Progressive Club of St. Matthew's Church Has a Delightful Outing

Twenty of the Progressive Club girls of St. Matthew's Church spent twelve days in camp at Waldheim cottage, Dauphin, chaperoned by Miss LaVene Grove.

The cottage commanded a beautiful view of the Susquehanna river on the west and the mountains on the east. The girls played tennis, had swimming matches, walked through the country, read much delightful fiction, had a mock wedding and played "shadowgraph."

Wednesday was visitors' day, when their relatives and friends came to see them. The girls did all the camp work with Miss Grove as supervisor and thoroughly enjoyed the outing.

In camp were the Misses Dorothy Martz, Margaret Martz, Marion Zimmerman, Marie Wagner, Minerva Buttorff, Rosaline Tippett, Jean Tippett, Mary Burkley, Mary Roberts, Frances Forney, Mildred Gallagher, Lillian Koster, Margaret Koster, Katherine Rife, Frances Burkholder, Mildred Burkholder, Margaret Good, Charlotte Grove, Pauline Rife and Mabel Coxeter.

PAXTON VALLEY CLUB HOLDS ANNUAL FETE

Continuous vaudeville and Midway Attractions Followed by Barn Dance

At least 500 people attended the annual lawn fete of the Paxton Valley Club last evening at the corner of Derry street and Paxtang avenue. Brilliantly illuminated by electric lights in addition to the very young moon, all the midway attractions were in full swing early in the evening.

There was an art gallery, the knife and ring game, fishing pond and "Zippo, the Hardheaded Coon," with special booths for the sale of ice cream, cakes and candy.

In the barn there was continuous vaudeville, with George Martin, Edgar Martin, William Kitchen and Frank Myers as stars. Their activity was so great that the footlights were placed in the ceiling so that the actors wouldn't kick them off. The four shows all made big hits and the audiences applauded loud and long. The treasury of the club will be augmented by a goodly sum, and the new clubhouse will soon be a reality, it is hoped.

TELEGRAPH POLES OF GLASS

A European concern now building telegraph and telephone poles of glass. The glass is moulded over a thick framework of woven wire, which adds to the strength of the pole. These poles will neither rot nor rust and insects will not attack them. Unless broken by an unusual accident, they will last forever, and now that timber is so expensive in Europe they are little more costly than wooden poles. —The American Boy.

The Needs of Your Little Baby

are so few and simple and so easy to satisfy: the right food, the right clothes—plenty of sleep—plenty of chance for little legs and arms to kick.

Most important of all is the right food—for that will make your baby laugh at summer heat and summer diarrhea and summer complaint.

Your baby needs your breast milk as long as possible. When that does not seem enough, add one feeding a day of

Nestlé's Food

so like mother's milk your baby can take both at the same time without feeling any difference. Digestible—pure and safe as mother's milk.

Take the warning of New York State—where in spite of laws one cow in three has consumption. The milk of such cows may bring summer complaint and even consumption to your baby.

In NESTLÉ'S FOOD science has found the way for you to get all the good in cow's milk for your baby—and avoid all the dangers.

From healthy cows in sanitary dairies comes the pure milk from which NESTLÉ'S is made. The heavy parts your baby can't digest are changed—those things he needs and will not get in cow's milk, are added.

It comes to you a dry powder, in an air-tight box, free from handling and all impurities—and as long as you have fresh water to add to it you know your baby is safe from sickness as with his own mother's milk.

Send the coupon for a big sample box of Nestlé's (enough for 12 feedings), and for the book by specialists (also free) that tells you all the modern medicine has learned about the way to keep your baby well.
