New Beetle Is Bothering the Orchard Owners—News of the State Capitol

Dr. Joseph Kalbfus, secretary of the State Game Commission, estimates that from 25 to 35 per cent of the claims made by counties upon the State for reimbursement for bounty paid for noxious animals and birds will be rejected. These claims, which have been accumulating for two years back, are being passed upon and many of them are being turned down flatly because of frauds. The frauds are not confined to any particular locality, but according to the commission secretary seem to be general all over the state.

Claims for payment of bounties under the act of 1915 are now being made at the rate of forty-five a day and are accompanied by heads and pelts, which make the work of the commission force very real indeed.

Under the new system Dr. Kalbfus estimates that the State will save \$100,000 in two years and this will be saved to the sportsmen who pay in the hunters' license fee for game protection and propagation.

Washington, July 7.—Increasing anxiety was felt in official circles to-day over the situation in Mexico City from which no word has come of the results of the fighting said to have taken place between the Carranza and Zapata forces in the outskirts of that city. Meager official advice received here reported a renewal of the fighting, but gave no indication of how it was progressing.

By Associated Press. Chicago, July 7.—"Get a million new members and \$1,000,000 for missions," is the slogan of the Fifth World's and Twenty-seventh International Christian Endeavor Convention which opened here to-day.

The call for millions was the subject of an address which was to have been read by the Rev. Francis E. Clark, president and founder of the society. He was unable to be present, however, because of illness.

Delegates were urged to enroll a million new church members, a million signers to a peace petition, and a million pledges to make the country a saloonless nation by 1920.

Efforts of U. S. to Get Dyestuffs Are in Vain

Washington, D. C., July 7.—Efforts of the United States government to secure dyestuffs from Germany for American manufacturers have reached a deadlock which appears unbreakable and officials here to-day expressed little hope of an arrangement being made which would give this country a supply of German-made colors.

State Department officials will continue their negotiations, but it is practically certain that Germany will not permit the exportation of dye unless some arrangement is made which will give Germany a much needed supply of American cotton. The German government is understood to have taken the position that unless American cotton reaches German ports, no dye will be released for export.

Batter smokes at 325 degrees. Lard at 400 degrees.

You can heat Crisco to 455 degrees and it will not smoke

Smokeless Frying!

Frying with Crisco means a sweet, smokeless kitchen. For Crisco does not smoke at frying temperature. The potatoes and doughnuts, etc., become almost instantly a crisp brown. There is no "lardy" taste.

CRISCO

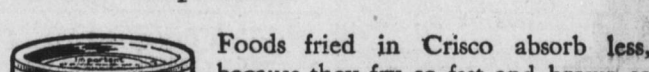

For Frying—For Shortening For Cake Making

costs about the same per net pound as the best pail lard.

There is no loss through rancidity, as Crisco stays fresh and pure indefinitely in ordinary kitchen temperature.

Foods fried in Crisco absorb less, because they fry so fast and brown so readily.

The same Crisco may be used for all frying. You can fry fish, onions, doughnuts, etc., all in the same Crisco. Merely strain out food particles after each frying. This is a further saving.

Bligh Getting Worse.—The fire blight is reported as much worse in York and Adams counties than heretofore. State demonstrators are endeavoring to check it.

HIGHSPIRE CLAIMS \$421 LICENSE FEES

Counsel Files Statement in Court Action to Recover Sum From Railways Company

The borough of Highspire to-day filed its statement upon which it based its claim for the recovery of \$421.83 from the Harrisburg Railways Co. for unpaid license fees for operating its trolley cars in the borough streets. The statement had been filed sometime ago by Fox and Geyer, representing the borough but the paper had been mislaid in the records and the statement filed to-day was in lieu of the lost paper.

The claim is founded on an ordinance passed by the borough in November 1909. This provided that the traction either pay an annual fee of \$200 or \$50 per car per year. The sum was due March 1 of each year and was to be paid by not later than June. The company failed to take out annual fee and the charge of \$50 per car was fixed for six cars. From November 1909 to March 1910, the claim totaled \$121.83 and from March 1, 1910 to March 1, 1911 on a basis of \$50 per car for six cars totaled \$300.
