### Girl Bathers Now Carry Dolls in Swimming Suits

Atlantic City, N. J., July 30.—The height of faddishness was reached on the beach to-day by a young woman who may or may not have been an actress. She wore a bathing suit of dark blue silk, with dark blue stockings and brilliant red-laced slippers and a figured red bandanna scarf as a headress. Her bathing suit hanging in loose folds over her back. The thing which attracted the attention of hundreds of bathers to her was the fact that she carried a big doll, dressed in a pink bathing suit, in her arms. After parading up and down the beach with the imitation baby for a while she abandoned it with exaggerated reluctance to the care of the life guard, kissed it lovingly and ventured into the surf.

## WOMAN RUMPS INTO ROBBERY IN DARKNESS

Husband Is in Hospital; Screams For Neighbors; Many Other Houses Entered

One of the boldest attempts of burglary made in the borough for months was tried early this morning when a negro gained entrance to the home of W. S. Shrauder, 339 Christian street, engineer at the National brewery.

Mrs. Shrauder, believing that the man knew that she had been taking care of the home and her six children for more than a week and that her husband is in the Harrisburg hospital where he was operated upon yesterday.

Not feeling well last evening Mrs. Shrauder did not retire until late. She sleeps in the back room and her two sons, Russell, aged 13, and Raymond, aged 8, sleep in the middle room on the second floor. About 1.30 this morning Mrs. Shrauder left her room and walked into the next one bumping into the negro who was standing near the door.

The negro did not attack her she said when she screamed for her mother-in-law lives next door. The woman the robber, however, leapt through the window before any of the neighbors arrived.

Samuel Shrauder, father of Mr. Shrauder, with another son, Willis, and Officer Wynn, who was called, tracked the negro to Franklin street near the brickyards.

Other petty robberies were reported to-day. Two houses on North Front street, one on Frederick street, and another on Christian street, were entered.

## NEWS OF THE RAILROADS

### NORTHERN CENTRAL IS GOOD SECURITY

Grant Pennsylvania Company Right to Borrow Money on Property Held by Lease

Special to The Telegraph

Baltimore, Md., July 30.—The Pennsylvania Railroad has secured from the Public Service Commission the right to amend its original request for a blanket mortgage to cover all the lines of the railroad system so as to include special provision that the Pennsylvania may include in the mortgage the equities it holds in the Northern Central.

The Pennsylvania Railroad is therefore in a position to raise a large sum on any general mortgage which it may get authority to issue covering the Northern Central. Some say that this could run to \$50,000,000, \$80,000,000 or even in excess of this amount and that the equities of the Northern Central and its property will still cover it and make the mortgage a desirable investment.

**Forecast Policy**

The policy of raising money on the Northern Central in this way was pointed out by the minority stockholders of the company at the time the lease of the road to the Pennsylvania was pending and which this minority bitterly opposed, carrying the case into the courts.

This element now says that the course below out all that they claimed would follow, and they are not the least surprised that this action has come, though some did not expect it to materialize so soon after the lease became effective.

The placing of such a general mortgage on the property, it is said, will at once take away from the stockholders of the company the rights they have heretofore held in these equities.

All these will then have, it is declared, will be the guarantee of the 8 per cent. annual dividends by the Pennsylvania under the terms of the lease.

**Commissioners Approve Pennsylvania Schedule**

Special to The Telegraph

Trenton, N. J., July 30.—Concluding that the summer train service afforded by Philadelphia and Trenton and shore points reached by way of Monmouth Junction and Sea Girt, is not adequate, the Board of Public Utility Commissioners announced yesterday its refusal to order an increased service. The investigation was made in response to a number of complaints among the petitioning municipalities being Long Branch, Asbury Park, Bradley Beach and Freehold.

**Reduction in Dividend Due to Poor Business**

Special to The Telegraph

New York, N. Y., July 30.—The directors of the Chicago, Milwaukee & St. Paul Railway yesterday declared a semi-annual dividend of two per cent. on the common stock. This is a reduction in the annual rate from 5 per cent. paid since 1912, to 4.

A. J. Earling, president of the road, said the reduction in the dividend seemed expedient to the directors in view of the decrease in operating income for the fiscal year just closed. This decline, Mr. Earling said, was due to general business stagnation, competition of the Panama Canal and a large increase in taxes and charges for depreciation.

**Rock Island Road in Receiver's Hands**

New York, July 30.—The financial pyramid of three railroad companies organized by Daniel G. Reid and William H. Moore and their associates in 1902 to control the Chicago, Rock Island and Pacific Railway had virtually toppled over to-day when it was announced that the Rock Island company had been placed in the hands of a receiver.

The Rock Island company, which was incorporated in New Jersey with \$150,000,000 capital stock, was a holding company organized to take over control of the Chicago, Rock Island and Pacific Railway, the operating company. This it did through the organization of an intermediary company, the Chicago, Rock Island and Pacific Railroad Company. The operating company already was in the hands of a receiver and the intermediary company defaulted its bonds last year.

The stock of the Rock Island company, which once sold at \$81 a share, has been selling recently at less than \$1 per share.

**RAILROAD NOTES**

Painters are completing a contract on the bridge at Rutherford. It is said the Reading Railway bridge over the Susquehanna will be painted during August.

On July 23 the Pennsylvania Railroad had 2,453 good cars stored on sidings on the main line. This was a decrease of 23,612 since January 4.
