RAILROAD NEWS

MEN DRIVE SPIKES IN LABOR CONTEST

Track Hands Compete in Novel Program at Bailey Station; Officials Present
Middle division officials of the Pennsylvania Railroad witnessed a series of novel contests at an outing a Bailey station on Saturday. Trackhands competed for prizes in various branches of their work. The contests were held during a picnic given by Supervisors W. T. Hanley and J. B. Baker, Jr., to their trackhands.
The tests made Saturday were putting in a tie, placing rail plates, driving spikes, gathering scrap iron, cleaning up scattered ballast, truck race and in placing a new rail. The men used an old siding. Refreshments were served. The trackmen's wives and families were along. The officials of the Middle division present included Superintendent N. W. Smith, Passenger Trainmaster W. Brooks Moore, Freight Trainmaster W. C. Copely, Division Engineer Rhoades and Chief Clerk Frank Delo, of the superintendent's office at Altoona.

Railroad Men See Improved Business

Special to The Telegraph
Washington, D. C., June 21.—In a symposium gathered by the Chamber of Commerce of the United States from railroad presidents quoted in the June issue of The Nation's business, under the heading, "What Railroads Need," there is the general expression that business is improving, or likely to improve in the near future.
"The railroads need most, just now, and for the future," said H. H. Smith, president of the New York Central, "is to be correctly understood and appreciated by the people as the most essential element in the present and future commercial prosperity of this country, and they need to have accorded to them fair, just and reasonable treatment by the public, by legislatures, commissions and other regulative bodies in order that they may expand and improve their service."

Capture Insane Man; Terror to Roadrunners

Special to The Telegraph
Pottsville, Pa., June 21.—Jacob Savage, an insane man, who has baffled the State police for three months, during which time he has imperiled the lives of thousands of passengers on the Coal Castle division of the Eastern Pennsylvania Railroad Company, was captured Saturday by Corporal Curtis Daves, a State policeman.
Savage seemed to take pleasure in placing obstacles on the rails, destroying bond wires which operated electric signals and taking down and destroying telephone boxes. He also removed red signals, which he chewed off an ear of Michael Zink, of Mount Laffe, when the latter tried to detain him.

City Playground Season Opens With One, Big, Long, Voluminous Whoop

If you aren't a small person of the years with which knickerbockers and pigtails may ever be associated, then to-day was merely a rare June day, and that's all, because—although you'll very likely hear all about it at first hand when you get home this evening—the playground season for 1915 was opened with one big, long, voluminous whoop to-day.
As early as 8:30 o'clock the instructors were reporting to Supervisor George W. Hill at the park office. There they were photographed and assigned to their various places about the city. And until a late hour this afternoon the playground season was still on in full swing.
The attendance is a matter of conjecture as yet; the reports aren't all in. But it's safe to say that the greatest gathering of youngsters that ever turned out to the city's playground opening was on hand to-day.
The new Seventh ward playground that City Commissioner M. Harvey Taylor is going to set aside for the colored children only has not been definitely decided upon as yet but this will likely be announced to-morrow.

SWALLOW'S RADIUM WORTH \$7,000; DOCTOR RECOVERS IT
Rochester, N. Y., June 21.—James Cullen took \$7,000 worth of radium in one gulp and carried it in his interior for two days. He had been treated with radium for cancer of the lower jaw in Dr. Lee's hospital.
On Wednesday the attending physician started to remove the radium tube, when Cullen became excited and swallowed it. It was recovered after two days.

NEWARK TRANSFER IS STILL HANGING FIRE

Official action on the transfer of the Newark team to Harrisburg, was not taken yesterday. League officials did not get together as anticipated. Local boosters, who were instrumental in procuring the pledges for the coupon books are unable to give any encouragement as to what the final result will be.
It is understood that plans are now under consideration between National and International League officials for completing the season with the best financial results possible. It is said the Newark transfer is part of these plans. There have been reports that playing squads would be further curtailed, and that salaries would be reduced. These reports have been denied. President Edward Barrows as late as yesterday said there was no intention to shorten the International League season or reduce salaries.

AMUSEMENTS

AT THE COLONIAL
"The Williamson Submarine Pictures," a travelogue of discoveries and adventures at the bottom of the ocean, comes to the Colonial Theater to-day after three months of four daily crowded houses in Broadway, and an additional Saturday morning matinee given exclusively for the pupils of the public schools. This wonderful achievement, the triumph of photography, should not be classed with the ordinary motion picture, but as an educational entertainment of the highest order, showing the hitherto unrevealed mysteries of the deep. The program is explained by a lecturer in a manner that holds the interest of the spectator from start to finish.
