

Lime-Loss in Tuberculosis

In the Journal of the American Medical Association (January 17, 1914) was the following:

"It has been many times stated that in tuberculosis or in the pre-tuberculous stage an increased amount of calcium (lime) is lost both in the urine and feces. In fact, a demineralization has been thought to be a forerunner of the development of tuberculosis."

Once in a Lifetime a Trip Like This

There are two wonderful Expositions in California this year and railroad rates will be reduced, you can get the most out of your trip to California by including the marvelous ride through Colorado and Utah on the way out.

Everybody knows that the Burlington Route (C. B. & Q. R. R.) is the most highly equipped "On Time" railroad to Denver; but I want to tell you in particular about the "On Time" service to California, passing in daylight through Colorado Springs, Pike's Peak, Manitou, Royal Gorge and Salt Lake City.

And then I can tell you about coming home by way of either the National Park or Yellowstone Park.

In fact I will gladly help you plan your trip and suggest the most comfortable, interesting and economical way of going and returning. That is my business and my pleasure. Will you allow me to be of use, and furnish you without charge, such pictures, maps and train schedules as will enable you to determine just what to do. Will call on you at any time, or shall be glad to see you at my office, telephone 1000.

Wm. Austin, General Agent, Passenger Dept., C. B. & Q. R. R. Co., 326 Chestnut St., Philadelphia.—Advertisement.

Resorts

WHO WILL BAKE BEST CAKE FOR PICNIC?

That's the Question Troubling Several Score of Bowman's Salesgirls

Instead of talk behind the counters at Bowman's department store in this city and the Imperial store at Carlisle hinging on the latest consignment of silks and ribbons, conversation is centering on the latest and most approved methods of cake making.

For the time is all but hush when cakes must be baked for the contest to be held in conjunction with the annual picnic which will be held at Good Hope Mill, Friday.

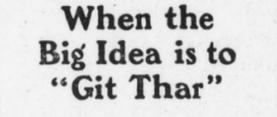

It is whispered around the store, not loud though, that some of the girls have the receipts down so pat that they can recite them forward, backward, then start in the middle and go both ways.

Last year there were 150 cakes entered in the contest and from present indications the number will jump to the 200 mark this year. Practically all arrangements have been completed for the big frolic of the 400 employees of the two stores. The floating wharf in the creek has been placed, the dancing floor newly waxed and other important details attended to.

Both the big stores will be closed all day Friday. The picnickers will leave here about 8 o'clock and after participating in the long program of sports and events arranged and stowing two big meals away will return to this city in the evening.

WANT TO INCREASE RATES

By Associated Press. Chicago, July 7.—Failure of predictions made in 1907 when passenger fares in many States were reduced to two cents per mile, that the lower fare would be more than offset by the stimulus to travel, was described in figures before the Interstate Commerce Commission to-day by 46 western railroads which are asking permission to increase interstate passenger fares.

When the Big Idea is to "Git Thar"

Atlantic is the "gas" to feed. Atlantic Gasoline has the "git thar" spirit that sends you breezing along boulevard and highway like a bird a-wing. It puts punch and power behind every piston, and extension in mileage.

Atlantic Gasoline has a liveliness that gives a clean, sharp explosion; and a "boiling point" that assures each lot of "gas" you put-in to be exactly like the last, banishing the carburetor nuisance. It is made from the finest crude oil that flows—made to a definite standard by the oldest and largest refiners in the State.

Atlantic trucks and tankers deliver any quantity, any place, any time. The best garages, too, sell this liquid power exclusively. Play safe and use Atlantic.

Polarine is the 100-percent lubricant that flows freely at all temperatures. It keeps upkeep DOWN.

THE ATLANTIC REFINING COMPANY ATLANTIC GASOLINE

Japanese Rugs. Regular imported \$2 rugs to introduce limited number, sold for 75c each. 36x60 inches. Splendid for porch. American Distributing Co.

Wm. W. Caldwell

Seeks Republican Nomination on Platform of Efficiency and Pledged to Interests of Public

William W. Caldwell, warden of the Dauphin county prison, to-day announced himself as a candidate for nomination as sheriff on the Republican ticket next Fall.

Mr. Caldwell is well known throughout both city and county. His work as Highway Commissioner during the period when the city was engaged in the most extensive paving campaign in its history is all remembered. Not only were the prices paid for asphalt during his administration lower than at almost any other time in the history of Harrisburg, but the streets paved then have held up remarkably well. Mr. Caldwell's street cleaning corps had a national reputation for efficiency and thoroughness. His term in office there was a trouble concerning asphalt repairs such as developed during the period his successor was in office.

