RAILROADS NEW FREIGHT ORDER · FOR SMALL PACKAGES

Benefits Eastern Shippers on the P. R. R.; Quick Service in the Future

Small shipments of freight from east to west in the future will receive the same prompt attention as carload shipments. This information was made public by the Pennsylvania Rall-racd freight department to-day:
Hereafter when an eastern shipper has a small package of freight to go to any of the more important cities in the North, in the Missouri river territory or in the Southwest he will be able to send it in a car that will go straight through to destination without the package being transferred to any other car.

out the package being transferred to any other car.

The Pennsylvania Railroad has in-augurated a practice of sending through cars of merchandise freight by its Star-Union Line daily from New York to far-western points, regardless of the quantity of freight offered for shipment.

shipment.

Heretofore small consignments of merchandise from New York to western points have been transferred at various junction points en route, thereby causing delay. The inauguration of the improved service by the Pennsylvania means that hereafter merchants will be assured of a quicker and safer transportation service than they have hitherto enjoyed.

solicitor with the assistance of Roderlick J. Gillis, of the Pennsylvania Waterways Commission. For years it has been known that filling in of the Mill Creek channel was in progress while many buildings were being added to the number along the little stream. This restriction of the flood waters to so narrow a channel is believed by engineers to have been the principal cause of the disaster. Shortening of bridges and culverts also will be considered, the data to be used at the coroner's inquest being turned over to the Government for its guidance.

Forces Increased
The forces of men working in the wreckage were further increased today, and hundreds of wagons were pressed into service. Dynamite was brought into use, and such piles of debris as did not yield readily were plown to pieces. The first efforts of the workmen was toward clearing pathways across streets choked, with broken buildings and ripped up paying.

Steps to Abolish Grade Crossings Will Be Taken by Commission

lations of a number of women's colleges are cited in a bulletin on fire prevention and precautions issued by the State Department of Laartment of La and 'Industry

Department of Labor and 'Industry, the arrangements of the students beins complimented and commended to the manufacturers and others who receive the departmental publications. Among the colleges whose regulations are given considerable attention are Bryn Mawr, whose fire rules are furnished by the 'head fire captain' of the students. They are given in detail with all of the duties. The fire rules of Vassar and Radcliffe are also cited at length as some things which might be patterned after in this State. One of the interesting things from the Vassar regulations is that girls are fined 25 cents for failure to attend fire drill or to register, while for three offenses they lose their privileges. In addition to giving considerable information on fire drills from the colleges the departmental bulletin goes into detail as to the necessity for having fire drills in every manufacturing establishment as well as schools and urges frequent and periodical tests of every one connected with the places. periodical tests of every one connect with the places.

periodical tests of every one connected with the places.

Many Ask Pensions. — Departments of the State government from those presided over by the Governor and Attorney General to the Auditor General and even the Secretary of the Commonwealth have been receiving applications from women desiring widow's pensions. Many of the applications come from countes where there are no boards of trustees and they have to be returned with the information that if county commissioners make petition to the Governor trustees will be named. Some of the tales told in the letters are pathetic, but the State officials can do nothing to help, as the procedure is very clearly outlined in the new act.

To Abollsh Grades.—Consideration

to help, as the procedure is very clearly outlined in the new act.

To Abolish Grades.—Consideration of a plan to bring about systematic reduction of the number of grade crossings in Pennsylvania is to be given by the Public Service Commission this month, a committee of the commission having been named to study the proposition. The commission has gathered a large amount of data regarding the crossings, of which there are about 10,000 on public highways in the State, and the general character of each crossing has been listed. Information has also been gathered regarding the traffic conditions. While nothing has been determined upon, it is believed that the commission will formulate a general plan and take up the question with the railroads, endeavoring to arrive at some agreement or general understanding regarding treatment. The problem is one involving such an immense amount of money that it will take years towork out.

Would Defeat Aims

According to a brief message recieved here to-day from Carranza the pproposal to restore the constitutional is succession to the president would defeat the regarding the crossings, of which there are about 10,000 on public highways in the State, and the general character of each crossing has been listed. Information has also been gathered regarding the traffic conditions. While nothing has been determined upon, it is believed that the commission will formulate a general plan and take up the constitutional period, and then to have the congress ratify them—translated them into law."

