

THIS WOMAN'S SICKNESS

Quickly Yielded To Lydia E. Pinkham's Vegetable Compound.

Bridgeton, N.J.—"I want to thank you a thousand times for the wonderful good Lydia E. Pinkham's Vegetable Compound has done for me. I suffered very much from a female trouble. I had bearing down pains, was irregular and at times could hardly walk across the room. I was unable to do my housework or attend to my baby I was so weak. Lydia E. Pinkham's Vegetable Compound did me a world of good, and now I am strong and healthy, can do my work and tend my baby. I advise all suffering women to take it and get well as I did."—Mrs. FANNIE COOPER, R.F.D., Bridgeton, N.J.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Dies in Surf After Saving Girl Bather

Wildwood, N. J., Aug. 9.—In an effort to save a young woman from drowning, John J. Young, of 1152 Erie avenue, Williamsport, Pa., was drowned here at 10 o'clock yesterday morning. A group including Young and the girl were bathing off a forbidden section of the beach at Bennett avenue, where signs and danger flags are placed, but no guards are on duty. The beach shelves rapidly and the girl waded beyond her depth. Young swam to her assistance and pushed her to safety in shallow water, but was too exhausted to follow, and called for help. Lifeguards ran from a distant part of the beach, but Young, frantic with fear fought for 15 minutes before he could be brought to shore. He was still breathing, but succumbed, despite the use of a pulmotor.

Ready Help

In time of physical trouble caused by indigestion, biliousness resulting from torpid liver, inactive bowels, is always given, quickly, certainly, safely by the most famous of family remedies

Why Weak Nervous People Should Take Iron to Build Them Up

Stimulants and Narcotic Drugs Worse Than Useless Says Dr. E. Sauer, Author of Medical Articles on Public Health

Contrary to general opinion, a weak, nervous condition is always dangerous. Without iron, your blood soon loses its oxygen-carrying power and can no longer purify itself, in consequence of which poisons accumulate which weaken both your body and brain, make you extremely nervous and irritable, pale and anemic, often cause fits of great despondency, and undermine all your vital organs, leading to the development of dangerous diseases which have landed many a man and woman into an untimely grave. In such cases it is worse than useless to take stimulants and narcotic drugs, which "pick you up" for the moment, maybe at the expense of your life later on. What you need is a true blood food—iron. "A man of blood and iron" has always been synonymous with great power, showing that for centuries physicians have well known and prized the great value of iron. The only trouble has been that the older forms of iron often upset the stomach and were so difficult to assimilate that they usually actually got into the blood, but with late discoveries of newer preparations of iron all this trouble has been entirely removed. Purified iron, for example, is easily assimilated and does not disturb the stomach; on the contrary, it aids digestion. Two five-grain tablets taken three times per day after meals will quickly put renewed health and vigor into any weak, nervous man or woman and give you the kind of strength that stays there. E. Sauer, M. D.

Note: The publication of the above article is authorized by the Garfield Public Health Laboratories. It is desired to instruct people to become strong and healthy without the use of dangerous drugs and stimulants which are so often taken to "brace one up."

Upon inquiry it is learned that Nutsated Iron is carried in stock by Kennedy and other leading druggists in this city.—Advertisement.

NICE QUESTION IS RAISED ON TAXATION

Washery and Dredging People Contend There Is No Way of Telling When Coal Is Mined

NANTICOKE GETS FIRST

Luzerne School District Leads in School Payments—News of the State Capitol

While companies and firms engaged in handling culm or washing or dredging coal have been filing reports with the Auditor General under the terms of the anthracite coal tax law, the point was raised to-day by an attorney for a coal washing company that the coal washed or handled from banks or streams could not be taxed because there is no way of telling when it was mined. The question raised is that the act can only tax coal mined since the act when into effect.

Officials of the Auditor General's department do not think that the point will hold and say that the act covers coal mined and prepared for market.

Most of the coal dredging companies are filing reports just as are the big producers of anthracite. For the convenience of the companies having several collieries, a form of report giving summaries has been prepared.

Nanticoke Gets First.—Nanticoke got the first warrant for payment of State school appropriation sent out from the Treasury to-day. Other districts will be paid during the week.

Big Increases Filed.—The Pittsburgh Hotels Company, a new Pittsburgh company, to-day filed notice of increase of stock from \$5,000 to \$1,735,000. The Birdsboro Stone Company, of Philadelphia, filed notice of increase of stock from \$1,000,000 to \$1,500,000 and of debt from \$440,000 to \$480,000.

Brook Settlement Record.—Four thousand settlements for State taxes for this year were ordered by the Auditor General's department last week, breaking the record for a week. The work is greater than usual for the reason that new bookkeeping methods have been adopted and many new accounts had to be opened.

Public Service Session.—The Public Service Commission will meet to-morrow morning with the usual big schedule of contracts. Several involve telephone companies in this district.

Investigating Cases.—Dr. E. F. Royer, chief medical inspector, went to Skipack to-day to make an examination of a case of smallpox reported in that district.

