Selling of Stock Believed to Represent Further Foreign Liquidation

By Associated Press

New York, June 23.—Weakness in Canadian Pacific, which lost three points in the early dealing, falling to 147%, its lowest price since 1908, was the feature of to-day's initial trading. Selling of this stock was believed to represent further foreign liquidation induced in principal by the new British financing. Elsewhere the list recorded a majority of gains over lossos, Bethlehem Steel and General Motors advancing a point, with gains in the speculative leaders including Reading, which soon advanced 1%.