It is argued that Tagle is neither than than Villa.

one involving such an immense amount of money that it will take years to work out.

Will Buy Deer.—From 1.000 to 1.200 deer and hundreds of wild turkeys will be liberated in the game preserves and woods of Pennsylvania under the plans of the State Game Commission this fall and winter. Negotiations are now under way for the purchase of deer in Michigan and other States, where they are to be taken in a wild state, and they will be shipped in when conditions are favorable. These deer will be placed in the game preserves for breeding purposes and in counties which have been closed to deer hunding for a term of years under recent acts. There are now a dozen counties in which deer may not be hunted. The funds for the purchase of the deer and the turkeys are being taken from the hunters' license revenue. The turkeys will be liberated in counties where natural conditions are suitable. Stocking with quall and pheasant will also be carried on.

Islied Selected.—Warren P. Laird, of the University of Pennsylvania, has been chosen as the adviser of the State Meade Monument Commission which is in charge of the erection of the statue to the Gettysburg commander at the national capital. Mr. Laird will look after the preliminary arrangements from an artistic and architectural standpoint and locate the monument and attend to other details. The commission has not yet selected a sculptor, but will probably do so during the First. Bids,—The first contracts.

sculptor, but will probably do so during the Fall.

The First Bids.—The first contracts for construction of highways since the new administration in the State Highway Department will be let next week, when bids will be opened for sections of highways in Muncy, Milton and Stroudsburg, to be built on the State aid plan. Other contracts will be let later on, including portions of the Baltimore pike, in Delaware county. The new system of patrolling roads for maintenance will be established about the middle of the month, some of the preliminary details not having been completed.

preliminary details not having been completed.

Good Waier Rights.—Through purchases of forest tracts in Franklin, Fulton and Union counties the State Forestry Commission in the last month has secured some valuable water right properties. The tracts are located closed to existing preserves and will be important in the future when the State turns to its woodlands for a greater measure of revenue. The policy has been adopted of securing lands which contain streams or water supply, whole districts which furnish much water being now owned by the Commonwealth.

districts which furnish much water being now owned by the Commonwealth.

To Complete Arsenal.—State officials believe that the bids to be opened on Tuesday for completion of the State arsenal will be within the money available and immediate steps will be taken to have the building finished. The basement and first floor have been ready for some time. The new arsenal, which is fire proof throughout will be large enough to take care of equipment for many more organizations than are now included in the National Guard. It has been planned with a view to future requirements.

Inspection Under Way.—Systematic inspection of the smaller hospitals and homes under supervision of the State

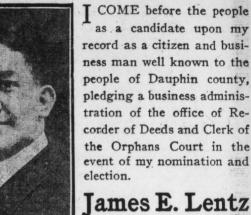

Catholic Societies Open

Convention August 15

inspection of the smaller hospitals and homes under supervision of the State Board of Public Charities is being made by the agents of the board and the results are being prepared for submission to Governor Martin G. Brumbaugh and the members of the board. The jails and almshouses in every county in the State have been invospected in the last few months and in a number of cases orders were issued for improvements.

Guard Retirements.—National Guard retirements include Major Fred Sharpe, Third Infantry, as lieutenant-colonel, and Major W. C. King, Twelfth Infantry, as lieutenant-colonel.

Bernardino Machado Is President of Portugal

[Continued From First Page.]

ual support, although the diplomats are not sure that this can be accomplished unless the military leaders can be eliminated.

One of the most important cases which will be considered in efforts to solve the Mexican problem is the weight to be given to the claims of the military chiefs and what concessions between them can be arranged.

Some of the conferees it was understood were impressed with the fact that General Carranza's military successes and the territory held by him entitle him to greater consideration than Villa.

Would Defeat Aims

By Associated Press
Lisbon, Aug. 6, via Paris, Aug. 7.—
Bernardino Machado was elected by
congress to-day president of the Republic of Portugal. Senhor Machado,
who was supported by the two principal parties, was chosen on the third
ballot by a majority of 134 of the
379 members present.
The new president is popular with
all classes in Portugal and although
large crowds assembled outside the
chamber to await the action of Parliament his election generally was considered a certainty.

