Smaller petitions are being carried from house to house by willing workers and it is expected before the time for the hearing on the transfer of the license that many more names will have been added to the list. The campaign for signers is being made along the same systematic lines that proved successful on several former occasions.

The Rev. E. A. Pyles, pastor of the Fifth Street Methodist Church, and the Rev. Amos M. Stamets, pastor of Augsburg Lutheran Church, are taking a leading part in the fight against the transfer.

The National Hotel, which is ducted by F. W. Ebel, stands in the Capitol Park extension zone and will be razed soon for the improvements.

# A Thought For Men Who Do Not Go To Church

If you, an average man, knew of a way that you could better the living of the ones dear and near to you-what would you do? Watch the opportunity go past?

If you, an influential man, and all of us are to a greater or less extent, saw that you were hindering the life of a fellowman, would you say, "I have no interest in him," and dismiss the thought?

Not a very natural way for a man to act, is it? But in one form or another, how often are you guilty?

That home of yours, your children; what consideration for the future are you taking for them? Not merely in matters financial, for at the same time that you might be the most liberal man living; you might be hampering the lives of your family in a manner that may never be remedied.

Have your children received from you what is their's rightfully to expect, a Christian example? It is true that the Christian training comes in almost its entirety from the mother, but without your co-operation in the matter of example, what she can do is not going to amount to so much.

Men, the church was designed for you just as much as it was designed for anyone. There is no nobler view for you than that

## The Church Is a Man's Institution.

Think a minute of the immense amount of influence you spread about as you participate in your business day after day. How easily that influence might work for one cause or another!

Prove this view to yourself men. There is no better way of convincing yourselves of the truth than by giving the church enough of your time to state her case. You apply that idea to your business every day, and to refuse to do it in this relation would be to admit the fault of your own system.

Spend part of the day to-morrow in church; spend it in reverent attitude. Take the initiative now by determining that to-morrow you will take the family and
