

GAME PRESERVES ARE TO COVER THE STATE About to Establish Tracts in Many Counties Under New Act

Offers to lease lands to the State Commission for game preserves under the authority granted by the act approved in the Spring have been made to the State Commission from almost every county west of the Alleghenies and from half the counties in the eastern section. Until the new act was signed the commission could only establish preserves on State forest lands. Now it may lease preserves. As far as possible the preserves will be about 3,000 acres in extent and it is desirable that they should be in a forest district of twice that area, according to the State officials in charge. The State has established preserves or is about to establish them on leased lands in Lackawanna, Cameron, Sullivan, Tioga, Lycoming, Clinton, Centre, Clearfield, Huntingdon, Perry, Franklin and Westmoreland. A leased district has been offered in Carbon county which has been inspected and it is the plan to look over some of the western tracts which have been offered at low rates for game preservation. All of the expenses of this work will be taken care of out of hunters' licenses. In addition to these preserves there are now nine counties closed to hunting of deer and in some cases of wild turkeys and other game.

No Vacation This Year.—The Public Service Commission which closed its session for the week last night, will sit in Scranton next week. The following week it will meet in Erie and in the week of June 22 it will meet in Harrisburg. The commission plans to sit in Pittsburgh on July 19 in the Westmoreland Water case and will take no vacation, sitting in Harrisburg on July 26 and 27, in the case of the American Telephone and Telegraph Company. Hearings will also be held in Philadelphia, Pottsville and Manheim.

To Enforce New Laws.—Officials of the State Department of Agriculture are making preliminary arrangements to take charge of the enforcement of the pure paint and pure lime acts, which, under terms of bills recently approved, are to be within the jurisdiction of the Secretary of Agriculture. It is probable that the method will be by inspection of materials sold, similar to the state department of agriculture, feeding stuffs and other materials used by farmers and stock growers. Agents will take charge of the sampling in various counties and the analyses will be made here or at State College. The general appropriation bill as finally reviewed carries \$3,000 for enforcement of the paint act and \$2,000 for the lime act. The lime sold for agricultural purposes.

Few Will Retire.—It is not expected that more than half a dozen persons connected with the State government will apply for retirement under the terms of the act establishing state pensions which recently became operative, although over twenty are eligible. Under the act only those who are physically or mentally disabled will be able to apply for retirement and the Governor is to judge from reports submitted by the State Board of Pensions given the privilege. Provision is made in the general appropriation act for payment of the half pay which the act calls for.

Base Fishing Poor.—Reports made to the State Department of Fisheries on the opening of the bass season show that many of the streams which have been noted in recent years for fishing have been too high and dry to permit very good catches. In some counties little attempt has been made to fish, although good reports of the "planting" of young fish have been made.

Senator Magee Here.—Senator Charles J. Magee, of Pittsburgh, was here today to make a speech on the baseball team issue. The State Normal school baseball team visited the Capitol today.

Sixteen Applied.—Sixteen young men took the State examination at the Capitol today. Dr. C. Johnson, of the State Sanatorium at Mont Alto, was in charge of the physical examinations.

STEELTON CIOUB CLUB ISSUES YEAR BOOK

Publication Will Contain History of Work Accomplished and Its Hopes For Future

A history of the work accomplished by the Steelton Civic Club since its organization a few years ago will be incorporated in a book to be published within a few weeks. In the same volume will be outlined plans for some of the things that the club has in mind to accomplish in the near future. The proposed volume will be known as the "Steelton Civic Club's Year Book" and will likely be published annually. Mrs. J. M. Heagy, president of the club, announced this morning that she would call a meeting of the year book committee at her home Tuesday morning. At this time plans for the publication will be completed.

Urge Fly Swatting. The Civic club is also planning another campaign against the fly nuisance. Some time next week a number of large posters urging the swatting of flies will be distributed. Through the medium of these posters the club urges that flies be kept from all sick rooms because they may carry disease to others; that all windows and doors be screened; that garbage cans be sprinkled with lime or kerosene and be kept closely covered. If these things are done, the poster says, the fly nuisance will be abated and life will be made more comfortable and longer.
