"We Need More Men," Says Lord Kitchener Recruiting

London, July 9, 1:50 p. m.—Great crowds assembled in and around the Guild Hall and the routes leading to it this afternoon to hear Field Marshal Earl Kitchener address a meeting to inaugurate a special recruiting campaign. The city of London territorial regiments lined the thoroughfares by which the field marshal journeyed and the police made special traffic arrangements. Hoping to get seats at places of vantage in the Guild Hall, scores of persons gathered outside the doors of the building at 8 o'clock this morning as the War Secretary's address was not due to begin until 3 in the afternoon.

"We require more men and still more men," said Earl Kitchener, sounding the keynote of his address.

GOVERNOR GOING TO OLD SOMERSET

Will Spend Week-End in That County—Going to Camp at Mt. Gretna on Monday

Governor Brumbaugh, who will leave late today for Somerset county to spend the week-end, plans to return early on Monday and to leave at noon of that day for camp. The meeting of the new agricultural commission may be held Friday of next week.

The Governor put in a busy day today and said that he had no appointments to announce. He had many callers, however, among them Senator W. M. Lynch and Jacob Schlager, Seranton; Samuel I. Spiker, Huntingdon; ex-Sheriff J. H. Glass, of Northumberland; Representative G. J. Barnett, York; Samuel McCurdy, Lancaster; Cumberland; and Harry S. McDewitt, of the State Board of Public Charities.

On the advice of Professor Frederick Bente, of Concordia Seminary, it was decided to have a committee find out the nature of the address Bryan would make.

The league several weeks ago opened negotiations with Bryan for a talk at his coming peace pugnat and he replied he would speak for \$500 and a guaranteed attendance of 50,000.

The league is willing to guarantee the crowd, but has strenuous objections to paying out \$500 unless it can be assured that Bryan will dwell emphatically on the necessity for the United States placing an embargo on the export of munitions.

King Emmanuel Risks Life Every Day Like Any Ordinary Soldier

Rome, July 8, 8:30 p. m., via Paris, July 9.—King Emmanuel, who is on the firing line with his troops is risking his life every day like any ordinary soldier, according to reports received from the front. The Tribune prints a story, vouchsafed for by an eyewitness describing one of the narrow escapes the monarch has had.

While directing the artillery fire against Austrian positions the King said to an artillery officer in charge of a battery:

"Do you suppose you can get at that gun over there from which comes the fire against the contingent directly below us? It seems to me impossible."

A moment later the hut was a heap of ruins. "Now I can go," exclaimed Victor Emmanuel as he grasped the officer's hand.

Soon afterwards the King met one of his generals and described the work on the Italian battery giving the name of the officer directing its fire.

"That officer was killed by a shell a half hour ago just where you left him. Your Majesty," gasped the general.

Finishing Touches Being Added to Plaza Wall at City's Pumping Station

Finishing touches are being added to the new plaza wall in the rear of the city pumping station and the depression behind the wall is being filled in with cinders from the plant. A 12-foot walk is being constructed from the upper end of the park across the plaza and a sloping walk from the south end of the wall to the river walk is being built. The trees in the park between Hardscrabble and the pumping station, incidentally, are occupying the attention of the city forester.

Crushed stone will be placed on the walk above Hardscrabble to replace the larger broken stone which had been put down without the park superintendent's knowledge and contrary to his orders. Commissioner Taylor has also arranged to remove at once the slight deposits of "fill" that have washed down on the river front steps.

While no serious damage was done to any of the city improvements, the heavy rains of the last day or so caused several more or less extensive "wash-outs." Chief among these perhaps was the trouble the West Construction company, contractors on the Paxton creek job, experienced on the banks of the stream the newly planted slopes were furrowed to some extent. In the Cameron parkway Commissioner Taylor had troubles of his own with a wash-out or two. Some of the sewer jobs and the paving excavations here and there about the city caused City Commissioner W. H. Lynch some extra trouble.

"Fatherland" Had Guilty Foreknowledge of the Lusitania's Sinking

Washington, D. C., July 9.—Sir Cecil Spring-Rice, the British ambassador to-day formally called the attention of the State Department to "The Fatherland," a German paper published in New York pointing out that it forecasted the sinking of the Lusitania and predicted the internal explosions on ships sailing from the United States for the allied nations. Without making any request, the ambassador's communication declared that such publication indicated "guilty foreknowledge of a crime."

Cable Between Berlin and Washington Up to England

Washington, D. C., July 9.—Germany's proposals of last February for the re-opening of her cable communications with the United States failed because they were conditioned on the consent of Great Britain and the London Foreign Office never replied to the negotiations communicated by the United States.

State Department officials made this explanation today in the light of a published statement by Herr von Jagow, the German Foreign Minister who laid stress on the lack of cable communication as a means of an exchange of views between the American people and the German public during the submarine warfare controversy.

Officials stated that Germany in a note transmitted by Ambassador Gerard, proposed that the cable between the United States and Germany which had been cut by the allies early in the war be "re-opened and repaired, provided Great Britain consented."

The State Department submitted the German note to Sir Cecil Spring-Rice, the British Ambassador here on March 3, but got no reply.

Conditions Growing Worse and Worsening in Mexico

Washington, D. C., July 9.—Officials of the United States were discussing informally today the possibility of President Wilson taking further steps to bring about a restoration of peace in Mexico. The discussion was based upon reports from the United States consuls in the northern part of Mexico pleading that decisive action to bring peace and tranquility to the southern republic be taken within a month. The consuls refer to the threatened famine in Mexico, inability of the

Water Wagon Tour to San Francisco Begins

Atlantic City, N. J., July 9.—The National convention of the Anti-Saloon League of America today unanimously adopted resolutions formulated by the board of directors of the organization urging Congress to submit the question of national prohibition to the people of the country by referring to the State legislatures for ratification a joint resolution proposing a prohibitory amendment to the Federal Constitution. The resolutions declare that national prohibition is the "supreme temperance issue before the American people."

Water Wagon Tour to San Francisco Begins

A feature of the morning session was the starting of an automobile of the "water wagon tour" over the Lincoln Highway which will end in San Francisco in September. The Rev. Howard H. Russell, who founded the Anti-Saloon League 22 years ago, at the head of the party. Campaign speeches will be made all the way across the continent.

Women Surgeons Start Career of New York Ambulance

DR. CORNELIA MEADERS AND DR. ALICE LEWIS. ABOVE: DR. LEWIS ATTENDING HER FIRST CASE. THE MAN BROKE HIS ARM WHILE WORKING ON AN EAST RIVER DOCK. New York—Look to your laurels, you men of professions. The world has known female lawyers, doctors of the feminine sex and women in other professions, for some time, but New York has the distinction of possessing two real female ambulance surgeons. They are Dr. Cornelia Meaders and Dr. Alice Lewis. Having received the degrees in medicine these two plucky young women decided to gain some real experience. They joined the staff of the Reception Hospital in New York, which serves one of the most crowded and busiest sections of the East Side. Many times a day they ride to the scene of accidents on the rear of the flying ambulance.
