

U. S. OFFICIALS ARE DISSATISFIED WITH BERLIN'S REPLY TO LATEST U. S. NOTE

President Wilson Prepares to Leave Cornish, N. H., to Consider Grave Situation With Members of His Official Family

GERMANY AGAIN EVADES REAL POINTS IN ISSUE

Talk Concerning Severance of Relation Heard, but Not in Official Circles; Disappointment Is Expressed by Many

Washington, July 10.—Secretary Lansing will take the German note to President Wilson at Cornish, N. H., as soon as the official text arrives. The President will then decide when he will return to Washington.

Washington, D. C., July 10.—Although the official text of Germany's note on submarine warfare had not reached here to-day, the press copy which was read by officials was accepted as verification of earlier impressions that Germany had refused to give the United States the assurance asked for in the American note of June 9.

Everywhere in official quarters the unsatisfactory character of the reply was discussed along with the probability that the United States would be compelled to take as a result of Germany's unwillingness to concede to Americans the right to travel on the high seas a peaceful merchantment of any nationality.

President Wilson will start from Cornish, N. H., for Washington in a day or two to consider with the cabinet the grave situation impending. Comment in official quarters to-day was sparing as to the course that would be pursued, the general feeling being that nothing should be said until the President had returned.

On the other hand those in official quarters familiar with diplomatic precedents and the progressive development of the American attitude believed that, having stated its position and asked for assurances which now have been refused the only source left open for the United States seemed to be an announcement that it intended to assert its rights as established under the rules of international law.

There was a revival of talk concerning the severance of diplomatic relations, it being recalled in official circles that in the now famous cabinet meeting of May 11, when the sinking of the Lusitania was first considered, there was an informal understanding that if the negotiations of the United States to secure reparation from Germany for the destruction of American lives in that tragedy failed, the American Government might be justified
