Robinson's 25th ANNIVERSARY

June 25c Sale

Heed!

These Twenty-Five Cent Sales which we are conducting each month are head and shoulders above the commonplace in merchandising events.

They are events in which our pride plays an important part—a just pride occasioned by 25 years of successful business in Harrisburg.

It is in commemoration of our 25th Anniversary that they are conducted each month, and just as they present two-fold importance to us, we are particular that they shall be equally important to you.

The offerings for tomorrow will, we are sure, result in the record-breaking business which has distinguished these sales in the past.

Heed and be one of the thousands to profit!

THAW TO BE CALLED AS STATE WITNESS

Noted Prisoner Says He Has No Fear of Questions That Will Be Asked

New York, June 24.—Harry K. Thaw will be called by counsel for the State as a witness against himself in the hearing now in progress here to determine whether he is sane, according to an announcement by Deputy Attorney General Frank K. Cook. The State's purpose in adopting this plan, it is understood, is to avoid the restrictions which would limit his cross-examination and to lay his story of the killing of Stanford White before the jury shortly before it retires to consider a verdict. Thaw's brief direct testimony yesterday dealt chiefly with his escape from Matteawan and subsequent incidents.

Thaw said before the taking of testimony began that he had no fear of Mr. Cook's examination. "I do not care what he asks me," he said. "He can go as far as he likes." Gustave C. Roeder, a newspaper man, who testified yesterday in Thaw's behalf, was called as the first witness to-day, his cross-examination yesterday being prepared. He was asked by one question, whether there had been any doubt in his mind at any time as to the rationality of Thaw. "I thought at first that he was not quite himself," he said, "but Thaw to-day is an entirely different man." William L. Shurtleff, an attorney of Coaticook, Quebec, described the legal proceedings that took place in Canada in which he acted as Thaw's attorney. He testified that he had never seen any acts of violence by Thaw during this period and that his conduct impressed him as that of a rational man.

If You Examine A Flake Of the New Post Toasties You can see little white "puffs" on each flake—a distinguishing characteristic of this new food. An entirely new method of making these New Toasties brings out all the delightful corn flavour; and gives them a body and firmness—that don't mush down in cream or milk— But let the taste tell. Eat some dry, just as they come from the package, compare their delicious taste with that of any "corn flakes" you have eaten and you can understand why New Post Toasties are called Superior Corn Flakes Your grocer has them now.