Bids To-morrow.—The bids for the three sections of State aid highway will be opened to-morrow. Soon after Commissioner Cunningham will go to Erie to inspect damage done to State roads by the cloudbursts.

Preparing Expense Accounts.—George D. Thorn, chief clerk of the State Department, is preparing for the expense accounts which will be filed after the primary and general election. It is believed almost 100,000 will be needed in the State.

Mr. Hall Returns.—W. R. D. Hall, of the State Highway Department, who made the survey of the route for the "Seeing Pennsylvania" tour planned by the Governor in October, returned to-day.

Making Studies.—Plans for the preliminary arrangements for studies to codify law on a number of subjects are being made by James N. Moore, director of the State Legislative Reference Bureau, but it will be months before the drafts can be completed. The general idea is to follow the plan in making the codes submitted to the last Legislature. The laws will be examined back to Colonial times and codes made with mention of acts or portions of acts to be repealed. Drafts will then be printed for general criticism, but it will be well on in 1916 before they are prepared.

New Bulletin Planned.—Arrangements are being made for issuance of a bulletin by the Department of Agriculture which will epitomize information on dairying and buttermaking. C. H. Van Norman, of State College, will prepare an article on feeding of cows; C. B. Cochran, of West Chester, will discuss milk and its examinations, and Mrs. Jean Kean Foulke, of Chester county, will write on buttermaking.

The Road Patrol.—Highway Commissioner Cunningham is at work on the list of men to be named for the road maintenance patrol system, special care being taken to secure men who will meet requirements. There have been so many applications that it is taking more time to get started than expected.

To Attend Convention.—James Sweeney, chief of standards, will leave Friday for Philadelphia to attend the State convention of sealers. Harry A. Boyer, of this city, will preside.

Arrested for Owls.—Several arrests have been made by game wardens in eastern counties for sale of owls. There is a State law protecting certain varieties.

Second Gets Ready.—The Second Infantry is organizing its battalion to go to the Panama-Pacific Exposition. The men have been preparing for the trip for months.

Does Not Expect Trouble.—Commissioner of Health Samuel G. Dixon does not expect any difficulty following the Erie flood. In a statement just issued he said that he thought the energetic and careful manner in which the work of cleaning up was being handled that dangers would be overcome.

Armory Board Meeting.—The State Armory Board will meet on Thursday night at the Indiana encampment. The Philadelphia, Washington and Scranton armories will be considered.

Wants More Money.—The Luzerne county mothers' pension board is rather disappointed over the outcome of the distribution of mothers' pension funds. The Luzerne people had expected more money.

Home From West.—Chief of Mines James E. Roderick has returned from a trip of inspection to western districts. He is getting ready to organize two new districts.

Engineers in Camp.—The State's two companies of engineers went into camp Saturday at Belvoir, Va. The men will have two weeks' work with the regulars. This year, however, in Western Pennsylvania, the four batteries, the field hospitals and engineers are all at camp.

FILM CARBON PLANT STARTS Product of Factory at St. Mary's Superior to European Shops. Kane, Pa., Aug. 9.—The new projector plant of the Speer Carbon Company at St. Mary's started operations Saturday. Motion-picture carbons are manufactured at the new plant, which is the only one of its kind in the United States. Before the outbreak of the European war carbons were imported from Germany and experts who have examined those manufactured at St. Mary's say they are superior to those that were imported into this country. The new plant has a capacity of 10,000 carbons daily.

We deeply appreciate the striking expression of public confidence in this live store which followed the announcement of the half yearly

MARK-DOWN SALE

Of our Summer Stock of High Grade Clothing, Furnishings, Boys' Clothes, Underwear, Hosiery, Sweaters and Everything else, except Arrow Collars.

In spite of our modern facilities, our big selling force of regular salesmen and as many efficient "extras" as we could press into service, we came very close to being swamped by the tidal wave of eager buyers who thronged our store to get their share of fine merchandise and big money-savings except Arrow Collars. At extreme price reductions.

But please do not get the idea that the business done so far tremendous though it has been, has in anywise lessened the opportunities for the exercise of your personal preference. For the stock so large and varied as ours---approximately 7,300 suits cannot be sold out nor even seriously depleted in a few days' selling.

So your chances are just as good to-day or to-morrow as on the opening day. And if you happen in when we are extremely busy---as on Saturday afternoon for instance---a little time and patience on your part will be amply rewarded by the big and unmistakable bargains you'll get.

City Sealer May Be Chosen State Association Head

An automobile tour of Philadelphia, a side trip to Atlantic City and a "shirtwaist" snapper dinner in Harbinger Hall, Shackamaxon street near Girard avenue, are among the social events arranged for the program of the fourth annual convention of the Pennsylvania Association of Sealers of Weights and Measures in the Quaker City, August 15 to 18.

Sunday, August 15, the visit to the seashore will be made; Monday afternoon there will be the auto trip and in the evening the "shirtwaist" dinner. Tuesday afternoon the delegates will visit the shipyards and a vaudeville entertainment for that evening will close the social end of the session.