One of the stories regarding Senhor Machado is that he served as Portuguese minister to Washington in 1900 and 1901 under the name of Marquis De Santo Thyrso, but was recalled because he made a premature announcement to his country of President McKinley's death, which resulted in Lisbon sending messages of cendolence four or five days before the President died.

Teutons Endeavoring to Surround Russian Armies

By Associated Press

London, Aug. 7, 12.03 P. M.—Holding the bridge heads at Warsaw over the Vistula river, the most formidable military obstacle in Eastern Europe, Germany and Austria-Hungary, having conquered the river line and with it invaded Russian territory for an average depth of 100 miles along a front from the Baltic to Bukowina. are now throwing their forces forward in an endeavor to accomplish what Russia's allies have so feared—the complete envelopment of the Russian armies.

The British press, basing its opinions on Petrograd dispatches and the lack of reports to the contrary from either Berlin or Vienna, is inclined to the view that the forces of Grand Duke Nicholas retired from Warsaw virtually intact; but there is an increasing disposition not to minimize the seriousness of the situation as it still exists, and the anxiety of the quadruple powers seems to be manifested in renewed pressure to bring the Balkan states in line on the side of the entente powers. military obstacle in Eastern Europe, cession. His qualification would in to teart yand automatically restore the constitution.

"If the constitution is in this manner restored," says General Carranza's pitel, "it would effectually prevent tree putting into effect of the principles of the revolution as were measures by military decrees because these things and only be done in the way indicated and during the extra constitutional principles of the revolution, would be as an only be done in the way indicated and during the extra constitutional the revolution would be as if it had been been fought, and the ideas underlying it as if they had never been fought, and the ideas underlying it as if they had never been sometived, and Mexico would be as Mexico was before, except for the loss of life, destruction of property and the paralysis of business. It would indeed a short cut route-th complete victory for the enemies of the revolution."

The argument contends there has been no member of the Madero cabingt since Pedro Laszurian who could at the complete victory for the enemies of the revolution.

Swedish Army Said to Be Fully Mobilized

Atter an outline of General Carranza's qualifications the brief says he admits Mexico can scarcely prosper without the co-operation of the United States, and says that if recognized the states and says that if recognized the states, and the states will find in the states of the other Mexican factions, but to a meritant of the states and says that if recognized the states and says that if recognized the states and says that if recognized the states and sa

military faction in Mexico is in control of the country or can be considered as triumphant in the republic. That the real purpose of the revolution was accomplished a year ago when Huerta was overthrown, and that the strife which has continued since has been over factional differences and has not been in reality a revolution. That it considers General Villa while financially weakened, still an active element in Mexican affairs who must be regioned with in an adjustment. Fall of Gorizia Is Now Believed Imminent

By Associated Press
Paris, Aug. 7.—After a desperate battle the Italians have stormed and captured the summit of Monte San Michele, which dominates Gorizia, says a Petit Journal dispatch from Turin. The fall of Gorizia, 22 miles northwest of Triest, on the Isonzo, now is believed imminent, the dispatch adds.

must be regkoned with in an adjustment. That the so-called Cientificos do not enter into the problem now because it is considered that the overthrow of Huerta disposed of that element. That the greater portion of Mexico is not at peace as General Carranza claims because fighting continues in many sections from Tehuantepec, to the Rio Grande and from Vera Cruz to Mazallan. the Rio Grande and from Vera Cruzto Mazatjan. That the first problem to be solved in restoration of peace is to find for provisional president a man who represents the cause of the original revolution against Huerta, but who does not necessarily represent any of the factions now at war. This outline is the first authoritative statement of the basis upon which the United States is proceeding. Italian Submarine Sunk by Austro Under Sea Boat

By Associated Press
Paris, Aug. 7, 4.55 a. m.—The Italian submarine Nereide is reported to have been sunk in an encounter with an Austrian submarine off the Island of Pelagosa in the Adriatic Sea according to a special dispatch from Rome.
