State Treasury Low in Funds and **Collections Will Not Start** For a While Yet

State officials believe that because of the low condition of the available cash balance in the State Treasury it will be at least a fortnight before any of the school districts will receive any of their appropriations. Under the school code the school appropriation is due to be paid the first Monday of July, but none has been paid out, although districts have been writing for money

The Department of Public Instruction has drawn the warrants for all of the 2,550 districts in the State and will send them to the Auditor General as soon as word is received that the finances are in shape to stand the payments. Last year to this time over three-quarters of a million dol-lars had been paid out.

lars had been paid out. The money to be paid out will be the last of the 1913 appropriation, that made this year not becoming available until next year, as the State aid is for the year closed in June. Thousands of settlements for State taxes have been made by the Auditor General and State Treasurer, but as the companies have sixty days in which to make payment it is regarded as unlikely that there will be much in-crease in the State revenue before the latter part of August. None of the big railroads or companies which pay mil-lions of dollars in State tax on capital stock and leans has made payment as yet.

### Orders in Pittsburgh Now Total \$100,000,000

Now Total \$100,000,000 Special to The Telegraph Pittsburgh, Aug. 2.—According to J. Jerome Nordman, secretary of the Foreign Trade Commission of Pitts-burgh, contracts aggregating \$100,-000,000 are being manufactured in Pittsburgh. Mr. Nordman said he had record of more than \$91,000,-000 and there were a number which were not listed. Not all of the ex-port business is. for war material either. Goods valued at \$6,000,000 are being made for ordinary domestic consumption. The Russian government has four metallurgists and chemists here in-specting the 22,000 freight cars be-ing built by the Presed Steel Car Company. They said Russia would require a vast amount of steel pro-ducts outside of war material and that most of these would have to be ordered in this country. "Man, "We had an inquiry for a large quantity of cork insoles, and there ing builts, this week we have re-ceived orders from Honduras, Spain, France, Italy, Argentina, Turkey, Greece, Japan and Uruguay."
