Dainty Woman's Needle-Work

Embreidery for the Kimona ORIGINAL DESIGNS

How to Make This Design BY MADAME JEAN

FLOWERED silk kimona is A enhanced in value and appearance so materially by the addition of a hand-embroidered sash, collar and cuffs as to make it well worth the time and work put up-

on them. Choose a solid color silk or linen and embroider the designarrowheads and stars-in the outline stitch in the shades predominating in the floral pattern. Dotted swiss makes a very pretty finish to a kimona if one wishes something summery looking and which at the same time will admit of laundering.

Colored silk, or the white for that matter, may be kept in good condition by being carefully washed in castile soap and luke-warm water.

Use rope silk in making this design and make the arrowheads without padding.

(The above designs and more than 450 other transfer patterns from The Werld Famous Embroidery Outit, with a complete equipment to make them, including hoops, needles, bodkins, stiletto and booklet, telling how to make all the stitches, can be secured from this paper at the nominal cost of 68 cents (7 cents extra for postage with mail orders) by clipping one Embroidery Coupon from this paper, coupon appearing in the paper every day.)
