CARLISLE INDIAN ATHLETE GOES WEST

Lone Star Will Be Football Coach at Washington State University

Special to The Telegraph
Carlisle, Pa., Aug. 5.—Carlisle lost two prominent residents yesterday with the departure of William Deitz, familiarly known as Lone Star, and his wife, Angela DeCora Deitz. Both are Indians, former teachers at the Indian school here. Mr. Deitz was assistant athletic director and teacher in mechanical drawing, while his wife was instructress in Indian art here.

The former football star goes to Washington State University at Pullman, where he will be football coach. Mrs. Deitz will be in charge of a department of the only Indian camp for white girls in the country. This camp is located on the shores of Granite Lake, N. H., and is conducted by one of the best-known Indians of the country, Ohlyesa, better known as Dr. Charles A. Eastman, his wife, who was Elaine Goodale, the poetess, and her five daughters.

BOROUGH COUNCILMEN DISAGREE

Special to The Telegraph
Columbia, Pa., Aug. 5.—Borough Councilmen are at loggerheads over the expenditure of money for improvements in the opera house. Councilman Osterag, who is chairman of the Finance Committee, refuses to sign any more notes or orders for the work being done, unless an appropriation is made according to law. As the alterations now in progress will entail an outlay of nearly \$10,000, the matter was referred to Borough Solicitor Seiffert for adjustment and meanwhile the work goes on.

CAVALRY TENT IS ADOPTED FOR ALL ARMY BRANCHES

Because of the additional comfort which will be afforded the soldiers, the War Department has decided to equip all branches of the United States Army with cavalry tents. The decision was reached recently after a personal inspection by the Secretary of War of twenty different types of shelter tents which were set up in one of the Washington parks, and thoroughly tested. While this tent is 2 pounds heavier than the one heretofore used by the infantry, it is so much larger and more comfortable than the old one that it is considered preferable.

Considerable complaint has been made in the past regarding the small size of the infantry tent. The cavalry tent is 5 feet 5 inches in length on the ridge, 41 inches wide at the base, and when supported on the collapsible poles stands about 43 inches from the ground at the ridge. The canvas which is of olive-drab color, is divided into two sections, which button together at the ridge and along the slanting end. A picture of the tent appears in the June Popular Mechanics Magazine.

A HINT ON FRYING

The prejudice against fried food in this country arises from the fact that most so-called fried things are only badly saute. True frying is done in deep kettles two-thirds full of pure lard or olive oil, and the reason why fried diet of sole, for instance, is so delicious at a good hotel and so bad sometimes at home is that the hotel has the right kettle and the home has not.

The proper kettle for frying, one which will make the job dainty rather than messy, is a rather deep enameled ware kettle about the size and shape of an oyster fryer; it should not be too small and have enameled ware on iron, to hold the heat even, and prevent scorching or too quick heating; but the iron kettle has the disadvantage of rusting and being heavy and unpleasant to use. With the frying basket to remove the need of sticking a fork into the cooked food, one can reduce the task to a minimum. But the basket is not absolutely necessary; small flat perforated skimmer of enameled ware can be used to lift out the croquettes or crullers and allow the oil to drain off.

Discolored or Spotty Skin Easily Peeled off

The freckling, discoloring or roughening to which most skins are subject at this season, may readily be gotten rid of. Mercolized wax, spread lightly over the face before retiring and removed in the morning with soap and water, completely peels off the disfiguring skin. Get an ounce of the wax at any drug store. There's no more effective way of banishing tan, freckles or other cutaneous defects. Little skin particles come off each day, so the process itself doesn't even temporarily mar the complexion, and one soon acquires a brand new, spotless, girlishly beautiful face.

Wrinkles caused by weather, worry or illness, are best treated by a simple solution of powdered saxolite, 1 oz., dissolved in ½ pint witch hazel. Bathing the face in this produces a truly marvelous transformation.

A UNIQUE GERMAN WEATHER PROPHECY

Fancy Hygrometer Which Foretells Weather Eight to Twenty-four Hours Ahead

More Accurate and Reliable Than Weather Reports

A most unique and most valuable little instrument to foretell coming rainy weather has been placed on special sale for readers of the Telegraph at Gorgas' Drug Stores.

It is a prettily ornamented hygrometer, a so-called weather prophet, which foretells the weather from eight to twenty-four hours ahead. The prophet will be found to be an unusually accurate prognosticator of rain storm and fair weather.

By making a quantity purchase we received an extra special discount from the regular price, enabling us to sell them at 66 cents. Several weeks ago this same article was advertised at 75 cents. There is no financial profit in this special sale for the Gorgas' Drug Stores—we only want to acquaint you more thoroughly with our stores and the excellent service we offer to the public.

These weather houses are imported directly from the Black Forest, via Switzerland. They are made of hard wood, in Swiss cottage style, and are richly decorated with thermometer, elk's head, bird's nest and bird. They have four windows and two doors.

The weather houses are scientifically made in localities where they have produced them for generations, and they will foretell the weather correctly. They are better than your weather reports and more reliable.

Atmospheric conditions so affect the figures that when the prediction is fair weather the little children, boy and girl, move outside; when the prediction is unsettled weather the boy and girl and the little old witch are in the doorway; and when rain is predicted the old witch moves outside.

The weather house is really a delight to old and young, and when you put one up in your house, on your porch, garage, or any place about your premises, you will be surprised how quickly you will take the little prophet's predictions.

Instructions are given with each house and are printed in English and German.

Quite a large number have already been sold, and from now on uncertainty about the weather will surely be less in many homes in this vicinity. This sale will last for a short time only, or until the stock on hand is gone. Just 56 cents and the picture accompanying this story and the weather house is yours at
