The Coolest Man in Town

Most men try to be but miss the mark because they don't wear the right clothes. There is no need to wish yourself "farthest north" when the mercury soars--just change to "tropical" fabrics. Let us suggest such sensible summer suits as these:--

- Palm Beach Suits
Mandalay Cloth Suits
Summer Worsteds
Flannel Suits

These are two-piece featherweight garments with skeleton-lined coats--some have only taped seams.

- stripes and shadow stripe tan \$7.50
The Palm Beach Suits are in tan, grey, black and white
The Mandalays are in grey \$8.50
The worsteds are in blue, grey and pinhead checks, \$15.00
The flannels are in blue, \$18.00, \$20.00 and \$25.00
All sizes in regulars, stouts and shorts.
Outing trousers in cream, white and striped flannel at \$3.95 and \$5.00--and serges at \$3.50, \$3.95, \$5.00.

BRYAN LOOKS FOR BIG CHANGE IN WAR RULES

participation in this war. This nation, the head of the neutral group and the sincere friend of all the belligerents, is in duty bound to set an example in patience and self-restraint.
"An all history no opportunity has ever come to any other nation as that which is destined to come to the United States. In all history no other peace maker has ever been in position to claim as rich a blessing as that which will be pronounced upon our President when the time for meditation comes--and come it must."
Introducing his statement Mr. Bryan graphically describes the horrors and afflictions of the war.
Aside from sentimental consideration, Mr. Bryan asserts, neutral nations suffer serious disturbance because of the war.
At some length Mr. Bryan refers to interruptions to neutral commerce, derangement of business and consequent readjustments, and speaks of scarcity of American ships as one of the greatest embarrassments to the United States.
"The neutral nations are put to a

DOES YOUR SKIN ITCH AND BURN?
Resinol is Almost Sure to Heal It Quickly, Easily and at Little Cost.
If your skin itches and burns with eczema or any such tormenting, unsightly skin disease, simply wash the sore places with Resinol Soap and hot water, dry, and apply a little Resinol Ointment. The itching stops INSTANTLY, you no longer have to dig and scratch, sleep becomes possible, and healing begins at once. That is because the soothing, antiseptic Resinol medication strikes right into the surface, arrests the action of the disease, and almost always restores the tortured, inflamed skin to perfect health--quickly, easily and at little cost.
Prescribed by doctors for twenty years, and sold by every druggist--Advertisement.

great expense to preserve neutrality and are constantly in danger of being embroiled in the war without intention or fault on their own part," he declared.
"The rules of international law seem to have been made for the nations at war, rather than for the nations at peace. It is almost impossible to alter these rules during the war, because any material change, affecting as it would the interests of the belligerents, would be a seeming violation of neutrality.
"AS soon as peace returns there will be a demand for an international conference on the subject."
LEAGUE OF NATIONS FOR UNIVERSAL PEACE
[Continued from First Page.]
Blankenburg, of Philadelphia, will preside.
Prominent men in many walks of life who have found it impossible to attend the conference have written the provisional committee expressing sympathy with the movement. Among these are Cardinal Gibbons, United States Senator John Sharp Williams, of Mississippi, and Nathan Straus, of New York.

NOVEL SHOW-WINDOW SYSTEM
Show windows which are arranged in a distinctly new manner have been installed in one of the Fifth Avenue department stores in New York. They are constructed on hydraulic elevators so that they may be dropped from the street level into the basement, a new display substituted quickly and the windows returned to their normal positions. This enables all the trimming to be done out of sight of the passing shoppers, allows frequent changes, and makes it unnecessary to curtain a window and lose its use during the time it is being redecorated. The arrangement is clearly shown in illustration appearing in the June Popular Mechanics Magazine.

AUTOS TO REPLACE STATE'S FOREMEN
Cunningham Plans Ways and Means to Reduce the Overhead Charges of His Department
To effect an annual saving of more than \$40,000, the State Highway Department has inaugurated a system, which will enable the County Superintendents to keep a closer watch on the work being done in their districts by the dismissal of eighty general foremen, whose individual salaries were \$85.00 a month is saved. These men worked for eight months in a year, consequently, the total cost of their salaries and expenses to the State Highway Department was \$64,000.
By the purchase of auto runabouts with wagonette bodies, for the use of the County Superintendents, it will be possible for each superintendent to look after personally the work formerly done by the general foremen, who have been dismissed. Ten runabouts have been purchased to test the efficacy of this plan and four of these ten have been delivered. They are equipped with the wagonette body which gives room to carry tools in the rear. The purchase price of each runabout is \$440, with \$25 added for freight, making the total cost to the Department \$465. If, ultimately, fifty of these cars are purchased for the use of the superintendents, the total cost thereof will be \$23,250, which, subtracted from the \$64,000 saved in salaries and expenses of general foremen, leaves a balance in favor of the Department of \$40,750.
Chief Engineer Usher figures that the present traveling expenses of the County Superintendents, who, in many cases, are compelled to hire teams to take them over their districts, will more than pay for the operation and up-keep of the runabouts. But even more important than this is the increased efficiency of the working force which will be gained.
To prevent any possibility of the misuse of these cars and of others belonging to the State Highway Department, each car will be marked with a plate of white metal, embossed on which will be the coat of arms of the State with the words "Pennsylvania State Highway Department" in black enamel surrounding the shield.

POCKET PERISCOPE
With a new pocket periscope that has just been brought out in England it is possible for a soldier to look over the parapet of the trench without exposing himself to the fire of the enemy. The periscope is simple in construction, consisting only of two mirrors connected by a collapsible framework. Both mirrors are fixed to the framework at an angle of forty-five degrees. When the framework is extended and the upper mirror is raised above the trench, the view is reflected by the upper mirror down to the lower one, which reflects the light rays horizontally to the eyes of the observer. The June Popular Mechanics Magazine contains a picture of the device.
