DAUPHIN COUNTY VETERANS TO ATTEND REUNION

Many veterans in the upper end of Dauphin county are planning to attend the final reunion and dinner of the Schuylkill County Civil War Survivors' Association on Labor Day at Pottsville. Directors of the Merchants' Association of Pottsville are raising funds for the event and have extended an invitation to Dauphin county soldiers.

Schuylkill county volunteers made an enviable record in the Civil War. It sent 15,000 men to the war, including the Forty-eighth Regiment, Pennsylvania Volunteer Infantry, which immortalized itself by constructing the historic Petersburg mine. Full companies of the famous Seventh Pennsylvania Cavalry were recruited entirely in that county.

On the merchants' committee making plans for the reunion are Thomas Lawrence, Colonel James Archibald and George Zeh, all of Pottsville.

New Antiseptic May Save Many From Death

Paris, Aug. 6.—Dr. Alexis Carrel, of the Rockefeller Institute of Medical Research, of New York, and Dr. Henry D. Dakin of the Lister Institute, have discovered, after exhaustive experiments at the Compiègne Military Hospital, what they believe is the ideal antiseptic, which, if applied in time, will make infection in wounds impossible.

The most powerful antiseptic known to science is hypochlorite of lime, but its use is injurious to the tissues, owing to its acidity, and it does not keep. Doctors Dakin and Carrel have found that these two defects are remedied, respectively, by the addition of carbonate of lime and boric acid.

Wonderful results have been obtained with the new antiseptic. Professor Carrel explained the discovery to the Academy of Science, whose members agreed that it will be of great importance in surgery.

Japs Making Supplies For Russian Forces

Tokio, Aug. 6.—Now that the danger of war with China is over, Japan and Korea are engaged in making supplies for Russia and her allies. The war brought big financial losses to Japan, but the gaps are being filled in part by the furnishing of guns, ammunition and general necessities to the armies at the front—particularly the armies of Russia.

Officially, Japan has given increased practical expression to her friendship toward Russia by going to the limit of dismantling some of her fortifications on the northeastern coast of the empire. Big coast guns stripped from these fortifications have been shipped to Vladivostok and thence been forwarded to Russia to strengthen the artillery of the armies of the Czar.

Ivangorod Occupied by Austro-German Forces

Vienna, Aug. 6, via London.—The occupation of Ivangorod yesterday by Austro-German forces is announced in an official telegram from the front.

The evacuation of Ivangorod apparently was admitted last night by Petrograd in an official statement which said "in the Ivangorod district the Russians have crossed to the right bank of the Vistula blowing up the bridges behind them."

A statement issued later in the night explained that the Ivangorod forts were not properly constructed for modern warfare. This statement was made "in reply to the Austrian claim that a great victory was achieved in Ivangorod capture." It further states that all the provisions in the city were "methodically" removed, after which the Russian rear guard blew up the concrete basis supporting the brick casemates of the forts, destroyed the bridges and crossed the river.

Ivangorod is located at the confluence of the river, and the Petrograd. It is situated on the railroad running to Lukov and Brest-Litovsk and also on a line connecting with Warsaw.

Austrian Note Ready to Be Forwarded to Vienna

Washington, Aug. 6.—The American reply to Austria-Hungary's recent diplomatic note suggesting an embargo on war exports to the allies, on the ground that the traffic has grown to proportions which violate American neutrality, virtually has been finished by the State Department and will be dispatched to Vienna within a few days.

The note reiterates the position of the United States, as it was expressed on a previous occasion to Count von Bernstorff, the German Ambassador, that "the placing of an embargo on the trade in arms at this time would be a direct violation of the neutrality of the United States."

Austria's contention that "a neutral government is not permitted to allow unhindered trade in contraband of war, if this trade assumes such a character or proportions that the neutrality of the country is thereby impaired," is declared in the American reply to be impractical. The United States contends that a limit beyond which the amount of war exports to a belligerent country is not permitted to a non-belligerent, cannot be arbitrarily set.

Wethersfield, Conn., Aug. 6.—With the words of "Not guilty" on his lips, Bernard Montvid, was hanged in the State prison at Wethersfield this morning shortly after midnight, for the murder in New Britain on Feb. 8, last, of the Rev. 'BUMPS' THE BANE OF MANY BOROUGH ROADS

[Continued From First Page.] To improve roads just over the borough line. But there is a point raised about liability for improvements on a road once improved or some other question involving a few dollars or the betterment of a highway running past another man's property. However, a petition for the improvement is under way and this obstruction may be overcome.

Trouble at Paxtang. Out in Paxtang the condition of the pike, which is a borough street and also a part of the State main highway system, was literally so bad that the State, on the assumption that a portion of it having been built by State aid in township jurisdiction days, went into the east end of the borough and began to repair the road so that it would not go to pieces. In the west end disintegration is proceeding very rapidly and the borough rather are trying to figure out a way to accept a State-aid proposition without getting into a financial hole deeper than some of the ruts in the pike.

The city's paved Derry street abuts the pike in Paxtang on the west just as the improved State highway abuts it on the east. But, in between—well, just its typical borough highway. Camp Hill, after pettifoggery and fussing for many months, voted a loan for improving the borough street which is a main and much travelled highway. The State happens to be pretty busy just now and the improvement is not coming along very rapidly.

IVANGOROD CAPTURED

Berlin, Aug. 5, via London, Aug. 6, 11:30 a. m.—The Russian fortress of Ivangorod, situated on the Vistula river, forty-five miles southeast of Warsaw, was captured by the Teutonic armies to-day.

Brick Forts Do Not Meet Requirements of Modern Warfare

Petrograd, Aug. 5, via London, Aug. 6.—The forts at Ivangorod, constructed almost entirely of brick, do not answer the requirements of modern warfare, according to an official statement issued by the Russian general staff in reply to the Austrian claim that a great victory was achieved in Ivangorod's capture.

"Last October," the Russian statement says, "enemy attacks were not repulsed on the line of the fortified circle but on positions constructed to meet the advance. Because of the impossibility of Ivangorod sustaining a siege, all its provisions were methodically removed to-day."

"On some of our lines west of Ivangorod our rear guards detained the enemy for some days, without heavy fighting, but on Wednesday, confirmably to our general plan of action, these rear guards blew up the concrete bases supporting the brick casemates of the forts, destroyed the bridges and withdrew to the right bank of the Vistula."

FIGHTING IN DARDANELLES

London, Aug. 6.—The situation in the Dardanelles on the front held by the Australian troops is excellent, although there has been continuous heavy fighting, involving serious casualties on both sides, according to the British press representative on the Gallipoli Peninsula.
