MACK DENIES STORIES; TO KEEP PLANS SECRET

Sore Over Report That He Intends to Quit Philadelphia; Stock Not For Sale

Philadelphia, June 30.—Persistent rumors to the effect that Connie Mack's holdings in the Athletics were for sale and that he had named his price to a syndicate which has the approval of Ban Johnson, president of the American League, were emphatically denied by the manager of the Mackmen last night. Mack also refused to confirm or deny reports that several of his players are to be traded or sold.

The report that Mack was ready to sell out his holdings in the club gained circulation about a week ago, when Ban Johnson came to Philadelphia to confer with the owners of the Athletics. It is said the league officials are dissatisfied with the way Mack is breaking up his club and that there were certain men interested in the league who were eager to take over Mack's stock. Manager Mack said:

"My interest in the Athletics is not for sale at any price, but any time my partners are dissatisfied with the way I'm running my ball club, or the American League does not like what I'm doing and wants to drive me out of the city, they can do it easy enough. But it will be a case of driving me out, for I don't intend to quit. I'm here to stay, and I'll win just as sure as I've won before. To-day I read a report about Jack Barry, and I want to say right here that I do not intend to tell anybody anything."

FEDERAL LEAGUE ALL RIGHT

By Associated Press  
New York, June 30.—Representatives of all the clubs in the Federal league attended a meeting of the league here yesterday at the conclusion of which President Gilmore said: "All talk of the Federal League being in financial straits is absolutely untrue. The league was never in better shape and its future has been guaranteed to-day by the members of the finance committee. All of them have given assurance that they stand ready to make up any losses that might be incurred by any individual club."

Stanford Trains in Mud; Water Facilities Are Bad

Special to The Telegraph  
San Francisco, Cal., June 30.—Why Leland Stanford University's junior eight, which took second place in the Poughkeepsie regatta on Tuesday, did so mostly on brawn, and showed no form to speak of, was explained here yesterday by E. C. Behrens, Stanford's graduate manager of athletics. Stanford, Behrens said, rows virtually in the mud while at home. A slimy slough is their course. The water in it is so muddy it is thick. The slough is eight miles by rail and a considerable walk after that from the campus. Once or twice a week Frank Guerna, the coach, slips down from San Francisco and coaches. The rest of the time the team does the best it can. Guerna was coxswain in the Stanford crew of 1912 which went to pieces at Poughkeepsie after covering the course the day before the race in better than the morning time. Since then his main ambition in life has been to take another crew back.

TITUS AND GEORGE QUIT

Kansas City, Mo., June 30.—John Titus, the old Philadelphia National's outfielder and "Lefty" George, a pitcher, who were released by the local American Association club at St. Paul on Sunday, arrived in this city and announced that they had been released because they had refused to stand for a cut in salary. Both players said they had iron-clad contracts with the club and that the management of the club had no right to release them. George is a former Tri-State star and has had previous salary troubles.

Youngest and Smallest Rowing Coach in the Game

FRANK GUERNA

When the Leland Stanford University oarsmen arrive at Poughkeepsie for the intercollegiate regatta on June 28 those who follow the rowing game will be treated to a novelty in the sight of Frank Guerna, coach of the Stanford varsity. Guerna is not only the youngest, but the smallest, rowing coach on record. He is 26 years old, 5 feet 3 inches in height and weighs but 115 pounds. In 1912 and 1913 Guerna was coxswain of the Stanford varsity. He was graduated in 1913 and for the past two years has been the rowing coach. That he is a coach of ability is shown by the record of this year's crew, which won the Pacific coast championship by defeating the University of Washington and the University of California crews in the triangular regatta last month. Guerna says a victory for the southerners in the big regatta the last of this month is more than he can hope for, but if the Stanford boys make a good showing he will be more than satisfied.