At the Jail Warden Caldwell has won the commendation of the State authorities for his conduct of the prison, which he has kept at a minimum when there was considerable criticism concerning its management. During his incumbency he has instituted many reforms and the jail is now one of the most carefully conducted in the State. He said to-day that if he wins the nomination he will go before the people absolutely free of promise or political entanglement on any platform that will insure both efficiency in office and a proper regard for the interests of the public.

Accessibility the Goal of Auto Manufacturers

Progress in automobile construction for the past few years has been accelerated by the demands of the superstitious buying public by those who own and drive their own cars, and by those owners who derive as much pleasure and recreation from caring for their cars as they do from driving them.

First came the cry and a just one it was, for a lighter and more economical car. This demand was promptly met by the manufacturers who have striven diligently and with untiring effort to reduce the weight without sacrificing safety.

This was only a matter of careful study of construction and metallurgy. The substitution of lighter but tougher metals where stress and strain were most. The replacing of heavy iron castings with lighter alloying steel stampings and drop forgings. The reducing of the weight brought about a marked economy in fuel consumption and tire expense.

The insistent call for comfortable riding qualities and appearance worthy the investment has served further to keep the automobile manufacturer and their prompt response to the trend of design for the 1915 season—clean unbroken lines, yacht line design, long wheel base, large tires and a noticeable quality of upholstery and finish.

But—Accessibility, the one thing that appeals most strongly—the one subject which interests the prospective automobile buyer the most—is a great extent, been entirely ignored by most manufacturers. Accessibility is the subject that appeals to the man who is going to drive and care for his own car. He wants to know how he is going to reach the grease cups—how he is going to make his adjustments—how easily and quickly he can get to the running gear if the car goes wrong when he is out on the road. He wants to know how much time the garage man is going to spend looking for trouble if it ever becomes necessary to repair the car in the garage.

There is plenty of room for improvement by the manufacturers in respect to the Accessibility as will be noted by the accessibility features of the New Mitchell model. "The Six of '15," wherein a tremendous stride towards affording Accessibility for the owner has already been made.

One of the most striking improvements in the New Mitchell model, "The Six of '15" is the extreme accessibility of all parts of the chassis and running gear.

Outside of the extreme accessibility to all adjustments on the motor and its component parts is the novel way in which provisions have been made for easy access to the entire running gear and chassis without disturbing the body.

The "Bate Two-Unit, Three-Point, Suspension construction, with the motor and its component parts as one unit and the gear set, torsion tube and rear axle as the other unit, provides for the easy removal of either complete unit from the car without disturbing any other part.

However, this feature, and one which can be carefully noted to good advantage by auto manufacturers, is the removal of the seat cushions, which allows the seat cushions and the seat stools, as well as all the floor boards, to be easily and quickly removed from the car. This affords complete access to the entire chassis, doing away entirely with the old method of crawling down under the car in the dirt and grime.

Truly, the automobile manufacturer is working his head off to meet the automobile owners' demands and many a sweaty, grimy and dirty hour's work is done away with in "The Six of '15," the new Mitchell Model.

INVESTORS' OPPORTUNITY. Plant Your Dollars Where They Will Grow—In Harrisburg. The Sigler Piano Player Company, Incorporated, now doing business in its big factory at Derry and Carlisle streets, announces this morning that the receipt of a number of big orders and increased business generally makes advisable the issuing of a small block of the treasury stock.

ACCIDENTALLY SHOT. Special to The Telegraph. New Bloomfield, Pa., July 7.—McCure Ramsey of this place was accidentally shot in the hand yesterday by his gun slipping from his hand and being discharged.

\$102,201 IN POCKET OF SCHOOL DISTRICT

Directors Hear Annual Report of Treasurer W. McIlhenny—Sinking Fund in Banks

Harrisburg's school district began the new fiscal year July 1, 1915, with a general balance of \$102,201.69 in its pocket, \$10,736.28 in the teachers' retirement fund and \$6,844.94 in the Shimmell building fund. These are only a few of the figures shown to the directors last evening in the annual report of George W. McIlhenny, treasurer to the board. Here are a few more figures of interest to indicate the financial status of the School Board:

General receipts, \$676,704.75, of which \$423,373 was the income from real estate taxes, \$2,219 personal taxes, \$88,000 in temporary loans, \$99,000 from sale of bonds, \$46,888.65 from State appropriation; reimbursement for fire at Technical high school, \$380.55, and rent of Tech, \$225.

The expenditures included: Teachers' salaries, \$60,012.75; janitors, \$27,243.83; bookkeeping, \$20,064.49; supplies and fuel, \$25,267.99; interest on bonds, \$45,441.33; temporary loans, \$80,500; retirement fund, \$6,398.55; Public Library, \$5,000; sinking funds, \$24,966.34; a total expenditure of \$674,503.06.

