Scranton, Pa., June 23.—Three hundred and eighty school teachers who recently rebelled against the authority of the superintendent of schools when ordered to take an examination are without schools. The Board of Education has reappointed all teachers who took the examination and ignored those who refused. They were able to do because the teachers work under yearly contracts.

Under the Scranton plan of employing teachers all new applicants for schools must first pass an examination before appointment, and this examination has been set for next Monday. All teachers who failed to be reappointed can take this examination if they desire and become eligible to employment, but will probably have to sign iron-clad contracts before they are appointed. LIME MEDICATION IN TUBERCULOSIS

In the N. Y. Medical Record of December 5, 1914, Dr. John North, of Toledo, says: "I have come to the conclusion that one of the prominent causes (of tuberculosis) is lime starvation. In all cases of incipient tuberculosis there is a deficiency of calcium. Many do not eat food containing enough lime." In such cases we must resort to lime medication.

Eckman's Alternative should be given a fair trial in such cases, because one of its chief ingredients is calcium (lime) in such a form that the other remedial agents as to be easily assimilated by the average person. When its use is combined with proper diet, fresh air and hygienic living conditions, we believe it will prove beneficial in any case of tuberculosis. It contains no opiates, narcotics or habit-forming drugs, so is safe to try. From your druggist or Eckman's Laboratory, Philadelphia.

A GOOD THING

When It Comes Along Don't Let It Get Away From You "I really feel that it is hardly possible to say too much in favor of Grape-Nuts as a health food," writes a Chicago lady.

"For 9 or 10 years I had suffered from indigestion and chronic constipation, caused by the continued use of coffee and rich, heavy foods. My ailments made my life so wretched that I was eager to try anything that held out a promise of help. And that is how I happened to buy a package of Grape-Nuts food last spring.

"That ended my experiments. For in Grape-Nuts I found exactly what I wanted and needed. From the day I began to use it I noticed an improvement and in a very few weeks I found my health was being restored.

"My digestive apparatus now works perfectly and chronic constipation has been entirely relieved. I have gained in weight materially, and life is a very pleasant thing to me so long as I use Grape-Nuts once or twice a day. I have found by experiment that if I leave it off for a few days my health suffers.

"A physician in our town has great success in treating stomach troubles, and the secret of it is that he puts his patient on Grape-Nuts food—it always brings back the power of digestion."
