FIRST COAL REPORT RECEIVED BY STATE

New Municipal Bureau Will Commence at Once to Gather Useful Statistics

The first reports of production of anthracite coal have been received at the Auditor General's department under the provisions of the hard coal taxation act of 1915, which requires a monthly report. No objections have been made to the requirements and it is expected that all producers will file and allow the test of the constitutionality of the act to be started when attempts are made to collect the tax at the end of the year. The act of 1913 is now in the Supreme Court, having been presented early in the month.

Preliminary steps to agree upon settlements for tax under the act of 1913 for the production during 1914 and that portion of the year 1915 covered by the old act are now being taken, although it is not likely that any payments will be made until the decision is given in the test.

The monthly anthracite reports are to be filed by the 20th of each month for the present.

It is not known whether any test of the new act will be made by firms engaged in dredging coal from the rivers.

To Establish New Work.—The first effort on the part of the State to gather statistics and data relative to the revenues, expenditures, taxes, debt and other financial affairs of the municipalities of Pennsylvania is to be undertaken in a short time by the new bureau of municipal affairs of the Department of Labor and Industry. The data will be compiled and made available for reference as well as for use in state reports. Heretofore this work has been covered by the federal government.

Spyker May Land.—Samuel I. Spyker, Republican county chairman of Huntingdon county, is mentioned as likely to be named as one of the counsel for the workmen's compensation bureau.

Hearings Held.—The protest of the Philadelphia milk dealers against the rate charged by the railroads for transportation of milk to that city was heard this afternoon by the Public Service Commission. Hearings were also held to-day in the protest of the borough of Hamburg against the rates of the Hamburg Gas and Electric Company, the Lehigh fire brick case and the petition of the Baltimore and Philadelphia railroad for permission to cross the Chester and Darby turnpike in Edgystone at grade.

New Justice.—Comptroller Xander was to-day appointed justice of the peace of Upper Saucon township, Lehigh county, to succeed Albert E. Wrenn, who resigned when he was elected a member of the last legislature.

Semimonthly Pay.—Checks for the first semimonthly pay were in course of preparation at the Treasury department to-day, and it is the intention that they will go out to-morrow.

POLITICS IS REASON FOR GORGAS' ATTITUDE
 [Continued from First Page.]
 the river wall at Market street? As for not taking Mr. Gorgas' suggestions relative to the financial affairs of the city government, why doesn't he make some? All he and the Mayor seem to have done thus far has been to talk. Why don't they do something? I understand that Mr. Gorgas has even stamped city warrants with a rubber stamp of his signature. Naturally by that method he would not even be required to sign his name.

In the statement of the condition of the interceptor fund of the Board of Public Works submitted to Council this afternoon there is a balance available of \$13,134.32.

If Mr. Gorgas didn't know this he should know it. He's the superintendent of finance—"the watch dog of the treasury."

What Gorgas Should Have Known
 In his statement to Council he said there was a balance in the river interceptor fund of \$23,158.12. This would be true were it not for the fact that of that fund the retained percentage of \$7,833.80 and incidentals for work done totaling \$2,200 make a sum of \$10,033.80 that must be deducted. This is due Stucker Brothers Construction Company, and if Mr. Gorgas did not know, he should have known it, because he is one of the bondsmen.

Furthermore, he knew of the percentage that was held back after the final estimate to be paid when the work is completed. Provision for this is made in the contract and an agreement was entered into with the construction company when plans were completed to go on with the work in February. Certainly Mr. Gorgas knew this. He was present as one of the bondsmen when this agreement was made with the Board of Public Works.

Mr. Gorgas on the floor of Council declared he knew nothing of any charges against the balance in the interceptor fund for money still due Stucker Brothers. This is odd because since the Council meeting I've been told that one of the members of the firm had asked him if any of the balance is available.

City Not Hard Pressed
 As for the sum that has been awarded W. H. Opperman by the arbitration board, the city isn't being pressed for that. Charles H. Bergner, counsel for Opperman, told me not later than a few days ago that his clients will be satisfied if only \$3,000 is paid on account and that they would be willing to wait for the rest of it. And this could be done from the balance that would remain if the city continued the steps that will close the gap at Market street. The city could confess judgment for the balance.

The report of the statement of the interceptor finances submitted to Council to-day sums up the situation. Instead of a balance of \$23,158.12 in the fund there is really only \$13,134.32 available. The estimated cost of building the steps through the gap at Market street is \$7,350. This leaves a balance of \$5,884.32.

At any rate, the city would have to confess judgment for part of the money necessary to make up the arbitrators' award, because there isn't a sufficient sum left to pay the whole verdict—\$22,767.

And the Job Will Be Unfinished
 If the suggestion of Mayor Royal and Mr. Gorgas is carried out the river front improvement will lie as it is, unfinished, and the city would only have satisfied part of the arbitrators' award.

So, you see, the whole attack is purely political.

Commissioner Lynch pointed out that the attitude of Council on the whole matter had been supported by the legal opinion of City Solicitor D. S. Seitz. Council, he added, naturally followed the guidance of the city's legal adviser.

The opinion upon which Mr. Lynch and the Board of Public Works had proceeded was written by E. C. Thompson, secretary of the board, and is as follows:

Seitz's Opinion
 July 8, 1915.
 Mr. Edwin C. Thompson, Secretary Board of Public Works, Harrisburg, Pa.

THE HOUSE OF KUPFFENHEIMER

We swing into the third week of this mammoth MARK-DOWN Clothing Sale

Lets talk it over.

With no slacking of public interest, no lessening of the extraordinary money-saving opportunity, and with nearly as good a variety to choose from as on the opening day.

So large was our stock that in spite of the tremendous volume of business done thus far, the variety of styles is almost unlimited.