Sinking Funds Invested. Sinking funds were invested at 3 per cent in the following banks July 1: Citizens', \$17,933.33; Sixth Street \$11,499.99; Commercial, \$4,000; East End, \$11,833.27; Merchants' National, \$15,565; Union Trust, \$40,139.93; Mechanics, \$14,200; Security, \$6,366.66; First National, \$20,535.45; Union Trust (not invested), \$4000.

Collection of school taxes during the past year by City Treasurer O. M. Copelin cost the board \$6,636.72, representing the 1 per cent, allowed for the money taken in during the first three months and the 5 per cent, on what was taken thereafter in penalties. The board this year will elect its own collector, who takes office January 1, 1916.

Koons, Repairman

C. H. Koons was re-elected general repairman and Thomas Koons was again made his assistant. For each man \$5 per month was set aside for car fare. At the Shimmell building a new cleaning system will be tried out—the janitor will be allowed \$100 per month, from which he will have to pay salaries of his assistants. Practically the entire staff of janitors was re-elected.

Teachers' resignations accepted included Misses M. Robertson, Zella H. Book and Helen J. Keller. Miss Elizabeth Garner will succeed Miss Robertson. Mrs. Ellen Luce was re-elected after a year's leave of absence. From the substitute list the following were elected regular teachers: Misses Catherine Baisley, Mary E. Burkholder, Margaret D. Clancy, Marian S. Goulet, Elsie M. Dixon and Rebecca Shoemaker.

Want Plot for Revivals. The board decided to buy about \$7,000 worth of books and to paint the central aisle of the new building. At the next meeting a report will be received from a committee consisting of the Rev. Dr. W. N. Yates and D. D. Hammett, secretary, as to what disposition should be made of the empty plot at Third and Reilly streets.

Who Were the Victims of Near Drowning Accident?

Efforts are being made by the police department to discover the identity of three men who narrowly escaped drowning in the river at Division street Sunday when their boat struck a snag and overturned, throwing them into the water.

The accident, so far as has been learned by the police, occurred about 7 o'clock. Two of the men succeeded in grasping hold of the tree and clinging there while they called for help. The third one drifted down the river on the overturned boat. Professor C. A. Ellenberger, of Riverside, heard the cries and notified a flat boat of Stroh Brothers, which rescued them. The third man was taken out of the water in a nearly exhausted condition at Broad street by canoeists.

INDIRECT LIGHTING AT THE EXPOSITION

Walk as you will through courts or corridors, best of all, at the Panama-Pacific Exposition at San Francisco, you will not once see a direct source of light—and yet you will see your way, and the buildings, with delight and ease. If you wish to realize more fully what a revolution has here been wrought in illumination you have only to walk over to the Joyce and see lights as they are used at former exhibitions—strings of incandescent lamps festooned across the highways and outlining the corners of buildings, garish, harsh and blinding. A peculiar expression of the contrast is a remark you will often hear from visitors: "The most profitable concession at St. Louis was for the sale of smoked glasses; you can't find a pair on the grounds at San Francisco."—The World's Work.

ANTHRACITE TAX FORMS ARE ISSUED

Auditor General's Department Prepared to Call For Reports on June Production

The printed forms for reporting production on anthracite coal for the State taxation under the act of 1915 were received by the auditor general's department to-day and will be sent at once to the coal companies so that production for June can be reported. The forms differ from those lately in use in that a monthly report is required and call for gross tonnage mined, tonnage used in preparing coal for market and tonnage prepared for market according to each of the following: Unbroken, broken, egg, stove, chestnut, pea, buckwheat, rice, barley, and culm.

The report is to be made to the auditor general by the fifteenth of each month. Failure to file any monthly report subjects the operator to a penalty of ten per cent, on the tax assessed and deprives the person responsible for making the report of the commission of one per cent. of the tax assessed.

It is expected that the test of the act will start when the first assessment of tax is made and an effort is made to collect.

NEW LODGE OF ODD FELLOWS

Special to The Telegraph. Dillsburg, Pa., July 7.—On Saturday evening a new lodge of Odd Fellows will be instituted in Dillsburg. Thirty-five men have signed the application for a charter for the new lodge, which will be known as Carroll Lodge.

AT THE COLONIAL

The Mawson pictures of the Antarctic afford laughter, thrills, tears and scenes of wondrous beauty. Dr. N. B. Thompson, in his lecture, refers to the penguin in several humorous ways, viz: It tastes like a canvassback duck, flavored with kerosene oil, and in another place as their being the Charlie Chaplin of the South Pole for they certainly have the same waddle. Quite the contrary the story is a tale of dauntless heroism. The most graphic motion pictures are those depicting the terrible force of the wind on the great

LEGAL NOTICES

NOTICE to property owners along the lines of Wengert Alley from Fourteenth Street to Brady Street, Wengert Alley from 103 feet west of Fifteenth Street to Sixteenth Street, Apricot Alley from Fourteenth street to 106 feet east of Hoerner Street, Whistler Alley from Apricot Alley to Wengert Alley, Primrose Street from Fifteenth Street to Eighteenth Street.

