Yale Grads Cavort on Class Day

Despite efforts of the Yale University faculty to make the commencement celebration this year a very tame affair because of the war and many national complications, the old grads who returned to march in the class day parade at the Yale-Harvard baseball game fairly outdid themselves. Fantastic costumes of all sorts were worn in the line. The exhibit here pictured was brought out by last year's class. The sign is self-explanatory.

DON'T USE SOAP ON YOUR HAIR

When you wash your hair, don't use soap. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just common mulsified coconut oil, for it is pure and entirely greaseless. It's very cheap, and beats soaps or anything else, all to pieces. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, lustrous, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff. You can get mulsified coconut oil (it must be mulsified, plain coconut oil will not do) at any pharmacy, and a few ounces will supply every one in the family for months.