But you'd better come pretty soon if you plan to come at all, for when the last of one of a certain size is gone there is no more to be had at any price. So you've nothing to gain and everything to loose by waiting.

Clothing of quality the right styles--the best makes--with unexcelled tailoring. Our unrestricted guarantee back of every suit.

All our best \$12.00 Suits | All our best \$20.00 Suits
\$9.50 | **\$16.50**

All our best \$15.00 Suits | All our best \$25.00 Suits
\$12.50 | **\$21.50**

Choose from these well proportioned values.

Harrisburg, Pa.

HINT TO SWIMMERS

A swimmer who loses his strength far from shore, or is seized with cramp runs small danger, provided he remains cool and keeps his wits about him. He should turn on his back and rest, awaiting assistance or recovery, instead of making a mad dash for the beach, or for support. It is quite possible, in floating position, to hold out indefinitely and even to work out a cramp.—Outing.

FIELD WITHOUT U. S. OBSERVERS

By Associated Press
 Washington, D. C., July 20.—Colonel John Eddle and Captain Berkeley Enoch until recently attached to the embassy at Vienna as army observers, were to-day assigned to the war college. With their return the European battlefields are left practically without American military observers.

TELEGRAPH FAMILY IS PREPARING FOR OUTING

The annual outing of the big Telegraph family will be held at Creek House along the Yellow Breeches, Saturday, July 31. An able sports committee is completing a lengthy program while a still more efficient committee has been placed in charge of the refreshments.

SLEEPING IN CAMP

Do not sleep on the ground, take folding cots or construct something that will lift you above the ground. A light-weight blanket should be used in place of a top sheet, and always sleep under a mosquito bar. If recent sufferers from malaria are camped with you. When practical the tents should be shifted to new ground, uncovering the old site to sun and air every ten days.—Outing.

Free To-day and To-morrow

A cake of 25c Quinona Shampoo with every bottle of Quinona Hair Tonic. Watch Potts' Drug Store, Third and Herr streets, for demonstration.

KEEP YOUR EYE ON THE Target
 It is Something Worth Aiming For

Quick, Painless Way to Remove Hairy Growths

(Helps to Beauty)
 Here is a simple, unflinching way to rid the skin of objectionable hairs: With some powdered delatone and water make enough paste to cover the hairy surface, apply and in about 2 minutes rub off, wash the skin and every trace of hair has vanished. This is quite harmless, but to avoid disappointment be sure to get the delatone in an original package.

uation. Instead of a balance of \$23,158.12 in the fund there is really only \$13,134.32 available. The estimated cost of building the steps through the gap at Market street is \$7,350. This leaves a balance of \$5,884.32.

At any rate, the city would have to confess judgment for part of the money necessary to make up the arbitrators' award, because there isn't a sufficient sum left to pay the whole verdict—\$22,767.

Commissioner Lynch pointed out that the attitude of Council on the whole matter had been supported by the legal opinion of City Solicitor D. S. Seitz. Council, he added, naturally followed the guidance of the city's legal adviser.

The opinion upon which Mr. Lynch and the Board of Public Works had proceeded was written by E. C. Thompson, secretary of the board, and is as follows:

Seitz's Opinion
 July 8, 1915.
 Mr. Edwin C. Thompson, Secretary Board of Public Works, Harrisburg, Pa.
 Dear Sir—Answering your in-

quiry of 6th instant relating to the completion of the steps through the gap at Market street under contract with Stucker Brothers Construction Company for the protective steps incident to the intercepting sewer along the Susquehanna river, I beg to submit the following:

Under all the circumstances stated, it is my opinion that the board has authority to complete this work and apply the funds in hand to pay the cost thereof. The money was provided for this specific purpose and you are justified in expending it for that purpose. The arbitrators' award has not been reduced to judgment as yet and provision for its payment can be made by Council in its next annual budget or by issuing bonds, as may be deemed proper, but that fact does not preclude you from furnishing the work with the funds now available for this particular improvement. Yours very truly,
 D. S. SEITZ,
 City Solicitor.

The actual statement of the condition of the river front interceptor fund as submitted to City Council this afternoon by Mr. Lynch was prepared by J. D. Justin, principal engineer in charge of the improvement work. It follows:

Intercepting Sewer Fund
 Mr. W. H. Lynch, Superintendent of Streets and Public Improvements, Harrisburg, Pa.

Dear Sir—In accordance with your request I herewith present the following report in the condition of the intercepting sewer fund. The figures presented are precise with the exception of those stated as "estimated." With regard to these estimated figures, it may be stated that the writer considers them ample for any probable river condition at this season of the year. At the same time, he desires to point out that an unforeseen flood during the progress of the work would increase both the cost of the work at Market street and also the cost of engineering and supervision.

Amount retained from Stucker estimate of February 1st	\$5,864.90
Retained percentage this season	1,968.30
Total of retained percentage	\$7,833.80
For work done but on which no payment has been made, work in progress, force account and incidentals (estimated)	2,200.00
Total owing	\$10,033.80
On hand to credit of intercepting sewer fund, statement of July 1st	\$23,158.12
Deduct moneys now owing	10,033.80
Available balance in	

fund	\$13,134.32
Cost of building steps through Market street gap and replacing dock wall (estimated)	\$6,500
Engineering and supervision, including completion of final estimate (estimated)	750
Probable balance after completion of work	\$5,884.32

She Is a Wise Woman
 Who recognizes in the tell-tale symptoms such as backache, headaches, dragging sensations, nervousness and irritability the true cause and relies on Lydia E. Pinkham's Vegetable Compound to restore her to a healthy normal condition. For forty years this root and herb remedy has been pre-eminently successful in controlling the diseases of women. Merit alone could have stood such a test of time.—Advertisement.
