A Furniture Sale that is DIFFERENT from the numerous disposals of furniture that usually take place during August. It is DIFFERENT, because it was planned in a different way, and the difference is plainly seen.

When this furniture was purchased, reliability in the wood and making was first-thought, and when a piece was represented as solid mahogany, it had to prove solid mahogany; or if called "cabinet made," it had to be made by hand.

Now in purchasing an exceptionally large amount of furniture—good furniture understand—the maker willingly granted a special discount in price, and such amounts are what you will save.

As to the much-talked-about-biggest-saving, make comparison; but compare quality with quality; detail with detail; reputation with reputation, and see how much you'll profit! Price is not everything by all means.
