A Foe to Tuberculosis

The Journal of the American Medical Association (August 9, 1913), reviewing an article on "The Influence of Calcium Salts on Constitution and Health," said: "They (the authors) report numerous instances in which patients gained in vitality and energy after taking calcium." Doctors agree that in tuberculosis lowered vitality and lost energy must be overcome. One of the constituents of Eckman's Alterative is calcium (lime), in such combination with other valuable ingredients as to be easily assimilated by the average person. To this, in part, is due its success in the treatment of tuberculosis—a disease which even some ethical practitioners have acknowledged to their patients. We make no wholesale claims for it but since it contains no opiates, narcotics or habit-forming drugs, a trial is safe. From your druggist or direct. Eckman Laboratory, Philadelphia.

ITCHING BURNING ECZEMA ON SCALP

Grew Worse. Scalp a Solid Scale. Hair Came Out. Used Cuticura Soap and Cuticura Ointment. Now Scalp Entirely Well.

R. D. No. 1, Kirby, Pa.—"Eczema commenced on my scalp as a dandruff and from that it grew worse until my scalp became almost a solid scale. It broke out in a rash and caused itching and burning so bad that I scratched until it irritated the eruption. My hair came out and some nights I lost my rest. I used three different treatments for over a year but received no relief. Then I began using Cuticura Soap and Ointment. Now my scalp has got entirely well and my hair is growing nice." (Signed) Mabel B. Cowell, August 12, 1914.

For pimples and blackheads the following is a most effective and economical treatment: Gently smear the affected surface with Cuticura Ointment, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring.

Sample Each Free by Mail. With 32-p. Skin Book on request. Address post-card "Cuticura, Dept. T, Boston." Sold throughout the world.

When the Big Idea is to "Git Thar"

—Atlantic is the "gas" to feed. Atlantic Gasoline has the "git thar" spirit that sends you breezing along boulevard and highway like a bird a-wing. It puts punch and power behind every piston, and extension in mileage.

Atlantic Gasoline has a liveliness that gives a clean, sharp explosion; and a "boiling point" that assures each lot of "gas" you put in to be exactly like the last, banishing the carburetor nuisance. It is made from the finest crude oil that flows—made to a definite standard by the oldest and largest refiners in the State.

Atlantic trucks and tankers deliver any quantity, any place, any time. The best garages, too, sell this liquid power exclusively. Play safe and use Atlantic.

Polarine is the 100-percent lubricant that flows freely at all temperatures. It keeps upkeep DOWN.

OSTRICH FARM RATED AT \$100,000 BY COMPANY

Special to The Telegraph. Sunbury, Pa., June 30.—High financing was alleged at the second day's hearing of an application in bankruptcy for the African Ostrich Farm and Feather Company, a \$1,000,000 Arizona corporation, with main offices and farms at Bloomsburg and branches at Paxtang, near Harrisburg, and Cleveland, Ohio, before Federal Judge Wilmer E. Groff, of Swarthmore, an accountant, a former member of the board of directors, testified that the company had issued a statement in 1913 telling of its financial resources, in which a farm at Bloomsburg was rated at \$400,000. It was bought a few months before for \$10,000, and that was considered a good price. He swore to a memorandum offered in evidence, showing that W. H. Hile, principal stockholder and promoter of the farm, had declared that the Ostrich farm would reach \$60,000,000 value.

A Nation-Wide Movement. THE Audit Bureau of Circulations is the result of a nation-wide movement to put circulation on a commodity basis—to secure uniformity and standardization. It is a purely co-operative organization—not for profit. Its membership consists of 878 leading Advertisers, Advertising Agents and Publishers of newspapers, magazines, farm, class, trade and technical journals, forming the most powerful and influential organization in America—it is growing all the time. The A. B. C. is the only organization that audits, analyzes and verifies circulation figures and facts. It benefits Advertisers by giving them facts instead of claims. It protects the Agency in its judgment of mediums. It puts the Publisher's circulation on a "known value" basis. The members of the Audit Bureau of Circulations are pledged to buy and sell circulation as a commodity—both as to quality and quantity.
