### ROAD BETTERMENT ASKED OF THE STATE

Cunningham Receives Numerous Delegations From Central Part of Commonwealth Highway Commissioner Cunningham was yesterday asked to improve roads in several counties and will be busy making inspections to see about them. A delegation from Cambria county called with reference to the building

of the Johnstown-Westmont road. As Cambria county has a deficit of the funds appropriated for State aid during the 1915-16 period, Commissioner Cunningham told the delegation that it was not possible to proceed at once, but he pledged his word that as soon as the money was available this highway would be the first one constructed in that county. The delegation was headed by Senator Horace A. Tompkins, who acted as spokesman. Others in the delegation were George W. Swank, John D. Odgen, Burt Custer and Dr. S. J. Somerville. State Highway Commissioner Cunningham also saw to-day Fletcher W. Sikes, borough solicitor of Narberth, in Montgomery county, who sought to have built a 1,800-foot section of the Wynnewood road in Narberth borough. The commissioner took the application under advisement. Burgess L. W. Seyler and L. K. Johnston, of McConnellsburg, called

on Commissioner Cunningham to-day with reference to repairs of that portion of the old Chambersburg and Bedford turnpike running through the borough of McConnellsburg. Under the old turnpike ownership the borough of McConnellsburg had no part in the repairs of this road and it is the contention of the borough officials that the State should continue to maintain this road in the borough as did the turnpike company. Commissioner Cunningham promised to investigate the subject and to advise the borough authorities at an early date. A delegation from Waynesboro, in Franklin county, called on Chief Engineer Uhler with reference to the improvement of highways leading out of Waynesboro. The delegation was headed by Representative Charles Walter, of Chambersburg. Others in the delegation were County Commissioner John O. Craig, D. M. Wertz, C. M. Sexton, Dr. J. S. Stevenson and G. B.

Preceding the main body will be the engineering corps, which will pitch the tents and get everything in readiness for the arrival of the company.
