MOLTZ ACQUITTED OF MANSLAUGHTER

Manslaughter Charges Against Young Chauffeur and William E. Wilson Tried Today

Both Theodore H. Moltz and William E. Wilson were acquitted this afternoon by a Dauphin county criminal jury of the charges of involuntary manslaughter.

Attorney W. H. Musser, who represented Wilson, asked that his client's case be taken out of the jury's hands before the court changed it inasmuch as Wilson was not at the wheel of the motor car when the accident occurred. This the court refused to do.

The trial of Moltz and Wilson grew out of the killing by the Wilson car last year of 12-year-old Christian Snively, near the Rockville bridge. Moltz was driving. In the car were Mrs. Wilson and her daughter, Miss Margaret Wilson and they sat with the defendants throughout the morning. Judge McCarroll, who tried the case gave the problem into the hands of the jury shortly after the noon hour.

The question upon which the defense through Senator E. E. Beldie, man argued, mostly was on the speed of the car. It was moving ten miles an hour the defense contended. The Commonwealth declared that it was moving from 30 to 35 miles an hour and that insufficient warning had been given the boy at its approach.

Albert Emmenheiser and his mother, Mrs. Margaret Emmenheiser, were acquitted of the charge of stealing furniture and other household effects from Miss Luella Clark. George W. Petrow was acquitted of a larceny charge in one case and pleaded guilty in another with E. M. Hoover. The pair stole a basket from the Verbeke street market which they thought contained eggs and upon investigation revealed—dried apples.

John Canning who was charged with having forged an \$8.50 check on Samuel Heller was on trial in No. 1 court room nearly all morning. His defense was that he had sufficient mental balance to write or pass a forged check.

Post Office Employees Plan Annual Outing

Plans for the annual outing of the employees of the Post Office and Government executive offices in this city are being made by committees appointed recently to make the arrangements.

The outing will probably be held at Hershey Park. The trip will be made on Labor Day, September 6.

Work on the addition to the local Post Office building came to a standstill yesterday when the last stone of the first story of the building was laid. When it is resumed is not known by the local authorities as government engineers must complete plans for the \$200,000 extension before the final contract is awarded.

NEW HIGH RECORD IS MADE BY BALDWIN'S

Rumors of the Signing of Further Large War Contracts Send Up Prices

By Associated Press. New York, June 19.—Except for another advance of 1 1/2 in Baldwin locomotive to the new high record of 66, early dealings in to-day's stock market were light to the point of insignificance. Baldwin's rise was based on rumors of the signing of further large war contracts. One block of 1800 shares changed hands at 65. Other war specialties showed little change from yesterday's close. U. S. Steel was the only leading stock to manifest animation, opening with a small loss which it soon regained. Other leaders were slightly higher when quoted at all. Among the minor industrial distillers securities rose 1%.

The investigation which was ordered by Secretary Daniels is being conducted by Captain Ridley McLean, Judge Advocate General of the Navy.

PICNIC DRINKING CONCEALS DANGER

Dr. Dixon Gives Some Plain Hints in Regards to Providing Food as Well as Water

Dr. Samuel G. Dixon, state commissioner of health, has issued a warning that people should be just as careful of what they drink while on a picnic as to what they eat. He points out the dangers of drinking water which might be contaminated and calls on people to protect themselves and their children.

The commissioner says: The picnic season has begun. Every alluring spot for miles around in the vicinity of the towns and cities will be the Mecca for pleasure seekers from now until the frost comes. Almost everybody attends a picnic sometime during the season. Now that the automobile has made even the remote districts readily accessible for city dwellers, the number of urban residents who seek an occasional day's relaxation in the country, has tremendously increased. Nobody thinks of going on a picnic without taking a generous supply of food but few people are far-sighted enough to carry their drinking water. Some spring, brook, or farmer's well they feel, will be sure to supply this essential. As a result of this indiscriminate dependence upon unfamiliar sources of water supply, there are hundreds of pleasure seekers, who contract typhoid fever every season. That period of the year when typhoid fever is always most prevalent is at the end and immediately following the vacation season. While this is not alone the result of picnics they unquestionably play an important part in this annual toll of illness and death. It is not a difficult matter if one is taking an auto trip to carry a supply of drinking water from a source that is known to be uncontaminated. Moderate priced vacuum bottles or other forms of vacuum can be secured which will keep the water cool. If a local water supply, with which one is unfamiliar, must be used boiling the water for 20 minutes will make it safe. Unfortunately clear water is by no means always pure water. Many a sparkling crystal clear, roadside spring is open to pollution and no matter how attractive the little brooklet which bubbles along under the overhanging trees may appear, one must needs follow it to its source to be certain that it is free from contamination. So for safety's sake carry your drinking water in the picnic basket.

Liberty Bell to Be in Harrisburg One Hour

Plans for the formation of the parade previous to the reception to the Liberty Bell on July 5 will be completed next week. Chief Marshal Arthur D. Bacon with his special aids met in the Harrisburg Chamber of Commerce room last night. Chief Marshal Bacon will meet with the general committee next week. Announcement was made to-day that the bell would remain in Harrisburg one hour. The extension of the schedule is made to conform with the new schedule on the Pennsylvania railroad, in effect June 27. A complete program will be announced the latter part of next week.
