

The Great July Clearing Sale

At ASTRICH'S

Harrisburg's Busiest Corner Market and Fourth Streets

You never had a chance to buy Summer Millinery so cheap, and there never was a better reason why you should attend this sale. If you have bought an early Spring Hat and you feel like having a New Summer Hat without paying much, read what we offer to give you during this sale. You surely want a Summer Frock—a cool Shirtwaist—a pretty airy and dainty Lace or Embroidery Dress—or any wearing apparel for your vacation trip. Our stock of these is new and tempting—and we have cut the prices down to the lowest point. They will never go lower. Every Summer Hat and every Summer Garment must be sold during this sale. This sale has a record of twenty-seven years behind it.

Burton to Speak on Political Changes

"The Present Era and After," will be the subject of the address to be delivered by United States Senator Theodore E. Burton, of Ohio, Friday. Senator Burton will speak at the noonday luncheon of the Harrisburg Chamber of Commerce to be held at the Harrisburg Club. Senator Burton is prominently mentioned for the presidency. In this address he will give an account of political and social changes in recent years and probable changes in the future. Senator Burton's great fund of experience as a statesman, financier and world traveler ably equips him to give the Harrisburg business men an unusually broad gauged review of the matters included in his interesting subject. He will reach Harrisburg at 11.30 Friday morning and will leave at 3.15 in the afternoon. A reception committee will meet Senator Burton at the station and have charge of him during an automobile tour of the city proper and the suburban parts.

Cambria Steel Company to Run on Full Time

Pittsburgh, July 14. — The most welcome news heard in Johnstown for many months was the announcement yesterday by the officials of the Cambria Steel Company that, beginning next Monday, every department of the plant would be running on full time. The carshop, in which work has been very light for the last year, will be placed on double turn Thursday morning of this week. General Superintendent D. M. Stackhouse issued a statement yesterday that the mills would go on full turns for the first time in two years. The blast furnaces, open hearths, Bessemer and rolling mills of the lower plant, as well as all departments of the Gaultier and Franklin works, will participate in the boom.

IDENTIFY LUSITANIA VICTIMS

New York, July 14. — Photographs of the Lusitania dead who were not identified prior to burial in Ireland have been sent to the Cunard Line offices in this city, in the hope that an inspection by friends and relatives will lead to positive identification. Thirteen bodies have been identified by the photographs.

BASKET PICNIC ON ISLAND

St. Augustine's Episcopal Church will hold a basket picnic at Independence Island, to-morrow afternoon and evening. Features of the day's sports will be bag and foot races and a baseball game. A musical program will be given in the evening by an orchestra.

THE LIGHT WATER PAIL

There is an old catch question, "Which weighs the most, a pound of lead or a pound of feathers?" When we don't always remember that it correctly, but if we are asked, "How much does a pail of water weigh?" we don't always remember that that depends a good deal on the weight of the pail containing the water. At best a full pail of water is a heavy lift for the average woman, and it is small wonder that the sanitary enameled ware pails are coming more and more into use. Don't add the weight of a heavy pail to the pounds of water contained in it.

A COTTAGE CHEESE HINT

In making cottage cheese use an enameled ware colander in which to press it. Any milk product is very easily affected by its surroundings, and a metal colander may not only give a flavor, but is apt also to slightly darken the cheese, which should be of snowy whiteness.
