Dr. Dixon Warns of Losses in Our Weight

Dr. Samuel G. Dixon, the State Commissioner of Health, says that people do not realize the great importance of watching their weight as an index to their health. In one of his talks on hygiene the commissioner says in part: "If the majority of people were as much distressed about the sudden reduction in their weight as they are over an addition of a few pounds, the human race would be far better off. 'Vanities' unfortunately does not lead the average individual to look upon slenderness of figure as objectionable. If it did thousands of cases of tuberculosis might be discovered in their incipency. 'One of the early symptoms of tuberculosis is a loss of weight. Any decided decrease should be watched with suspicion. It often means that the general bodily functions are not all that they should be. It is certain under any circumstances to demonstrate that one's physical resistance is being lowered and this in itself opens the way to unusual susceptibility to disease. 'If this loss in weight is accompanied by failure of the appetite, night sweats, or a persistent cough or cold, a physician should be consulted and a nourishing food, plenty of rest, long hours of sleep in the fresh air and such other measures as he may advise should be resorted to in the effort to build up the body. 'An excess of weight, particularly when it means an increase of girth, is a danger sign. However, while people will wear rubber jackets, diet and resort to violent exercise to reduce, it is vanity that is responsible in the majority of cases. They will neglect themselves for months when decreasing weight should warn them as surely as the falling barometer denotes a coming storm, that their physical well-being is in jeopardy.'

WOMAN'S LIBERTY BELL ON TOUR SOON

Will Start From Sayre, Bradford County, and Will Zig-zag Across the State

BUT IT WILL GIVE NO SOUND

Bronze Chains Bind Clapper Until Women Get Vote; Nearly Like Nation's Relic

The Woman's Liberty Bell, which will proclaim the enfranchisement of the women of Pennsylvania when the vote on the suffrage amendment has been counted on November 2, will start on a tour of the state, mounted upon a motor truck, on Wednesday, June 23. It will start from Sayre, Bradford county, after appropriate ceremonies and will zig-zag back and forth across the state, passing through every county and visiting practically every town before it finally arrives in Independence Square, Philadelphia on election night. It has been planned to start the bell on its tour about May 15 but it was found that a special truck had to be ordered for it and this delayed matters. The route will be west through all the Northern counties, Bradford, Tioga, Potter, McKean, and Warren, then down through the West, Erie, Crawford, Mercer, Lawrence, Beaver and Allegheny, spending a day in each and resting on Sundays, so that the bell will be in Pittsburgh for the great Fourth of July suffrage demonstration. Greeting the Bell. The route will be from county seat to county seat, taking in as many of the smaller towns as possible. The local suffrage organizations all along the line will welcome the bell with mass meetings and demonstrations. It will be met at each county line by a escort of automobilists. They will form a guard of honor for the bell while it is in their county and will then turn it over to suffragists from the next county on the tour line. The schedule up to the Fourth of July is as follows: June 23, Sayre to Canton; June 24, Canton to Wellsboro; June 25, Wellsboro to Bradford; June 27, Sunday, rest in Bradford; June 28, Bradford to Warren; June 29, Warren to Union City; June 30, Union City to Meadville; July 1, Meadville to Sharon; July 2, Sharon to Newcastle; July 3, Newcastle to Pittsburgh. Every citizen of Pennsylvania will have a chance to see the bell on its tour but it will not be held until the ballot has been granted. The bronze chains will bind its clapper so that it cannot sound a single stroke until the women are freed. The mute appeal of the chained Liberty Bell will be supplemented at every stop by the tour by the speeches of the able corps of suffragists who will accompany it. Their theme will be the motto on the bell, "Establish Justice, Maintain Liberty." The message is to make the voters of Pennsylvania realize that to establish justice for their women they must enfranchise them and permit them to supplement the Liberty Bell in 1915 the message which the original Liberty Bell proclaimed for men in 1776. Because the message is the same, the women had their bell made as an exact duplicate of the original bell. It is made of 2,000 pounds of the finest bronze and is exactly the same size and shape as the old bell. It bears the same inscription, "Proclaim Liberty Throughout the Land to All the Inhabitants Thereof." The absence of the crack and the addition of its own motto "Establish Justice, Maintain Liberty" by which it can be distinguished from the national relic.

The Judge Says— Put a package of these real corn flakes—these

New Post Toasties

on trial beside a package of any other corn flakes on the market. The jury will bring in a verdict of "guilty"—guilty of being the finest corn flakes ever made.

The New Post Toasties are crisp and appetizing, with a true corn flavour; and they don't mush down when milk or cream is added.

But here's the real test. Take a handful, fresh from the package, and eat them without cream or milk. Mighty good, aren't they?

Notice the little "puffs" on each flake—a distinguishing characteristic—resulting from the new method of cooking and toasting, which also brings out and enhances the wonderful, true corn flavour.

Your Grocer has the New Post Toasties. Try them and bring in your verdict—
