Dreaded An Operation More Than Anything

Tried Fruitola and Traxo and Has Never Since Been Troubled With Gall-stones

Mrs. Mary E. Franse, whose address is West Point, Neb., Box 411, has written to the Pinus laboratories a very strong endorsement of Fruitola and Traxo. In her letter, Mrs. Franse says: "About ten years ago I was about to undergo an operation for gall-stones when I heard of your medicine. Dreading an operation above everything I determined to try Fruitola and Traxo and have never been sorry I did so, as I have never been troubled with gall-stones since."

Fruitola is a powerful lubricant for the intestinal organs, and one dose is usually sufficient to give ample evidence of its efficacy. It softens the congested masses, disintegrates the hardened particles that occasion so much suffering, and expels the accumulated waste to the intense relief of the patient. Following a dose of Fruitola, Traxo should be taken three or four times a day in order to rebuild and restore the system that has been weakened and run down by constant suffering. It is a splendid tonic, acting on the liver and stomach most beneficially.

MRS. MARY E. FRANSE

In the files of the Pinus laboratories at Monticello, Ill., are many letters gratefully acknowledging the satisfactory results following the use of Fruitola and Traxo. Arrangements have been made for the distribution of these excellent remedies by leading drug stores everywhere. In Harrisburg Fruitola and Traxo can be obtained at Gorges' drugists, 16 North Third street, and P. R. R. Station.

THE TELEGRAPH

Complimented by Everybody

WE are daily receiving congratulations from all classes of readers for our generous offer in distributing, practically free, the wonderful WORLD FAMOUS EMBROIDERY OUTFIT, containing in all more than 450 of the very latest Embroidery Patterns, including the New Hardwood Hoop, Bodkin, Stiletto, a prize package of highest grade needles (assorted sizes) and Booklet of Instructions.

All Classes Need It

The woman of means needs it, because she enjoys the experience of creating something beautiful or useful with her own hands, and because nothing can take the place of dainty hand embroidered fabrics.

The woman of lesser means prizes it because it is the means of supplying things better for herself and children to wear at a trifling expense.

The woman of moderate income can, by the use of this Outfit, wear just as pretty things as her more fortunate sister.

Transfers Several Times

ALL old-fashioned methods of transferring embroidery patterns by use of water, benzine and injurious fluids are crude and out-of-date and often spoil expensive materials. This method is safe, dry, quick, clean.
