ed.

Fat put on by indoor life is unhealthy and if nature is not assisted in throwing it off by increasing the oxygen-carrying power of the good a serious case of obesity may result.

When you feel that you are getting too stout, take the matter in hand at once, don't wait until your figure has become a joke and your health ruined through carrying around a burden of unsightly and unhealthy fat.

Spend as much time as you possibly can in the open air, breathe deeply, and get from any druggist a box of oil of korein capsules; taxe one after each meal and one before retiring at night.

Weigh yourself every few days and keep up the treatment until you are down to normal. Oil of korein is absoluted the service of the blood.

Even a few days' treatment should show a noticeable reduction in weight. There is nothing better.—Advertisement.
