Face Eruptions Have Deep Significance

Often They Indicate Impurities Deep in the Tissues.

The results shown by S. S. S. in clearing the skin reveal how searching and how deeply this famous blood purifier attacks blood troubles. Facial eruptions are more often significant of impaired nutrition resulting from faulty elimination of body wastes, and so on. S. S. S. gives just as good effect without the destructive results, because it is more searching. It goes deeply into the circulation wherever the blood flows, but it does not remain to clog the system. And its effect is complete and thorough as indicated by blood tests. One of the strange things today is that so many people are wedded to the notion that mercury is the one antidote. It is not so. There is in S. S. S. a product of nature that is rated one of the most potent principles known for the complete elimination of blood troubles.

Wherever you go, there are people who know this to be true from their own experience, for it has been clearly shown there is one ingredient in S. S. S. as essential to health if the blood be impure as the nourishing elements of the grains, sugars and salts of our daily food. Get a bottle of S. S. S. today of any druggist, but insist upon S. S. S., accept no substitute. And if your case is peculiar or of long standing, write to the Medical Adviser, The Swift Specific Co., 101 Swift Bldg., Atlanta, Ga.