Election of officers will be held Wednesday, August 18, and it is probable that Harry D. Reel, Harrisburg's city sealer, will be chosen president. This is desired by a majority of the delegates; it is understood, because of the importance of keeping the head of the organization in close touch with the State Bureau of Standards.

Harry A. Boyer, Dauphin county's inspector of weights and measures, has been president since the organization, nearly three years ago.

Mr. Boyer and James Sweeney, secretary of the association and chief of the Bureau of Standards, are among

those scheduled to speak at the convention. Other speakers will be Dr. S. W. Stratton and Louis A. Fischer, of the national Bureau of Standards, Washington, D. C.; C. F. Borgel, York, and Thure Hanson, commissioner of weights and measures of Boston.

Republican Club Picnic at Boiling Springs Aug. 21

Final arrangements for the annual picnic of the Harrisburg Republican Club, to be held at Boiling Springs, Saturday, August 21, will be made at a meeting of the committee in charge this evening in the clubrooms, 26 North Second street.

One of the features of the outing will be a baseball game between the married and single men of the club. This contest is an annual event and for the past three years has been won by the benedicts. But this year, sagely declares H. Eisenberger, manager of the single men, there will be some surprises. Secret practices are being held. It is said, and Manager Eisenberger has declined to announce his line-up before the day of the contest.

Another feature will be the foot races. Rumor has it that Charles Tress is planning a coup in this event. Tress, the rumor goes, is practicing daily on the island diamond and already can make the circuit of the bases at express train speed.

There will be dancing from 1 o'clock

in the afternoon until 7.30 in the evening.

Personal and Social

ATTORNEY AND MRS. LEIBY ARE OFF FOR THE WEST

Attorney Scott S. Leiby of Marysville, will start Wednesday with Mrs. Leiby for an extended western trip of five weeks. They will make stops at important cities and visit the Yellowstone Park as well as both exhibitions in California. Returning they will come by way of Seattle, Vancouver and the Canadian Rockies.

MR. AND MRS. J. L. SCHLOSSER ENTERTAIN FOR NEWLY-WEDS

Mr. and Mrs. J. L. Schlosser of 1844 North street entertained at dinner last evening at their residence in compliment to Mr. and Mrs. Theodore Sweigert of Lisburn who were recently married. The bride was formerly Miss Ruth Fackler of this city.

Pink and white asters graced the center of the table around which gathered Mr. and Mrs. Sweigert, Mr. and Mrs. Walter Hoover of Penbrook, Mr. and Mrs. William Gamber, Miss Marguerite Gamber, Miss Susan Schlosser, John Harbold, Mr. and Mrs. J. L. Schlosser.

Says Rockefeller Should Be in Cell With Lawson

Philadelphia, Aug. 9.—Gifford Pinchot last night proposed that the United States should buy the properties in Colorado owned by John D. Rockefeller and work them as public claims as a means of settling definitely the labor strife there.

Mr. Pinchot's proposal was made at a meeting held on City Hall plaza to frame protests against John R. Lawson, president of the Colorado mine workers, being sentenced to life imprisonment at the trial of strikers. Demonstration was under the auspices of the Federal Council of Churches of Christ, Labor leaders, including Samuel Gompers and Frank Morrison, president and secretary of the American Federation of Labor, and the Rev. Dr. Samuel Zane Batten, chairman of the Church Federation, condemned the sentencing of Lawson and attacked the integrity of the Colorado courts, declaring they were dominated by the Rockefeller interests.

The crest of enthusiasm of an outpouring of 3,000 persons, principally representative of organized labor, was reached when Mr. Pinchot and William Green, the latter secretary-treasurer of the United Mine Workers of

America, advocated prison bars for John D. Rockefeller, Jr. "If Lawson is guilty, not of actual murder, but for leading the striking miners, then Mr. Rockefeller, as the leader and employer of murderous gunmen, should be in a cell the same as Lawson," they asserted.

Noted Gambling Den Is Raided at New Orleans

Special to The Telegraph. New Orleans, Aug. 9.—Dick Hyland's place, the most celebrated gambling resort in the South, is closed and 250 gamblers or keepers are in jail or out on bond. Stacked in the Washington Artillery Armory are faro tables, roulette wheels, wheels of fortune, crap tables, keno, cards and every conceivable kind of gambling device.

Mr. Pinchot's proposal was made at a meeting held on City Hall plaza to frame protests against John R. Lawson, president of the Colorado mine workers, being sentenced to life imprisonment at the trial of strikers. Demonstration was under the auspices of the Federal Council of Churches of Christ, Labor leaders, including Samuel Gompers and Frank Morrison, president and secretary of the American Federation of Labor, and the Rev. Dr. Samuel Zane Batten, chairman of the Church Federation, condemned the sentencing of Lawson and attacked the integrity of the Colorado courts, declaring they were dominated by the Rockefeller interests.
