

General Obregon had his right arm shot away at the shoulder during the week's battle, but insisted upon directing the fighting from his cot in the hospital, the loss of blood and blood poisoning resulting his death.

General Benjamin Hill has been placed in complete command of the Constitutionalist forces by General Carranze.

BRITAIN BUYS MORE GUNS

Bethlehem Steel Works Receive Large Contract From Lloyd-

Large Contract From Lloyd-George
Bethlehem, Pa., June 14.—Among recent orders received by the steel plant are contracts for a large numger of four-inch guns from Lloyd-George and air flasks from the Japanese Government. It is said the four-inch guns are to be used to fire lyddite shells. The pieces can be turned out at the rate of 10 to 15 a week, depending on success in handling the material.

part of that month did much harm, except in the southeastern part of the State. In the western section it damaged grain and vegetables as well as fruit to an alarming extent. The foot and mouth disease is responsible in great measure for the decline in the number of young pigs and lambs. The quarantine and repressive measures caused heavier loss than expected. The number is 95 per cent. of a ten-year average. Pasture conditions are not up to the average throughout the State, although some farming localities show good fields. Particular care will be taken in the

You can have the Proof—in black and white,—actual proof that the Famous "Chain Tread" Anti-Skid Tires have no big-mileage equals at their popular price

Don't take hearsay evidence about tires. Don't trust to your memory for a record of the miles you get from a tire. Keep one of our Tire Records.

Your own figures in black and white will prove that "Chain Tread" Tires are the greatest big-mileage, popular-priced tires.

Chain Tread" Tires

Safety experts acknowledge our rubber chain tread, built on this powerful modern tire. to be an absolutely marvelous anti-skid device.

"Chain Treads" are not simply a fancy design stamped on a tire—they are real anti-skid tires. Send your name and address, for a set of Free Tire Record Blanks, to United States Tire Company, New York City.
