RISE IN SERVICE RAPID

Member of Old Cumberland Valley Family Considered Very Able Diplomat

HENRY P. FLETCHER

Among those being favorably considered for the post of ambassador to Russia, which it is commonly believed in diplomatic circles will be made vacant soon by the resignation of George T. Mayre, is Henry P. Fletcher, present ambassador to Chile, a brother of ex-Sheriff J. Rowe Fletcher.

Doesn't Like Petrograd The present ambassador to Russia is reported to have asked President Wilson to accept his resignation several days ago. Envoy Mayre has found the Russian post disappointing, according to a statement by a high State Department official at Washington yesterday.

From all I hear, he is in love with his job," said Mr. Tumulty, and said it was a case only the President could talk about.

"I want nothing. I did only what any boy should do when a companion's life is in danger. I will do it again if occasion requires. No boy should expect a reward for doing his duty."

CUNNINGHAM GOES AFTER TOLL ROADS

Will Free Large Number in Pennsylvania During the Coming Year

WON'T STAND FOR "HOLDUPS"

If Owners of Turnpikes Put Values Too High Parallel Routes Will Be Laid Out

Negotiations have been opened by State Highway Commissioner Cunningham for the purchase by the State of eleven sections of turnpike on State main highway systems. The State has an appropriation of \$250,000 for the purpose and it is the idea to select the portions on the most important sections of the Sproul system, the ultimate plan being to banish all toll gates from what are designated as State highways.

The eleven sections comprise almost seventy miles, some of the stretches of toll road being almost a dozen miles in length. Commissioner Cunningham believes that if counties co-operate or give some financial aid to the State much progress toward getting rid of toll roads will be made. It is stated that where prices are regarded as ex-

FURTHER COMPLICATIONS EXPECTED

Washington, D. C., July 17.—The attack on the British passenger steamer Orduna, it is feared here, will lead to further complications in the situation existing between the United States and Germany. From the statements made by passengers, more than twenty of whom are Americans, the attack was made without warning. Notice was sent to the passengers below deck of the appearance of the submarine, and when they rushed above they were given lifebelts so that if the vessel should be hit and sink, those on board would have some chance of surviving. The submarine gunfire, which opened after torpedoes had been fired, endangered the lives of many passengers.

THOMPSON WILL FORWARD PROTEST

New York, July 17.—William O. Thompson, of Chicago, counsel for the Industrial Relations Commissions of the United States, was another of the Orduna passengers who saw the attacks on that vessel. He declared that he would write a protest to Washington setting forth the details of the attack.

OFFICIALS' THEORY UPSET

Washington, July 17.—News of the attack on the Orduna upsets the theory of some officials here that Germany, while not yielding in the American diplomatic demands that unarmed ships be warned of attack in accordance with International law, was in practice observing that procedure. There were twenty-one Americans aboard the Orduna it was learned. Passengers say the submarine attack was made without previous warning.

GERMANS IN POLAND HELD BACK BY RUSS

Lines Are Holding Well Immediately to North of Polish Capital

MACKENSEN'S ARMY ACTIVE

Attempts at Solution of South Wales Coal Strike Have Failed Thus Far

Russian lines are holding well immediately to the north of Warsaw, where the greatest force of the Teutonic move against the Polish capital is seemingly being executed, according to the latest statement from Petrograd. Attacks by "important forces" west of the river Orzvo have been repulsed with heavy losses, the Russians claim, and in sections where gains were made by the Germans their further advance was arrested.

Withdrawal of the Russian forces between the Plesna and Orzvo rivers to new lines along the Narw in the face of General von Hindenburg's attack is admitted in Petrograd. Continuation of the German advance in Courland also is conceded. Increasing importance is attached by military observers abroad to this movement in the Baltic provinces.

Field Marshal von Mackensen's army that swept through Galicia is giving signs of renewed activity in pursuance of the assumed plan of the Teutonic forces to attack simultaneously all along the sweeping 800-mile front from the Baltic to Bessarabia. Unofficial reports through Geneva declare that at the lower end of this line Austrian troops who crossed the Danister have been driven back to the other bank, where their retreat is being turned into a rout.

Fighting on the Austro-Italian front has resulted in few recent changes of position, according to the latest report from Rome. Numerous attacks by the Austrians on the Italian advanced positions are recorded, all of which are declared to have been repulsed.

Attempts at solution of the South Wales coal strike problem failed for the time being, the miners' executive committee adjourning to Monday after an abortive attempt to reach an agreement on means to secure a settlement.