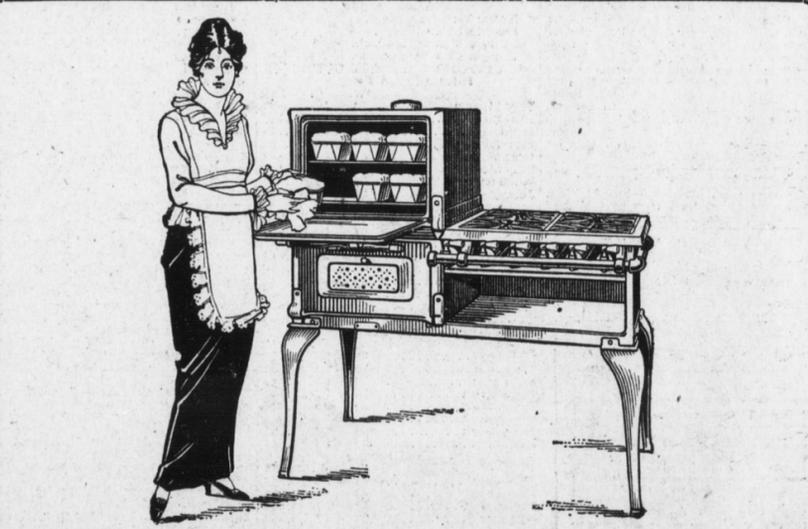

You are hereby notified that the assessment of paving and curbing the above named highways under Ordinance No. 136, Session of 1914-1915, Ordinance No. 63, Session of 1914-1915, Ordinance No. 69, Session of 1914-1915, will be made by me, at my office, in the Commonwealth Building, No. 222 Market Street, Harrisburg, Pa., on Thursday, the 15th day of July, 1915, between the hours of nine o'clock A. M. and twelve o'clock noon, when and where all parties interested shall be heard.

NOTICE OF TRANSFER OF LIQUOR LICENSE. NOTICE is hereby given that application has been filed in this Office, and will be presented in the Court of Quarter Sessions of Dauphin County on Wednesday July 21, 1915, at 10 o'clock in the morning, for the transfer of the license to sell liquor at retail, now held by Frederick W. Ebel, for the premises at Fourth and State Streets, known as the "National Hotel, Eighth Ward, Harrisburg, Pennsylvania, to the premises No. 1802 North Fourth Street, Eleventh Ward, Harrisburg, Pennsylvania. HENRY F. HOLLER, Clerk of the Court of Quarter Sessions.

Southern continent. Another astonishing film shows the life of the penguins, the gulls and sea elephants. From the standpoint of education alone these films are unsurpassed. Little need be said about the Williamson Submarine pictures, which will be the feature for the last half of the week, together with three good acts of vaudeville at the regular Colonial prices of 5 and 10 cents at the matinee, and 10 and 15 cents at the evening.—Advertisement.

LEGAL NOTICES. In the District Court of the United States for the Middle District of Pennsylvania.—In Bankruptcy, No. 2236.—In the Matter of H. E. McLaughlin, Bankrupt. THE undersigned Trustee will sell at Public Sale, at 2 o'clock P. M., on the 24th day of July, 1915, on the premises, at Dietrich, Pa., the following described property free of all liens and incumbrances:

All that certain tract or piece of land, situate in Jackson Township, Dauphin County, Pennsylvania, bounded and described as follows, to wit: Beginning at a stone, thence by land of Allen Swab north thirty-eight and one-fourth (38 1/4) degrees, west nine perches to a post; thence by land of John J. Snyder north fifty (50) degrees, east twenty-four (24) perches to stones; thence by land of F. Hoffman estate south eighty-two (82) degrees west twenty-two (22) perches to a stone; thence by land of Harvey H. Snyder, north thirty-seven and one-half (37 1/2) degrees, west seven and three-eighths (7 3/8) perches to a post; thence by land of the same south fifty (50) degrees, west five and seven-eighths (5 7/8) perches to the place of beginning. Containing two (2) acres and one hundred and forty-one (141) perches of land. Thereon erected a large two-story frame house, used as a hotel, called the "Mountain House," also frame stable and other outbuildings. Being same property which was conveyed up to Lincoln C. Carl, by Harry E. McLaughlin and his wife, Nora McLaughlin, by deed dated March 25, 1915, and which deed is of record in Record of Deeds Office, in Harrisburg, Pennsylvania, in Deed Book Y, Vol. 15, page 83. TERMS OF SALE.—10 per cent. up on day of sale, balance on confirmation of sale by the Court. JOHN C. ORR, Trustee.
